Hope Revived, Then Wanes in Hunt for Plane

Flares Seen at Sea Now Believed to Be Only Shooting Stars

HONOLULU (AP)—Hope virtually flickered out today of rescuing any of the 44 persons missing since Friday night on a vanished Pan American stratoscruiser in the Pacific Ocean.

Three flares sighted Sunday night were probably "shooting stars" or from other search aircraft, a Coast Guard spokesman said. "They were flight flares and that's always kind of doubtful" as a distress signal.

Investigation of the flares continued after daybreak as part of a gigantic search operation covering 172,440 square miles of sea.

But no trace of the missing plane, named "Romance of the Skies," had been found at daylight today, more than 2½ days after last word from the huge four-engine Clipper.

Additional search aircraft flew out from Oahu Island at daylight to join the Pacific's greatest air-sea rescue mission. Planes, helicopters, submarines, the aircraft carrier Philippine Sea and a small fleet of Coast Guard vessels searched the ocean's swells for traces of the plane after a series of possible clues faded out.

The destroyer escort Epperson had been ordered to investigate the flares sighted Sunday night.

Long range radar-equipped Navy Constellation reported seeing two flares at different points, one 540 miles west of the plane's position when it radioed routinely Friday night before disappearing. The second was slightly west of the first.

AN AIR FORCE plane sighted a third flare some 340 miles west of the Pan American airliner's last reported position.

Surface ships criss-crossed the checkerboard search area, now broken into two rectangular areas under the new pattern. One is 460 miles long and 115 miles wide and the other is 695 miles long and 172 miles wide. Both straddle the path the lost plane covered.

Earlier, hope had flickered and faded with a report of the sighting of a yellow dye marker, "a flare and something red" at a spot 425 miles west of the airliner's last position.

Hours elapsed before two ships reported that nothing could be found at that point. A Coast Guard spokesman said re-evaluation of the sighting, reported by a lone airman, indicated it could have been a school of whales instead of a marker, or possibly other fish.

Another hopeful report—that of an oil slick—was being thoroughly checked by surface craft.

The airliner, Romance of the Skies, carried 36 passengers and a crew of eight from San Francisco toward Honolulu. At 5:04 a.m. Friday it routinely radioed its position 1,028 miles east of Honolulu. The pilot was supposed to make another routine report at 6 p.m. He didn't. The plane abruptly, and silently, disappeared.

Philippine Typhoon Seen Bringing Poll Aid to President

MANILA (AP)—Typhoon Kit lashed Luzon Island today. Political observers saw it as a boost for President Carlos P. Garcia's already strong chances in Tuesday's presidential election.

The big storm, carrying winds of up to 120 miles an hour was expected to cut completely across Luzon, north of Manila, through sections considered strong for major opposition candidates Jse Yul of the Liberal party and Manuel P. Manahan of the Progressive party.

Since typhoons usually bring heavy wind and flood damage, it was considered likely many voters in the rural areas would not be able to reach the polls.

Baby Is Strangled By Auto Window

KANSAS CITY, Kan. (AP)—Lucinda Lynn Howell, 22 months old, strangled Sunday night when her mother rolled up the window of an automobile.

Sheriff's officers said Mrs. Vega M. Howell, 25, told them she was sitting in the front seat of the car with a neighbor and chatting with relatives standing alongside. Three children were playing in the back seat.

There was a draft through a rear window so she reached back and rolled up the glass without looking. She did not see Lucinda Lynn had stuck her head out.

THE COAST GUARD has launched a full scale air and sea search for a Pan American stratoscruiser, (of the type shown above) missing on a San Francisco to Hawaii flight.

Sabina Ham Radio Operator Listens in on Sputnik II

SABINA—Russia's second satellite, Sputnik II was around this area last Friday.

At least, Sabina radio man Everett Woodmansee, received signals from the satellite on what was perhaps its last two transmissions, and it must certainly have been in its closest orbit over Fayette County.

Woodmansee received his first signal from Sputnik II a few hours after it was launched Nov. 3. "The Russians say they launched their satellite Sunday morning," Woodmansee said, "and I first received its signal early Sunday afternoon." According to the "ham operator," the second satellite's radio transmission was not nearly so clear as that of Sputnik I. "That first one really came in loud and clear."

The last two series of signals which Woodmansee received last Friday afternoon's first reception began as a low steady hum at 2:10, built up in intensity and then diminished to its final fade-out at 2:30.

The last reception lasted for two minutes more than the first one of the afternoon, Woodmansee says. "I started getting the signal at 3:54 p. m. and it finally faded out at 4:16 p. m."

"From the figures I have seen" Woodmansee says, "that satellite traveled about 6,000 miles while I was receiving it."

THE SABINA radio and TV repairman also heard the transmissions of Sputnik I a few weeks ago. "But that was an entirely different kind of signal," he says. "I was using my 40 megacycle receiver, in both cases, and the first signal had modulation. It possibly could have been sending intelligible signals, but this second signal must have been used purely for tracking purposes. It was a constant, steady whistle. No breaks were evident that could be giving a message," he said.

As the operator of ham station WSTQH, Woodmansee has checked his observations with both local operators and also others in other parts of the state. "Some operators received an entirely different type of signal on 20 megacycles," he says. "That has led us to believe that the 20 megacycle transmission was the one that provided the Russian observers their information on the little dog's health. It was clearly modulated and could have been interpreted into some sort of message."

After a week of listening, Woodmansee reports that the satellite apparently moved from northwest to southeast during the evening

hours and from southwest to northeast during the morning hours.

"But it sure will be hard to track now that no more radio messages are being transmitted," according to Woodmansee. "I don't know why the transmission ceased, he says. "It may have been faulty radio equipment, a poor battery, or it may have been done by prearrangement."

Chinese Girl, 9, Smuggled To U. S. For Her Parents

BOSTON (AP)—A new life in a free country began today for a 9-year-old Chinese girl who was smuggled out of Red China to be reunited with her parents here after a separation of 8½ years.

Aurora Way flew in Sunday and was smothered in the arms of her mother, Mrs. John Way.

Aurora was left with her grandmother in Shanghai in 1949 because she was too ill at the time to accompany her parents when they came to Boston for a visit.

Shortly after the Ways departed, the city was captured by the Communists.

Last winter Aurora was smuggled out of the country in the hold of a Chinese junk. She was taken to Hong Kong, where immigration laws barred entrance to the U.S.

Later Sen. Leverett Saltonstall (R-Mass) was able to persuade authorities to allow her to come to America.

Crestline Man Is Accused Of Killing Tavern Customer

BUYURUS (AP)—A holdup man who shot and killed a tavern customer late Sunday night was captured early today at a relative's home, Crawford County law enforcement officers said.

The victim was identified as Wallace Kershner, 33, of Rt. 2, Crestline, about 12 miles east of Bucyrus in Crawford County.

Held in Crawford County jail in Bucyrus is Jimmy Eckert, 22, of Crestline. Police said he was arrested at a relative's home in Leesville. They added that the weapon used in the fatal shooting and \$200 taken from Groh's Tavern, about one mile west of Crestline, were found there.

Police said the holdup man pointed a gun at the bartender, demanding he pass over the money in the cash register.

Kershner attempted to hit the holdup man who turned and shot

Bricklayers' Faces Red as Brick at Cornerstone Rites

LONG BEACH, Calif. (AP)—Members of Local 13 of the Bricklayers, Masons and Plasterers International Union gathered Sunday to lay the cornerstone and dedicate their new building. Mortar was laid in the hole prepared to receive the granite stone. The bricklayers hoisted up the stone. It was too big for the hole.

So they carted it back to the old union hall and rescheduled the ceremonies for Nov. 20, by which time the hole will be made the correct size.

Military Dead Of U. S. Get Honors Today

WASHINGTON (AP)—The nation's military dead from all wars are honored today at the Tomb of the Unknown Soldier, where next year three unknowns from as many conflicts will lie.

Gov. Joe Foss of South Dakota, a Marine flying ace in World War II and an Air Force officer during the Korean conflict, was the principal speaker for Veterans Day ceremonies tied to mark the anniversary of the armistice which ended World War I.

When next Veterans Day comes there will be three Unknown Soldiers—symbols of all the unknowns who died in two world wars and Korea. The unknowns of World War II and Korea will be placed in crypts at the tomb on Memorial Day, May 30, 1958.

In Houston, Tex., the nation's oldest living Civil War veteran made plans today to ride in a Veterans Day parade, but relatives said they were not sure he would be able to make it.

Col. Walter W. Williams, who will be 115 Thursday, expressed a desire to ride in an ambulance in the parade here.

Williams is one of two surviving Civil War veterans.

Truman Holds Mum On '60 Candidates

COLUMBUS (AP)—Former President Harry S. Truman isn't saying who his personal choice is for the 1960 Democratic presidential candidate. But whoever it is, says Truman, "I'll be in there fighting for him."

The former President, here during a two-hour layover between trains Sunday night, said he could suggest several possible candidates. But right now, he added, "I'm not making any promises."

On the U. S. missile program, Truman said America could easily surpass Russia in the space satellite field "if we have someone to go ahead and do it."

Pickaway Chest Drive over Top

CIRCLEVILLE—A highly successful Pickaway County Community Fund campaign, which went "over the top" by \$530, has ended.

Total collections in the drive stand at \$29,230.86. However, more checks are expected which will put the fund in even better financial condition.

Nearly every division hit its goal. Industrial collections were \$13,102.74 as compared to a \$13,000 goal. The county turned in \$5,073.86, which topped the \$5,000 goal. Business collections were \$3,775 with a \$3,200 goal.

Residential gifts totaled \$2,609.26 just short of the \$2,800 goal and special groups fell short, collecting \$4,670 of a \$4,700 goal.

Georgia Solon Killed

ROME, Ga. (AP)—Rep. Henderson Lanthan (D-Ga.), 69, a veteran of 11 years in Congress, was killed Sunday when his car and a train collided at a Rome crossing.

Mideast Gripped Anew By Fears of 'Hot War'

Syria Alerting All Army Units Against Turks

By THE ASSOCIATED PRESS
Fears of warfare today gripped the Middle East—scene of many a tension and crisis in recent months.

Syrian army units in the north were ordered on the alert in a show of alarm at what an army spokesman called unusually large Turkish troop movements along the border.

Foreign ministry sources said the cabinet held a two-hour meeting about midnight to consider "the motives of the sudden Turkish activities."

The army spokesman said "large-scale, night - long unusual and unprecedented military movements" of Turkish units took place, and as a result all necessary precautions were being taken by Syria.

This show of alarm about the northern frontier, where Syria and the Soviet Union have been charging Turkey with making provocative gestures, coincided with a huge demonstration here against King Hussein of Jordan.

ABOUT 10,000 demonstrators, mostly Palestinian Arab students, paraded in the streets shouting "down with King Hussein" and crying that he was seeking to negotiate with Israel at the expense of Palestinian Arab refugees.

Speeches in front of the government and parliament buildings also denounced Jordan Premier Samir Rifai as an "agent of the Americans and British."

Cairo newspapers boomed out new attacks against Hussein, charging he was making undercover deals with Israel and predicting the people would trample traitors and oppressors underfoot.

King Hussein struck back at the Egyptian propaganda attacks. He said Egyptian leaders had "sold themselves to communism and exploit Arab nationalism to divert Egyptian public opinion away from the deteriorating situation at home."

Half or more of Jordan's population is composed of Palestine Arabs, people easily stirred by any hint that their claim to their old homes in Israel might be sacrificed in a peace settlement.

The Egyptian and Syrian press and radio have assailed Hussein intermittently since he ousted a pro-Egyptian and leftist government in a major crisis last spring.

The papers renewed the campaign last week, printing various stories about alleged negotiations between Jordan and Israel, and darkly hinting Hussein would suffer the same fate as his grandfather—assassination.

\$17,803 Collected In Chest Campaign

Community Chest cash and pledge collections of \$85 and \$300 were recorded here Thursday and Friday, Executive Secretary Perse Farlow announced today—bringing the end-of-week grand total to \$17,803.

Goal for the Fayette County drive is \$23,500. "Quite a number" of reports are yet to be made, Farlow said.

Red Report Says Russian Space Dog May Be Dead

By THE ASSOCIATED PRESS
Death reportedly has claimed the Russian dog Laika, first earth creature to penetrate outer space.

The report of Laika's death was published today by the Italian Communist newspaper L'Unita, quoting its Moscow correspondent. It said Laika was "put to sleep by a strong narcotic contained in the last bite of food to avoid its suffering prolonged agony."

The headline said "Laika is Dead," although the story did not use those words. It said, "Laika will never return to earth."

There was no direct word from Moscow on Laika's fate, but the Soviet news agency Tass said Sunday night that "the program of scientific research as planned through the second Sputnik has been fulfilled completely."

Later, Moscow radio reported that Sputnik II had completed its 110th circuit of the earth but made no mention of Laika.

RUSSIA's second space satellite was launched eight days ago, carrying the fluffy little Russian dog in a harness inside. For the first four days, the Russians reported getting radioed information on Laika's body reactions as the half-ton Sputnik sped around the earth at altitudes running up to more than 1,000 miles.

The Tass report said Sputnik II's two radio transmitters now are dead and that direct reports no longer are being received. It said nothing about Laika.

"The program of scientific observations connected with receiving data from this Sputnik was estimated for seven days," the agency said. "At present this program has been fulfilled completely."

In London, Prof. A. C. Lovell, a leading British astronomer, said it was "very, very odd" that the radio transmissions from Sputnik II ended so quickly. He said he can't believe "they sent this rocket up for getting information from it for only seven days."

Another British scientist said Sputnik II may be silent because its signalling apparatus might have been damaged.

"Instruments could have been damaged if the Russians tried to catapult the dog back to the earth," said John Shakeshaft, member of Astronomical Observatory staff at Cambridge.

Sputnik II was launched Nov. 3. The newspaper Evening Moscow said Sputnik I and its carrier rocket had finished more than 550 circuits since their launching Oct. 4. The radio on Sputnik I has been dead for some time.

LAIKA HAD been locked in an airtight compartment inside the second satellite. The Russians said she was fed automatically. A Russian diplomat in Germany said last week an eight-day food supply had been aboard.

Some scientists have suggested the compartment containing Laika could be detached and parachuted back to earth. But the L'Unita report, apparently cleared by Soviet censors, indicated the Russians had no such plans.

In Cambridge, England, Dr. Alan Nunn May, who was convicted in 1945 of giving British atomic secrets to the Russians, said he was ready to volunteer to go aloft in a space satellite.

May, who was released after six years in prison, waving aside any suggestion that he helped give the Soviets the lead in space technology. He said the Russians "put everything into the development of scientists."

Meanwhile, the problem of overtaking the Russians in the space satellite and missiles fields came in for wide-ranging discussion in the United States.

A staff report to the Senate Government Operations Committee recommended an overhaul of U. S. scientific programs. Among other things, the report called for creation of a department of science and technology headed by a new Cabinet officer.

CHICAGO (AP)—A reunited family today marked the end to 11 years of separation, 11 years spent by the American father in seeking to free his Lithuanian wife and two children from a Communist labor camp in Siberia.

Interracial Dating Leads to Prison Terms for Youths

FORT WAYNE, Ind. (AP)—Two 17-year-old high school students, a Negro boy and a white girl, have been given penal terms on charges of delinquency after admitting sex and drinking activities.

Judge William H. Schannen sentenced the boy, James Bowie, to six months on the State Penal Farm, and the girl, Barbara Baker, to the Indiana Girls' School for an indeterminate term.

Fort Wayne juvenile authorities said dancing of mixed groups is common in several local youth centers, and that they know of at least 40 white girls and 30 Negro boys in the city who go on interracial dates. Other white boys are dating Negro girls, they added.

HOOPER made the comments in an address prepared for delivery at the 49th annual meeting of the Grocery Manufacturers of America at the Waldorf-Astoria.

A filmed transcription is to be telecast over the NBC network at 11:15 o'clock tonight.

The ex-President did not directly refer to the Russian satellites, but said "we can well respect the accomplishments of Russian technicians."

Hoover said that "with our own discoveries in science, our inventions official, took the appeal personally to Soviet party boss Nikita Khrushchev, but he met with little success.

Eventually MacDuffie asked Mrs. Franklin D. Roosevelt to intercede. She too spoke directly to Khrushchev.

This year the family was released. Gavcus, who operates a liquor store in suburban Oak Park said he financed most of the Siberia-to-Chicago trip himself.

The wife of the Lithuanian consul, Mrs. Petras Dauzvardis, said this was the first time the Soviets have released anyone from Siberia to settle in the United States.

Three years after they separated, the wife and children were sent to a collective farm in Siberia. Gavcus intensified his appeals. He asked an attorney from New York, Marshall MacDuffie, to help.

MacDuffie, a former United Nations official, took the appeal personally to Soviet party boss Nikita Khrushchev, but he met with little success.

Eventually MacDuffie asked Mrs. Franklin D. Roosevelt to intercede. She too spoke directly to Khrushchev.

This year the family was released. Gavcus, who operates a liquor store in suburban Oak Park said he financed most of the Siberia-to-Chicago trip himself.

The wife of the Lithuanian consul, Mrs. Petras Dauzvardis, said this was the first time the Soviets have released anyone from Siberia to settle in the United States.

Hoover Says U. S. Can Invent Any 'Horrible Weapon' Needed

NEW YORK (AP)—Former President Herbert Hoover expressed confidence today in this country's ability to develop any "horrible weapon" necessary to avert a military attack.

"Our country has had a great warning," he said. "It is on the alert, I have no doubt of our ability to invent any other horrible weapon necessary to deter our enemy."

Hoover made the comments in an address prepared for delivery at the 49th annual meeting of the Grocery Manufacturers of America at the Waldorf-Astoria.

A filmed transcription is to be telecast over the NBC network at 11:15 o'clock tonight.

The ex-President did not directly refer to the Russian satellites, but said "we can well respect the accomplishments of Russian technicians."

MacDuffie, a former United Nations official, took the appeal personally to Soviet party boss Nikita Khrushchev, but he met with little success.

Dayton Man Slays His 2 Sweethearts

DAYTON (AP)—Police said a 31-year-old man involved in a romantic quadrangle has admitted killing his two teen-age sweethearts because he was afraid his wife would find out about them.

The bodies of Miss Beverly Ann Eldred, 17, and Mrs. Deanna Jean Fouch, 16, both of Dayton, were found alongside a county road about five miles south of here Sunday. They had been shot.

Detective Lt. R. C. Beckett of the sheriff's office said Robert Crites, father of four, admitted in a signed statement that he killed both girls.

Crites was quoted as saying he didn't want the girls to do to others what they had done to him. He said he had spent much time and money on them.

Beckett said the statement also mentioned that Crites intended to take the girls' bodies to Colorado and, while there, kill his wife's sister because "she's just like the other two." But he abandoned that idea after the slaying.

BECKETT SAID Crites told of taking both girls for a drive in his car Sunday. He stopped on some pretext, got out, then fired six bullets through a window one girl had opened, he related.

The girls' bodies fell out when Crites opened the door. He said he left them there and drove to his mother's home in suburban Kettering. From there he called Kettering authorities and gave up.

Beckett said Crites told of first meeting the girls in a beer and wine store two months ago.

Crites said he fell in love with Deanna but had promised to marry Beverly. Deanna was separated from her husband.

Caught in a predicament he apparently couldn't solve and afraid his wife would find out about it, Crites said he began making plans 11 days ago to kill his girlfriends. He bought a .32 caliber revolver, the one used in the slaying.

Four bullets were recovered from Beverly's body and head. One bullet was recovered from behind Deanna's left ear.

Crestline Man Is Accused Of Killing Tavern Customer

BUCYRUS (AP)—A holdup man who shot and killed a tavern customer late Sunday night was captured early today at a relative's home, Crawford County law enforcement officers said.

The victim was identified as Wallace Kershner, 33, of Rt. 2, Crestline, about 12 miles east of Bucyrus in Crawford County.

Held in Crawford County jail in Bucyrus is Jimmy Eckert, 22, of Crestline. Police said he was arrested at a relative's home in Leesville. They added that the weapon used in the fatal shooting and \$200 taken from Groh's Tavern, about one mile west of Crestline, were found there.

Police said the holdup man pointed a gun at the bartender, demanding he pass over the money in the cash register.

Kershner attempted to hit the holdup man who turned and shot

Bricklayers' Faces Red as Brick at Cornerstone Rites

LONG BEACH, Calif. (AP)—Members of Local 13 of the Bricklayers, Masons and Plasterers International Union gathered Sunday to lay the cornerstone and dedicate their new building. Mortar was laid in the hole prepared to receive the granite stone. The bricklayers hoisted up the stone. It was too big for the hole.

So they carried it back to the old union hall and rescheduled the ceremonies for Nov. 20, by which time the hole will be made the correct size.

Military Dead Of U. S. Get Honors Today

WASHINGTON (AP)—The nation's military dead from all wars are honored today at the Tomb of the Unknown Soldier, where next year three unknowns from as many conflicts will lie.

Gov. Joe Foss of South Dakota, a Marine flying ace in World War II and an Air Force officer during the Korean conflict, was the principal speaker for Veterans Day ceremonies tied to mark the anniversary of the armistice which ended World War I.

When next Veterans Day comes there will be three Unknown Soldiers—symbols of all the unknowns who died in two world wars and Korea. The unknowns of World War II and Korea will be placed in crypts at the tomb on Memorial Day, May 30, 1958.

In Houston, Tex., the nation's oldest living Civil War veteran made plans today to ride in a Veterans Day parade, but relatives said they were not sure he would be able to make it.

Col. Walter W. Williams, who will be 115 Thursday, expressed a desire to ride in an ambulance in the parade here.

Williams is one of two surviving Civil War veterans.

Truman Holds Mum On '60 Candidates

COLUMBUS (AP)—Former President Harry S. Truman isn't saying who his personal choice is for the 1960 Democratic presidential candidate. But whoever it is, says Truman, "I'll be in there fighting for him."

The former President, here during a two-hour layover between trains Sunday night, said he could suggest several possible candidates. But right now, he added, "I'm not making any prophecies."

On the U. S. missile program, Truman said America could easily surpass Russia in the space satellite field "if we have someone to go ahead and do it."

him, witnesses said.

SHERIFF E. F. Jacobs of Crawford County said Eckert will be charged with murder.

The sheriff said there were a number of witnesses to the shooting. Meanwhile, an automobile belonging to Police Chief Ralph Taylor of Crestline was stolen early today.

Taylor found a man in his car. Taylor said he approached the car and the man said:

"If you take another step, I'll kill you."

Taylor backed toward the house after shining a flashlight in the man's face. The man in the car fired a bullet which lodged above the door of the chief's house. Then he drove away in the car.

The car was found just outside of Leesville.

Mideast Gripped Anew By Fears of 'Hot War'

Syria Alerting All Army Units Against Turks

By THE ASSOCIATED PRESS

Fears of warfare today gripped the Middle East—scene of many a tension and crisis in recent months.

All Syrian army units in the north were ordered on the alert in a show of alarm at what an army spokesman called unusually large Turkish troop movements along the border.

Foreign ministry sources said the cabinet held a two-hour meeting about midnight to consider "the motives of the sudden Turkish activities."

The army spokesman said "large-scale, night - long unusual and unprecedented military movements" of Turkish units took place, and as a result all necessary precautions were being taken by Syria.

This show of alarm about the northern frontier, where Syria and the Soviet Union have been charging Turkey with making provocative gestures, coincided with a huge demonstration here against King Hussein of Jordan.

ABOUT 10,000 demonstrators, mostly Palestinian Arab students, paraded in the streets shouting "down with King Hussein" and crying that he was seeking to negotiate with Israel at the expense of Palestinian Arab refugees.

Speeches in front of the government and parliament buildings also denounced Jordan Premier Samir Rifai as an "agent of the Americans and British."

Cairo newspapers boomed out new attacks against Hussein, charging he was making undercover deals with Israel and predicting the people would trample traitors and oppressors underfoot.

King Hussein struck back at the Egyptian propaganda attacks. He said Egyptian leaders had "sold themselves to communism and exploit Arab nationalism to divert Egyptian public opinion away from the deteriorating situation at home."

Half or more of Jordan's population is composed of Palestine Arabs, people easily stirred by any hint that their claim to their old homes in Israel might be sacrificed in a peace settlement.

The Egyptian and Syrian press and radio have assailed Hussein intermittently since he ousted a pro-Egyptian and leftist government in a major crisis last spring.

The papers renewed the campaign last week, printing various stories about alleged negotiations between Jordan and Israel, and darkly hinting Hussein would suffer the same fate as his grandfather—assassination.

\$17,803 Collected In Chest Campaign

Community Chest cash and pledge collections of \$85 and \$300 were recorded here Thursday and Friday, Executive Secretary Perse Farlow announced today—bringing the end-of-week grand total to \$17,803.

Goal for the Fayette County drive is \$23,500. "Quite a number" of reports are yet to be made, Farlow said.

Pickaway Chest Drive over Top

CIRCLEVILLE—A highly successful Pickaway County Community Fund campaign, which went "over the top" by \$530, has ended.

Total collections in the drive stand at \$29,230.86. However, more checks are expected which will put the fund in even better financial condition.

Nearly every division hit its goal. Industrial collections were \$13,102.74 as compared to a \$13,000 goal. The county turned in \$5,073.86, which topped the \$5,000 goal. Business collections were \$3,775 with a \$3,200 goal.

Residential gifts totaled \$2,609.26 just short of the \$2,800 goal and special groups fell short, collecting \$4,670 of a \$4,700 goal.

Georgia Solon Killed

ROME, Ga. (AP)—Rep. Henderson Lanham (D-Ga.), 69, a veteran of 11 years in Congress, was killed Sunday when his car and a train collided at a Rome crossing.

Red Report Says Russian Space Dog May Be Dead

By THE ASSOCIATED PRESS

Death reportedly has claimed the Russian dog Laika, first earth creature to penetrate outer space.

The report of Laika's death was published today by the Italian Communist newspaper L'Unita, quoting its Moscow correspondent. It said Laika was "put to sleep by a strong narcotic contained in the last bite of food to avoid its suffering prolonged agony."

The headline said "Laika is Dead," although the story did not use those words. It said, "Laika will never return to earth."

There was no direct word from Moscow on Laika's fate, but the Soviet news agency Tass said Sunday night that "the program of scientific research as planned through the second Sputnik has been fulfilled completely."

Later, Moscow radio reported that Sputnik II had completed its 110th circuit of the earth but made no mention of Laika.

RUSSIA'S second space satellite was launched eight days ago, carrying the fluffy little Russian dog in a harness inside. For the first four days, the Russians reported getting radioed information on Laika's body reactions as the half-ton Sputnik sped around the earth at altitudes running up to more than 1,000 miles.

The Tass report said Sputnik II's two radio transmitters now are dead and that direct reports no longer are being received. It said nothing about Laika.

"The program of scientific observations connected with receiving data from this Sputnik was estimated for seven days," the agency said. "At present this program has been fulfilled completely."

In London, Prof. A. C. Lovell, a leading British astronomer, said it was "very, very odd" that the radio transmissions from Sputnik II ended so quickly. He said he can't believe "they sent this rocket up for getting information."

Mother, 2 Children, Freed From Siberian Labor Camp

CHICAGO (AP)—A reunited family today marked the end to 11 years of separation, 11 years spent by the American father in seeking to free his Lithuanian wife and two children from a Communist labor camp in Siberia.

William Gavcus, 47, a naturalized American, greeted his happy family at Midway Airport Sunday.

Seeing them for the first time in more than a decade, he was speechless with emotion.

"Everything dimmed — I was in tears," he told newsmen.

"I'm just beginning to come to. I am the happiest man in this whole, wide world. I do not have the words to express myself."

Monika, his 44-year-old wife, took it calmly. So did their daughter, Rutha, 16, and son Romualda, 13. Neither Mrs. Gavcus nor the children speak English but they

Interracial Dating Leads to Prison Terms for Youths

FORT WAYNE, Ind. (AP)—Two 17-year-old high school students, a Negro boy and a white girl, have been given prison terms on charges of delinquency after admitting sex and drinking activities.

Judge William H. Schannen sentenced the boy, James Bowie, to six months on the State Penal Farm, and the girl, Barbara Baker, to the Indiana Girls' School for an indeterminate term.

Fort Wayne juvenile authorities said dancing of mixed groups is common in several local youth centers, and that they know of at least 40 white girls and 30 Negro boys in the city who go on interracial dates. Other white boys are dating Negro girls, they added.

from it for only seven days." Another British scientist said Sputnik II may be silent because its signalling apparatus might have been damaged.

"Instruments could have been damaged if the Russians tried to catapult the dog back to the earth," said John Shakeshaft, member of Astronomical Observatory staff at Cambridge.

Sputnik II was launched Nov. 3. The newspaper Evening Moscow said Sputnik I and its carrier rocket had finished more than 550 circuits since their launching Oct. 4. The radio on Sputnik I has been dead for some time.

LAIKA HAD been locked in an airtight compartment inside the second satellite. The Russians said she was fed automatically. A Russian diplomat in Germany said last week an eight-day food supply had been aboard.

Some scientists have suggested the compartment containing Laika could be detached and parachuted back to earth. But the L'Unita report, apparently cleared by Soviet censors, indicated the Russians had no such plans.

In Cambridge, England, Dr. Alan Nunn May, who was convicted in 1945 of giving British atomic secrets to the Russians, said he was ready to volunteer to go aloft in a space satellite.

May, who was released after six years in prison, waved aside any suggestion that he helped give the Soviets the lead in space technology. He said the Russians "put everything into the development of scientists."

Meanwhile, the problem of overtaking the Russians in the space satellite and missiles fields came in for wide-ranging discussion in the United States.

A staff report to the Senate Government Operations Committee recommended an overhaul of U. S. scientific programs. Among other things, the report called for creation of a department of science and technology headed by a new Cabinet officer.

Mother, 2 Children, Freed From Siberian Labor Camp

chatted happily in Russian and Lithuanian.

Gavcus married Monika in 1939 on a trip to his native country. He had to leave his family behind when he returned to the United States in 1946, he said. He began then to plead with officials to bring the family together on American soil.

Three years after they separated, the wife and children were sent to a collective farm in Siberia. Gavcus intensified his appeals. He asked an attorney from New York, Marshall MacDuffie, to help.

MacDuffie, a former United Na-

tions official, took the appeal personally to Soviet party Boss Nikita Khrushchev, but he met with little success.

Eventually MacDuffie asked Mrs. Franklin D. Roosevelt to intercede. She too spoke directly to Khrushchev.

This year the family was released. Gavcus, who operates a liquor store in suburban Oak Park said he financed most of the Siberia-to-Chicago trip himself.

The wife of the Lithuanian consul, Mrs. Petras Dauzvardis, said this was the first time the Soviets have released anyone from Siberia to settle in the United States.

Hoover Says U. S. Can Invent Any 'Horrible Weapon' Needed

NEW YORK (AP)—Former President Herbert Hoover expressed confidence today in this country's ability to develop any "horrible weapon" necessary to avert a military attack.

"Our country has had a great warning," he said. "It is on the alert. I have no doubt of our ability to invent any other horrible weapon necessary to deter our enemy."

Hoover made the comments in an address prepared for delivery at the 49th annual meeting of the Grocery Manufacturers of America at the Waldorf-Astoria.

A filmed transcription is to be telecast over the NBC network at 11:15 o'clock tonight.

The ex-President did not directly refer to the Russian satellites, but said "we can well respect the accomplishments of Russian technicians."

Hoover said that "with our own discoveries in science, our inven-

Choose Vocation Wisely, Church Official Urges

Last in Series
Of 'Area Study'
Sessions Held Here

"Every home and every church should feel its responsibility in seeking to guide young people into careful vocational choices and through the total of life to develop a philosophy of vocation to guide all work in which people are engaged," Dr. Richard H. Bauer told a gathering at the fourth and last of a series of meetings of the Ohio Area Study at Grace Methodist Church Sunday evening.

Dr. Bauer, superintendent of the church's Portsmouth district, brought this out in his talk on "A Christian Vocation," in which he said "it is the essence of Christian work to make life count."

Christian work, he emphasized, is not so much the external type of work as it is the "inter-quality of spirit, motivation and attitude."

IN DISCUSSING sacred and non-sacred work, Dr. Bauer stressed that every form of useful work is potentially a Christian vocation. He explained that "vocation means calling" and defined it as "seeing a need in God's perspective and realizing that God has equipped me to meet it." He said that "it is not a matter of what one does to live, but rather what one lives to do," that brings work into the consideration of a Christian vocation.

In the three previous reports on the Ohio Area Study conducted by the Methodist Church to determine how the church (in any denomination) can meet the needs resulting from Ohio's increasing population and the shift of people from congested centers to suburbs of big cities and nearby towns, the need for more churches and ministers was emphasized.

The four meetings were held in the church sanctuary on successive Sunday evenings following potluck family suppers in Fellowship Hall.

THE Senior Methodist Youth Fellowship was in charge of the worship service, which included its own presentation of a religious drama, "He walks with Us," written and directed by Mrs. N. M. Reiff.

Members of the cast were Phillip Grover, Mary Lou Highfield, Jane Whiteside, Tom Swain, Bob Burris, Jowanda Wilson, Patricia Robinson, Sally Reiff, Mike Whiteside, Phil French, Mary Jane Limes, Sharon Smith, Randy Mann, Pete Pfersick, Doug Rider, Kay Minshall, Dick Willis and Jotly Gilden.

A double quartet composed of Phil Grover, Tom Swain, Buddy Lynch, Dick Willis, Sharon Smith, Kay Minshall, Jane Whiteside and Paula Slagle sang the hymn, "Are Ye Able?" Patricia Robinson played the piano accompaniment.

Dr. Bauer was introduced by the Rev. L. J. Poe, pastor of Grace Church.

The series of meetings on the Ohio Area Study was arranged by the Commission on Missions, headed by Mrs. John E. Rhoads.

The four reports on the study will be summarized by Dr. Edwin Dickey, superintendent of the Wilmington District, at next Sunday morning's service at Grace Church.

Leaders of the movement here said they expect Dr. Dickey will outline to members of Grace Church how young people can be interested in entering the ministry and how they can help meet the need for more churches and the changes that are accompanying it.

Farmer Impoverishment Is Decried by Pope

CASTEL GANDOLFO, Italy (AP)—Pope Pius XII has urged agricultural experts to halt the slow impoverishment of the farmer in the world's economy.

He told delegates to the 74-nation United Nations Food and Agriculture Organization general conference that the plight of the farmer is an urgent problem that troubles him.

Ingrid Bergman Mum On Ill-Fated Marriage

LONDON (AP)—Ingrid Bergman arrived in London Sunday night to work on a new film and refused to discuss her break with her husband, Roberto Rossellini.

Her eyes filling with tears at a question about her legal separation last week from the Italian director, the actress said:

"There has been too much reaction to our decision."

And Miss Bergman denied a Stockholm report that she plans to marry Lars Schmidt, a wealthy Swedish impresario.

Russians Stamp OK On New Syrian Pact

MOSCOW (AP)—The Communist Party newspaper Pravda today announced that the Presidium of the Supreme Soviet has ratified the agreement for economic and technical assistance to Syria.

The announcement did not mention military aid.

The pact was announced Oct. 28. Syria was promised about \$200 million in material and technical assistance for such projects as dams, power stations, road and railway construction, oil exploration and mining.

385 Alps Climbers Die

ROME (AP)—Europe's rugged Alps, an eternal challenge to man's spirit of adventure, have dealt out death to 385 climbers this year, the most tragic mountaineering season ever recorded.

Deaths and Funerals

Howard Foster Dies Saturday

Howard J. Foster, 48, assistant treasurer of Blue Rock, Inc., died at 10:35 p. m. Saturday in Memorial Hospital.

Mr. Foster, a native and life long resident of Bloomingburg, was taken to the hospital at 3 a. m. last Monday following a heart attack.

He operated a grocery store in Bloomingburg for many years and about 10 years ago he remodeled several rooms in the Masonic Temple, directly across the street, and established a modern super-market. About three years ago, he sold the business to Joe Evans.

After he sold his store, he joined Blue Rock, which has its main office here and operates a stone quarry in southern Fayette County. As assistant treasurer, he was with the company's sales department and spent considerable time working with county and township officials, industrial executives and individuals helping them work out projects which required crushed stone. He also devoted much time "on the job" checking progress of work in which the company was interested.

Yemen and Britain To Settle Dispute

LONDON (AP)—The crown prince of Yemen and British Foreign Secretary Selwyn Lloyd agreed today to try to settle their dispute in the oil-rich Arabian peninsula.

Prince Seif Ull Islam Badr opened his first round of talks with British leaders.

Hemen and Britain are wrangling over the border between the Aden Protectorate and Yemen on the southeastern tip of the Arabian peninsula. There have been sporadic outbreaks of fighting. The British accuse the Yemnis of fomenting rebellion in the Aden Protectorate. Russia and other Communist countries have supplied Yemen with arms.

Dayton Woman Held In Slaying of Friend

DAYTON (AP)—Lillie Mae Smith, 25, is being held by police today for investigation of homicide after her boyfriend, Ustel Floyd, 44, was fatally wounded in an argument with her. Officers said Floyd was shot in the back Sunday after the two argued about Floyd getting into an accident with Miss Smith's car, which he had borrowed.

Court Referee Wins, Champ Is Undeclared

TOLEDO, Ohio (AP)—Champ, the battling boxer, has been counted out by a Juvenile Court referee. James R. Kelly, boys' referee, said seven boys, from 10 to 13, were promoting dog fights with Champ as their batter.

Four got suspended fines, one is on probation and two others were released pending further investigation. Champ? He retired undefeated.

Mrs. Flora Harrison

MT. STERLING — Mrs. Flora J. Harrison, 95, died at her home in Mt. Sterling, at noon Saturday. She had been in failing health for two years. Mrs. Harrison was born in Madison Mills and had lived there until her marriage.

Survivors are two sons, George, at home, and Pleasant, Route 1, Bellefontaine; three daughters, Mrs. Katherine Lugenbeel, Mrs. Blanche Johnson and Mrs. Olive Anson, all of Mt. Sterling; one brother, Clyde Parrett, Buena Park, Calif.; two sisters, Mrs. Blanche Cross, Pomeroy and Mrs. Ada Harrison, Michigan; 13 grandchildren and 17 great-grandchildren.

Services were held at 2 p. m. Monday in the Snyder Funeral Home. Mt. Sterling, with the Rev. J. D. Klein, Mt. Sterling Methodist Church, in charge.

Grandsons of the deceased served as pallbearers.

Burial was in Madison Mills Cemetery.

READ THE CLASSIFIED ADS

Mrs. Harry Wallace

ATLANTA — Mrs. Margaret Wallace, 48, Atlanta, died in Childs hospital at 12:30 p. m. Sunday. She had been a patient there for the last two weeks.

A Pickaway County native, Mrs. Wallace had lived all her life in the Atlanta community.

She is survived by her husband, Harry; two daughters, Mrs. Robert Garrison, Atlanta, and Lynn, at home; one grandson; four brothers, Francis Donohoe, Circleville, George and Robert Donohoe, Atlanta, and T-Sgt. Thomas Donohoe, USAF Okinawa; three sisters, Mrs. Raymond Schleich, Williamsport, Mrs. Howard Puffinberger, New Holland, and Mrs. Harold Barker, Jamestown.

Mrs. Wallace was an active member of the Atlanta Methodist Church.

Services will be held at 1:30 p. m. Wednesday in the Kirkpatrick Funeral Home, New Holland, under the direction of the Rev. Glenn Robinson, Atlanta Methodist Church.

Burial will be in Springlawn Cemetery, Williamsport.

Friends may call at the funeral home after 7 p. m. Monday.

HARVEY McCUNE — Service

for Harvey McCune, who died at 10:15 a. m. Saturday at his home, 929 S. Main St. after a long illness, were conducted by the Rev. Harold B. Twining, pastor of the First Baptist Church, at 2:30 p. m. Monday in the Gerstner Funeral Home.

Mr. McCune, a native of Coshocton County, had lived in Washington C. H. for 50 years. He came here as a blacksmith and, with the coming of the automobile, became an expert mechanic. Prior to his retirement several years ago, he was employed at the State Highway Department garage here.

He is survived by his wife. He was a member of the Eagles Lodge.

Pallbearers for the burial in the Washington C. H. Cemetery were Lowell Sanborn, Harry Davis, Carl Sandborn, John Paul, Willard Acton and James Paul.

NOAH G. SAUNDERS — Services for Noah G. Saunders, 89, a former resident of the Atlanta community, were held at 2 p. m. Sunday in the Kirkpatrick Funeral Home, New Holland. Mr. Saunders died Friday, in Chillicothe.

Services were under the direction of the Rev. Charles Lusher, of the Tabernacle Baptist Church, Chillicothe.

Pallbearers were Robert Sheets, Samuel Hill, Robert Hill, James Saunders, James Stonerock and David Stonerock. Burial was in New Holland Cemetery.

MRS. WILLARD EVERHART — Services for Mrs. Willard Everhart, who died Wednesday afternoon at her home, 809 Washington Ave., were held at 1:30 p. m. Saturday in the Gerstner Funeral Home by the Rev. L. J. Poe, pastor of Grace Methodist Church.

Burial was in the Sugar Grove Cemetery on the Greenfield Rd. Pallbearers were Ray Fisher, Robert Cockerill, Dr. Donald Everhart, Harold Everhart, Robert King and Weldon Flint.

Oklahomans Showing Pride in Their State

OKLAHOMA CITY (AP)—Oklahomans could pop their vest buttons with official sanction today, the first day of "Pride in Oklahoma Week."

Proclaiming the virtues of the Sooner State will be the order of the day through Saturday, the official end of Oklahoma's 50th birthday celebration.

Siren Finally Screams

WHITEHALL, N. Y. (AP)—For 30 years the fire horn in this village near the Vermont line emitted a grunt instead of a howl until a fireman discovered recently that the wires in the horn had been installed backwards. Now the horn produces a sharp, shrill blast.

FUGITIVES FROM THE FBI

Photos 1954
ARTHUR RAYMOND HAMNER

(In co-operation with J. Edgar Hoover, FBI Director, this newspaper is running a series of descriptive articles on criminals wanted by the FBI.)

ARTHUR RAYMOND HAMNER is being sought by the FBI for violation of the Interstate Transportation of Stolen Property Statute and as a conditional release violator. While serving a five-year sentence for violation of the Interstate Transportation of Stolen Property Statute, Hamner was conditionally released from the U. S. Penitentiary, Atlanta, Ga., on Sept. 18, 1954.

A fraudulent check is alleged to have been issued by the fugitive on Feb. 25, 1956, in the amount of \$4,221.06 to a Brookville, Ind., automobile dealer. An indictment was returned by a Federal Grand Jury at Indianapolis on Dec. 14, 1956, charging Hamner with violation of the Interstate Transportation of Stolen Property Statute. On Dec. 17, 1954, a warrant was issued by the U. S. Board of Parole, Washington, D. C., charging Hamner as Joseph J. Callahan, with violation of the terms of his conditional release.

The wanted man's aliases include Patrick Callahan, Joseph J. Callahan, Clayton Dennison, Charles Well, Reginald McGraw, Charles Reed, Steven Ryan and James Wagner. His occupations include bookkeeper, chauffeur, male nurse, service station attendant, truck driver and laborer.

Hamner has previously escaped from custody. He has been convicted for assault, bigamy and for violating the Interstate Transportation of Stolen Property Statute and Selective Service Act.

DESCRIPTION: Age, 49; Born, Marcellus, N. Y. (not supported by birth records); Height, 6 feet; Weight, 240; Build, heavy; Hair, light brown; Eyes, gray; Complexion, medium. Has 1-inch scar from side of right eyebrow, small scar on middle of upper lip, raised mole on left side of forehead.

INFORMATION concerning fugitive should be telephoned to the nearest FBI office. Distributed by King Features Syndicate

Recruit Is Crowned As 'Pauline Bunyon'

SAN FRANCISCO (AP)—The first "Pauline Bunyan Log Cutting Contest" started shakily Sunday when it found there were more prizes than contestants.

The sponsors, a local power-saw firm, recruited petite Mrs. Jean Davis of Astorbrook County, Maine, from the crowd to vie in the log cuttin' capers.

When the sawdust settled, Mrs. Davis had won first prize.

Loose Barge Speeds Up Death for Old Bridge

OGDEN, Utah (AP)—A runaway steel barge, loaded with tons of rock, rammed a 60-foot hole through the historic Lucin cutoff railroad trestle Sunday after breaking loose from its tug.

The barge was carrying rock being used to build a causeway across the lake, one that will replace the 12-mile wooden trestle.

Man Aids Motorist, Gets Broken Ankle

LEAVENWORTH, Kan. (AP)—Police answering an accident call found 52-year-old Martin Skinkowski of Leavenworth lying on a sidewalk, his ankle broken.

Officers said Skinkowski told them a motorist stopped and asked him for directions. Apparently displeased with Skinkowski's reply, the man got out of his car, kicked Skinkowski on the ankle, then drove away.

Po River Bursts Dikes

ROVIGO, Italy (AP)—The rain-swollen Po, north Italy's mightiest river, burst its dikes today, flooding thousands of acres of farmland and driving hundreds from their homes.

Ex-Envoy Believes Khrushchev in Trouble

LONDON (AP)—George F. Kennan says Nikita Khrushchev has "achieved the pinnacle of power he wanted" but his position is very precarious.

Citing the demotion of Marshal Georgi Zhukov, Kennan declares a radio address: "Khrushchev has now offended and estranged from the central political process one by one, the intelligentsia, the industrial managers and a portion of the military corps."

"Plainly this is not a stable situation. I cannot believe that it will be of long duration."

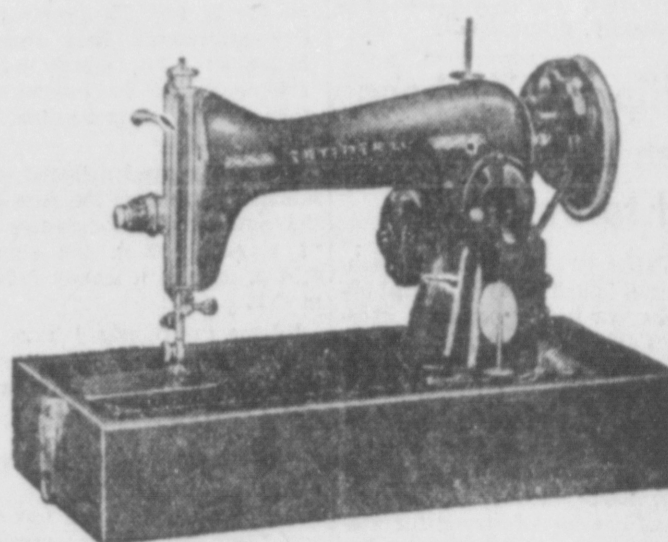

Kennan is former U. S. ambassador to Moscow and one of the leading American authorities on Soviet affairs.

Ike's Talk Wednesday Slated on TV, Radio

WASHINGTON (AP)—The White House said today President Eisenhower's speech in Oklahoma City Wednesday night will be broadcast live over the NBC television network and all four major radio networks at 10:30 p. m. EST.

ABC and CBS television plan to carry the address from film at 11:15 p. m.

Choose Vocation Wisely, Church Official Urges

Last in Series
Of 'Area Study'
Sessions Held Here

"Every home and every church should feel its responsibility in seeking to guide young people into a careful vocational choice and through the total of life to develop a philosophy of vocation to guide all work in which people are engaged," Dr. Richard H. Bauer told a gathering at the fourth and last of a series of meetings of the Ohio Area Study at Grace Methodist Church Sunday evening.

Dr. Bauer, superintendent of the church's Portsmouth district, brought this out in his talk on "A Christian Vocation," in which he said "it is the essence of Christian work to make life count."

Christian work, he emphasized, is not so much the external type of work as it is the "inter-quality of spirit, motivation and attitude."

IN DISCUSSING sacred and non-sacred work, Dr. Bauer stressed that every form of useful work is potentially a Christian vocation. He explained that "vocation means calling" and defined it as "seeing a need in God's perspective and realizing that God has equipped me to meet it." He said that "it is not a matter of what one does to live, but rather what one lives to do" that brings work into the consideration of a Christian vocation.

In the three previous reports on the Ohio Area Study conducted by the Methodist Church to determine how the church (any denomination) can meet the needs resulting from Ohio's increasing population and the shift of people from congested centers to suburbs of big cities and nearby towns, the need for more churches and ministers was emphasized.

The four meetings were held in the church sanctuary on successive Sunday evenings following potluck family suppers in Fellowship Hall.

THE Senior Methodist Youth Fellowship was in charge of the worship service, which included its own presentation of a religious drama, "He Walks with Us," written and directed by Mrs. N. M. Reiff.

Members of the cast were Phillip Grover, Mary Lou Highfield, Jane Whiteside, Tom Swain, Bob Burris, Jowanda Wilson, Patricia Robinson, Sally Reiff, Mike Whiteside, Phil French, Mary Jane Limes, Sharon Smith, Randy Mann, Pete Pfersick, Doug Rider, Kay Minshall, Dick Willis and Jotty Gillen.

A double - quartet composed of Phil Grover, Tom Swain, Buddy Lynch, Dick Willis, Sharon Smith, Kay Minshall, Jane Whiteside and Paula Slagle sang the hymn, "Are Ye Able?" Patricia Robinson played the piano accompaniment.

Dr. Bauer was introduced by the Rev. L. J. Poe, pastor of Grace Church.

The series of meetings on the Ohio Area Study was arranged by the Commission on Missions, headed by Mrs. John E. Rhoads.

The four reports on the study will be summarized by Dr. Edwin Dickey, superintendent of the Wilmington District, at next Sunday morning's service at Grace Church.

Leaders of the movement here said they expect Dr. Dickey will outline to members of Grace Church how young people can be interested in entering the ministry and how they can help meet the need for more churches to meet in a growing population and the changes that are accompanying it.

Farmer Impoverishment Is Decried by Pope

CASTEL GANDOLFO, Italy (AP)—Pope Pius XII has urged agricultural experts to halt the slow impoverishment of the farmer in the world's economy.

He told delegates to the 74-nation United Nations Food and Agriculture Organization general conference that the plight of the farmer is an urgent problem that troubles him.

Ingrid Bergman Mum On Ill-Fated Marriage

LONDON (AP)—Ingrid Bergman arrived in London Sunday night to work on a new film and refused to discuss her break with her husband, Roberto Rossellini.

Her eyes filling with tears at a question about her legal separation last week from the Italian director, the actress said: "There has been too much reaction to our decision."

And Miss Bergman denied a Stockholm report that she plans to marry Lars Schmidt, a wealthy Swedish impresario.

Russians Stamp OK On New Syrian Pact

MOSCOW (AP)—The Communist Party newspaper Pravda today announced that the Presidium of the Supreme Soviet has ratified the agreement for economic and technical assistance to Syria.

The announcement did not mention military aid.

The pact was announced Oct. 28. Syria was promised about \$200 million in material and technical assistance for such projects as dams, power stations, road and railway construction, oil exploration and mining.

385 Alps Climbers Die

ROME (AP)—Europe's rugged Alps, an eternal challenge to man's spirit of adventure, have dealt out death to 385 climbers this year, the most tragic mountaineering season ever recorded.

Champ? He retired undefeated.

Deaths and Funerals

Howard Foster Dies Saturday

Howard J. Foster, 48, assistant treasurer of Blue Rock, Inc., died at 10:35 p. m. Saturday in Memorial Hospital.

Mr. Foster, a native and life long resident of Bloomingburg, was taken to the hospital at 3 a. m. last Monday following a heart attack.

He operated a grocery store in Bloomingburg for many years and about 10 years ago he remodeled several rooms in the Masonic Temple, directly across the street, and established a modern super-market. About three years ago, he sold the business to Joe Evans.

After he sold his store, he joined Blue Rock, which has its main office here and operates a stone quarry in southern Fayette County. As assistant treasurer, he was with the company's sales department and spent considerable time working with county and township officials, industrial executives and individuals helping them work out projects which required crushed stone. He also devoted much time "on the job" checking progress of work in which the company was interested.

Yemen and Britain To Settle Dispute

LONDON (AP)—The crown prince of Yemen and British Foreign Secretary Selwyn Lloyd agreed today to try to settle their dispute in the oil-rich Arabian peninsula.

Prince Seif ul Islam Badr opened his first round of talks with British leaders.

Hemen and Britain are wrangling over the border between the Aden Protectorate and Yemen on the southeastern tip of the Arabian peninsula. There have been sporadic outbreaks of fighting. The British accuse the Yemnis of fomenting rebellion in the Aden Protectorate. Russia and other Communist countries have supplied Yemen with arms.

Dayton Woman Held In Slaying of Friend

DAYTON (AP)—Lillie Mae Smith, 25, is being held by police today for investigation of homicide after her boyfriend, Ustel Floyd, 44, was fatally wounded in an argument with her. Officers said Floyd was shot in the back Sunday after the two argued about Floyd getting into an accident with Miss Smith's car, which he had borrowed.

Court Referee Wins, Champ Is Undefeated

TOLEDO, Ohio (AP)—Champ, the battling boxer, has been counted out by a Juvenile Court referee. James R. Kelly, boys' referee, said seven boys, from 10 to 13, were promoting dog fights with Champ as their battler.

Four got suspended fines, one is on probation and two others were released pending further investigation. Champ? He retired undefeated.

Mrs. Flora Harrison

MT. STERLING — Mrs. Flora J. Harrison, 95, died at her home in Mt. Sterling, at noon Saturday. She had been in failing health for two years. Mrs. Harrison was born in Madison Mills and had lived there until her marriage.

Survivors are two sons, George, at home, and Pleasant, Route 1, Bellefontaine; three daughters, Mrs. Katherine Lugenbeel, Mrs. Blanche Johnson and Mrs. Olive Anson, all of Mt. Sterling; one brother, Clyde Parrett, Buena Park, Calif.; two sisters, Mrs. Blanche Cross, Pomeroy and Mrs. Ada Harrison, Michigan; 13 grandchildren and 17 great-grandchildren.

Services were held at 2 p. m. Monday in the Snyder Funeral Home. Mt. Sterling, with the Rev. J. D. Klein, Mt. Sterling Methodist Church, in charge.

Grandsons of the deceased served as pallbearers.

Burial was in Madison Mills Cemetery.

READ THE CLASSIFIED ADS

Mrs. Harry Wallace

ATLANTA — Mrs. Margaret Wallace, 48, Atlanta, died in Childwick hospital at 12:30 p. m. Sunday. She had been a patient there for the last two weeks.

A Pickaway County native, Mrs. Wallace had lived all her life in the Atlanta community.

She is survived by her husband, Harry; two daughters, Mrs. Robert Garrison, Atlanta, and Lynn, at home; one grandson; four brothers, Francis Donohoe, Circleville, George and Robert Donohoe, Atlanta, and T-Sgt. Thomas Donohoe, USAF Okinawa; three sisters, Mrs. Raymond Schleich, Williamsport, Mrs. Howard Puffinberger, New Holland, and Mrs. Harold Barker, Jamestown.

Mrs. Wallace was an active member of the Atlanta Methodist Church.

Services will be held at 1:30 p. m. Wednesday in the Kirkpatrick Funeral Home, New Holland, under the direction of the Rev. Glenn Robinson, Atlanta Methodist Church.

Burial will be in Springlawn Cemetery, Williamsport.

Friends may call at the funeral home after 7 p. m. Monday.

HARVEY McCUNE — Service for Harvey McCune, who died at 10:15 a. m. Saturday at his home, 929 S. Main St. after a long illness, were conducted by the Rev. Harold B. Twining, pastor of the First Baptist Church, at 2:30 p. m. Monday in the Gerstner Funeral Home.

Mr. McCune, a native of Coshocton County, had lived in Washington C. H. for 50 years. He came here as a blacksmith and, with the coming of the automobile, became an expert mechanic. Prior to his retirement several years ago, he was employed at the State Highway Department garage here.

He is survived by his wife. He was a member of the Eagles Lodge.

Pallbearers for the burial in the Washington C. H. Cemetery were Lowell Sanborn, Harry Davis, Carl Sandborn, John Paul, Willard Acton and James Paul.

NOAH G. SAUNDERS — Services for Noah G. Saunders, 85, a former resident of the Atlanta community, were held at 2 p. m. Sunday in the Kirkpatrick Funeral Home, New Holland, Mr. Saunders died Friday, in Chillicothe.

Services were under the direction of the Rev. Charles Lusher, of the Tabernacle Baptist Church, Chillicothe.

Pallbearers were Robert Sheets, Samuel Hill, Robert Hill, James Saunders, James Stonerock and David Stonerock. Burial was in New Holland Cemetery.

MRS. WILLARD EVERHART — Services for Mrs. Willard Everhart, who died Wednesday afternoon at her home, 809 Washington Ave., were held at 1:30 p. m. Saturday in the Gerstner Funeral Home by the Rev. L. J. Poe, pastor of Grace Methodist Church.

Burial was in the Sugar Grove Cemetery on the Greenfield Rd. Pallbearers were Ray Fisher, Robert Cockerill, Dr. Donald Everhart, Harold Everhart, Robert King and Weldon Flint.

Oklahomans Showing Pride in Their State

OKLAHOMA CITY (AP)—Oklahomans could pop their vest buttons with official sanction today, the first day of "Pride in Oklahoma Week."

Proclaiming the virtues of the Sooner State will be the order of the day through Saturday, the official end of Oklahoma's 50th birthday celebration.

Siren Finally Screams

WHITEHALL, N. Y. (AP)—For 30 years the fire horn in this village near the Vermont line emitted a grunt instead of a howl until a fireman discovered recently that the wires in the horn had been installed backwards. Now the horn produces a sharp, shrill blast.

FUGITIVES FROM THE FBI

Photos 1954

ARTHUR RAYMOND HAMNER

(In co-operation with J. Edgar Hoover, FBI Director, this newspaper is running a series of descriptive articles on criminals wanted by the FBI.)

ARTHUR RAYMOND HAMNER is being sought by the FBI for violation of the Interstate Transportation of Stolen Property Statute and as a conditional release violator. While serving a five-year sentence for violation of the Interstate Transportation of Stolen Property Statute, Hamner was conditionally released from the U. S. Penitentiary, Atlanta, Ga., on Sept. 18, 1954.

A fraudulent check is alleged to have been issued by the fugitive on Feb. 25, 1956, in the amount of \$4,221.06 to a Brookville, Ind., automobile dealer. An indictment was returned by a Federal Grand Jury at Indianapolis on Dec. 14, 1956, charging Hamner with violation of the Interstate Transportation of Stolen Property Statute. On Dec. 17, 1954, a warrant was issued by the U. S. Board of Parole, Washington, D. C., charging Hamner as Joseph J. Callahan, with violation of the terms of his conditional release.

The wanted man's aliases include Patrick Callahan, Joseph J. Callahan, Clayton Dennison, Charles Hall, Reginald McGraw, Charles Reed, Steven Ryan and James Wagner. His occupations include bookkeeper, chauffeur, male nurse, service station attendant, truck driver and laborer.

Hamner has previously escaped from custody. He has been convicted for assault, bigamy and for violating the Interstate Transportation of Stolen Property Statute and Selective Service Act.

DESCRIPTION: Age, 49; Born, Marcellus, N. Y. (not supported by birth records); Height, 6 feet; Weight, 240; Build, heavy; Hair, light brown; Eyes, gray; Complexion, medium. Has 1-inch scar from side of right eyebrow, small scar on middle of upper lip, raised mole on left side of forehead.

INFORMATION concerning fugitive should be telephoned to the nearest FBI office. Distributed by King Features Syndicate

Recruit Is Crowned As 'Pauline Bunyon'

SAN FRANCISCO (AP)—The first "Pauline Bunyon Log Cutting Contest" started shakily Sunday when it found there were more prizes than contestants.

The sponsors, a local power-law firm, recruited little Mrs. Jean Davis of Arrostook County, Maine, from the crowd to vie in the log cuttin' capers.

When the sawdust settled, Mrs. Davis had won first prize.

Loose Barge Speeds Up Death for Old Bridge

OGDEN, Utah (AP)—A runaway steel barge, loaded with tons of rock, rammed a 60-foot hole through the historic Lucin cutoff railroad trestle Sunday after breaking loose from its tug.

The barge was carrying rock being used to build a causeway across the lake, one that will replace the 12-mile wooden trestle.

Man Aids Motorist, Gets Broken Ankle

LEAVENWORTH, Kan. (AP)—Police answering an accident call found 52-year-old Martin Skinkowski of Leavenworth lying on a sidewalk, his ankle broken.

Officers said Skinkowski told them a motorist stopped and asked him for directions. Apparently displeased with Skinkowski's reply, the man got out of his car, kicked Skinkowski on the ankle, then drove away.

Po River Bursts Dikes

ROVIGO, Italy (AP)—The rain-swollen Po, north Italy's mightiest river, burst its dikes today, flooding thousands of acres of farmland and driving hundreds from their homes.

IT'S SO EASY TO PLACE A WANT AD.

Liquor Men Debate Value Of Decanters

Some Dealers Doubt Fancy Bottles Help Sale of Whiskies

By SAM DAWSON
NEW YORK (AP)—The distilling industry today is widely divided as to the sales merits of the decanters which cost them so much. Some say dealers dislike them and customers are bored.

This year some liquor companies are dropping them altogether. Others are offering the public a choice of either the flossy glassware or gaudy prewrapped regular bottles. And some are going in for fancier decanters than ever.

Liquor firms do nearly a third of their year's business between now and New Years. The Department of Commerce says sales in November and December last year came to one billion dollars, with the U.S. Treasury pocketing 100 million in excise taxes.

The average package store is estimated to have carried 60 different brands of whisky in decanters last year. B. C. Ohlandt, vice president of National Distillers Products Co., says dealers were left with 800,000 cases of unsold decanters, tying up 40 million dollars.

Last year gift sales accounted for three million cases of decanters and 500,000 cases of regular bottles in prewraps. Ohlandt says gift sales this year will rise to four million cases, evenly divided between the fancy glassware and the fancy wrappings.

His company is dropping decanters altogether and going in for prewraps, spending 3 1/2 million dollars for materials.

Brown-Forman Distillers of Louisville, Ky., challenge National's view that customers are tiring of decanters. It says gift decanter sales rose from 29 per cent of total volume in 1955 to 32 per cent last year, and decanters bought for home use rose from 20 per cent of 26 per cent.

Hiram Walker is putting five brands into 46 package variations, Canadian Club is being offered in 22 different gift packages and Imperial is coming in a new hexagonal package and also in two or three bottle combinations.

The company bought 11,000 miles of multi-colored ribbon and 25 million square feet of aluminum foil.

Wines are in on the act, too. Christian Brothers of California package their wines and champagnes in boxes adorned with a picture of their monastery and some wine bottles have pine cones and holiday balls attached to the necks.

Paul Masson Vineyards of California put their wines, champagnes and brandy into pre-wrapped packages along with drinking glasses to fit the liquid contents.

Cleveland Bus Driver Seen Victim of Slayer
CLEVELAND (AP)—Andrew D. Davidson, 39, a Cleveland Transit System bus driver, was found dead Sunday in his second-floor apartment here. He lived alone with a chow dog whose barking led to discovery of the body. Detectives said there was a gash on the side of Davidson's head, but his body was in bed, neatly covered. Police are investigating the possibility Davidson was slain.

Ohioan Dies in 'Jungle'
LINCOLN, Neb. (AP)—A Jackson, Ohio, man died of burns here Sunday in a "hobo jungle." The man, Emil J. Dougherty, apparently fell into a fire. An autopsy failed to show any bruises on the body.

COMING TO THE FAYETTE—"The Ten Commandments," Cecil B. DeMille's great Technicolor epic which has had the longest big-city run of any regular motion picture, has been booked at the Fayette Theater beginning Nov. 20. It will be shown through Dec. 3. The production, based on the Scriptures as well as other ancient and modern writings, stars Charlton Heston, Yul Brynner, Anne Baxter, Edward G. Robinson; Yvonne De Carlo, Debra Paget, John Derek, Sir Cedric Hardwicke, Nina Foch, Martha Scott, Judith Anderson and Vincent Price with a supporting cast of thousands. Jim Chakeres, manager of the theater, announces that special student discount cards will be issued to the schools for Saturday matinee performances on Nov. 23 and Nov. 30. There will be a special Thanksgiving Day matinee at 1:30 p. m. and an evening showing at 7:30 p. m.

One of a Series of Articles

Education for Responsible Citizenship

EDITOR'S NOTE: This is one of a series of articles on various phases of education which will appear daily in connection with American Education Week. They were prepared at the request of the City Teacher Assn.

By JUDGE JOHN P. CASE
(Judge of Common Pleas Court)

We know that all nations have citizens; that some give more rights to their citizens than others; and that some nations demand more duties of their citizens than others. Therefore, in every nation it is the inseparable combination of rights and duties which constitute citizenship.

The citizens of every free nation, such as the United States,

control their government and rule themselves. So it is that the government of a free nation may be strong or weak, just or unjust, depending upon the education and intelligence of its citizens.

For generations, the American family and home were the primary source of training for citizenship. Respect for governing authority and rights of others were pressed upon the children with firmness and finality. The fundamentals of religious faith, moral standards, family and community service, and the desire for education in the arts and sciences were fostered by the parents.

TODAY, it appears thousands of

parents believe that schools, churches, 4-H clubs, Scout Troops, and other numerous organizations are solely responsible for teaching and supervising the ideals of citizenship and education; and that the home is no longer charged with these responsibilities.

Director of Mint Says Small Change Demand Always High

WASHINGTON (AP)—William H. Brett, Director of the Mint, said today that Americans apparently have an insatiable demand for small change.

In his three years as Director of the Mint, Brett has supervised the coinage of more than four billion pennies, dimes, nickels, quarters and half dollars. And yet, he reports, the cry is for "more."

"And we retire only an insignificant number of coins from circulation each year," the former Alliance and Cleveland manufacturer told an interviewer in his office.

"Why do we need so many coins? Well, I think it is the increased use of vending machines and parking meters. Then there are those big shopping centers."

"Remember in the old days how you would charge your purchases at the corner grocery store? Those days are about gone. Now it's mostly a cash business."

A vigorous, gray-haired, self-de-

scribed Taft Republican of 64, Brett said one coin he doesn't worry about making is the silver dollar.

But, he reported, there still is a tremendous demand for this coin, particularly at Nevada gambling casinos and western tourist spots where eastern dudes find them a great novelty.

"Actually," he said, "we haven't made any silver dollars since 1935. But there will be millions of them around long after you and I are gone."

"We still have about 225 million new silver dollars stored in vaults around the country, some of them since 1916."

"We're afraid to open some of those vaults. We think the bags may have all rotted and we'll have an avalanche of silver dollars."

Aside from directing the making of these billions of coins, Brett has a certain authority regarding whose face appears on them.

With the approval of the secretary of the treasury, he can put a new design on any coin that has been in circulation 25 years or more.

This authority, however, is something Brett has no intention of exercising unless he is subjected to great pressures.

"We've had the Lincoln penny in circulation 48 years, and nobody seems to mind. People resist new coins. Some clerks refuse to take them."

Brett is about the last Ohioan in the top echelon of the Treasury Department. Gone are his fellow Ohioans, former Secretary George M. Humphrey and former Asst. Secretary H. Chapman Rose.

"Me?" said Brett. "I'm just marking time."

Liquor Men Debate Value Of Decanters

Some Dealers Doubt
Fancy Bottles Help
Sale of Whiskies

By SAM DAWSON
NEW YORK (AP)—The distilling industry today is widely divided as to the sales merits of the decanters which cost them so much. Some say dealers dislike them and customers are bored.

This year some liquor companies are dropping them altogether. Others are offering the public a choice of either the flossy glassware or gaudy prewrapped regular bottles. And some are going in for fancier decanters than ever.

Liquor firms do nearly a third of their year's business between now and New Year's. The Department of Commerce says sales in November and December last year came to one billion dollars, with the U.S. Treasury pocketing 100 million in excise taxes.

The average package store is estimated to have carried 60 different brands of whisky in decanters last year. B. C. Ohlandt, vice president of National Distillers Products Co., says dealers were left with 800,000 cases of unsold decanters, tying up 40 million dollars.

Last year gift sales accounted for three million cases of decanters and 500,000 cases of regular bottles in prewraps. Ohlandt says gift sales this year will rise to four million cases, evenly divided between the fancy glassware and the fancy wrappings.

His company is dropping decanters altogether and going in for prewraps, spending 3½ million dollars for materials.

Brown-Forman Distillers of Louisville, Ky., challenge National's view that customers are tiring of decanters. It says gift decanter sales rose from 29 per cent of total volume in 1955 to 32 per cent last year, and decanters bought for home use rose from 20 per cent to 26 per cent.

Hiram Walker is putting five brands into 46 package variations. Canadian Club is being offered in 22 different gift packages and Imperial is coming in a new hexagonal package and also in two or three bottle combinations.

The company bought 11,000 miles of multi-colored ribbon and 25 million square feet of aluminum foil.

Wines are in on the act, too. Christian Brothers of California package their wines and champagnes in boxes adorned with a picture of their monastery and some wine bottles have pine cones and holiday balls attached to the necks.

Paul Masson Vineyards of California put their wines, champagnes and brandy into prewrapped packages along with drinking glasses to fit the liquid contents.

Cleveland Bus Driver Seen Victim of Slayer

CLEVELAND (AP)—Andrew D. Davidson, 39, a Cleveland Transit System bus driver, was found dead Sunday in his second-floor apartment here. He lived alone with a chow dog whose barking led to discovery of the body. Detectives said there was a gash on the side of Davidson's head, but his body was in bed, neatly covered. Police are investigating the possibility Davidson was slain.

Ohioan Dies in 'Jungle'

LINCOLN, Neb. (AP)—A Jackson, Ohio, man died of burns here Sunday in a "hobo jungle." The man, Emil J. Dougherty, apparently fell into a fire. An autopsy failed to show any bruises on the body.

COMING TO THE FAYETTE—"The Ten Commandments," Cecil B. DeMille's great Technicolor epic which has had the longest big-city run of any regular motion picture, has been booked at the Fayette Theater beginning Nov. 20. It will be shown through Dec. 3. The production, based on the Scriptures as well as other ancient and modern writings, stars Charlton Heston, Yul Brynner, Anne Baxter, Edward G. Robinson, Yvonne De Carlo, Debra Paget, John Derek, Sir Cedric Hardwicke, Nina Foch, Martha Scott, Judith Anderson and Vincent Price with a supporting cast of thousands. Jim Chakares, manager of the theater, announces that special student discount cards will be issued to the schools for Saturday matinee performances on Nov. 23 and Nov. 30. There will be a special Thanksgiving Day matinee at 1:30 p. m. and an evening showing at 7:30 p. m.

One of a Series of Articles

Education for Responsible Citizenship

EDITOR'S NOTE: This is one of a series of articles on various phases of education which will appear daily in connection with American Education Week. They were prepared at the request of the City Teacher Assn.

By JUDGE JOHN P. CASE
(Judge Of Common Pleas Court)

We know that all nations have citizens; that some give more rights to their citizens than others; and that some nations demand more duties of their citizens than others. Therefore, in every nation it is the inseparable combination of rights and duties which constitute citizenship.

The citizens of every free nation, such as the United States,

control their government and rule themselves. So it is that the government of a free nation may be strong or weak, just or unjust, depending upon the education and intelligence of its citizens.

For generations, the American family and home were the primary source of training for citizenship. Respect for governing authority and rights of others were pressed upon the children with firmness and finality. The fundamentals of religious faith, moral standards, family and community service, and the desire for education in the arts and sciences were fostered by the parents.

TODAY, it appears thousands of

parents believe that schools, churches, 4-H clubs, Scout Troops, and other numerous organizations are solely responsible for teaching and supervising the ideals of citizenship and education; and that the home is no longer charged with these responsibilities.

Director of Mint Says Small Change Demand Always High

WASHINGTON (AP)—William H. Brett of Ohio has found that Americans apparently have an insatiable demand for small change.

In his three years as Director of the Mint, Brett has supervised the coinage of more than four billion pennies, dimes, nickels, quarters and half dollars. And yet, he reports, the cry is for "more."

"And we retire only an insignificant number of coins from circulation each year," the former Alliance and Cleveland manufacturer told an interviewer in his office.

"Why do we need so many coins? Well, I think it is the increased use of vending machines and parking meters. Then there are those big shopping centers."

"Remember in the old days how you would charge your purchases at the corner grocery store? Those days are about gone. Now it's mostly a cash business."

A vigorous, gray-haired, self-de-

clared show the increased abandonment of training for citizenship in the home.

It is possible that parental abandonment of these responsibilities over a period of years now confronts our nation with critical shortages in sufficient numbers of qualified citizens to meet urgent and nationwide needs in the fields of education, engineering, science and government.

Our government can be no stronger than the combined education and intelligence of its citizens. If the parents of this nation are content to ignore their responsibility to give maximum training for citizenship in the home, then a great nation will be lost in its own apathy and self satisfaction.

scribed Taft Republican of 64, Brett said one coin he doesn't worry about making is the silver dollar.

But, he reported, there still is a tremendous demand for this coin, particularly at Nevada gambling casinos and western tourist spots where eastern dudes find them a great novelty.

"Actually," he said, "we haven't made any silver dollars since 1935. But there will be millions of them around long after you and I are gone."

"We still have about 225 million new silver dollars stored in vaults around the country, some of them since 1916."

"We're afraid to open some of those vaults. We think the bags may have all rotted and we'll have an avalanche of silver dollars."

Aside from directing the making of these billions of coins, Brett has a certain authority regarding whose face appears on them.

With the approval of the secretary of the treasury, he can put a new design on any coin that has been in circulation 25 years or more.

This authority, however, is something Brett has no intention of exercising unless he is subjected to great pressures.

Automatic Telephone Passes 65th Anniversary

People of Fayette County have become so used to the convenience of the telephone that few stop to recognize that the 65th anniversary of the automatic phone was just passed within the last few days.

Since 1915 the dial system has been in use throughout Fayette County which was one of the first counties in the nation to obtain this improved type of service.

The date of the automatic telephone's beginning has been almost forgotten outside the telephone industry itself. The instrument has become commonplace and is generally accepted as a matter of fact. However, this date marked the beginning of a new era of communications and was, perhaps, the real beginning of this age of automation.

The first automatic telephone system was one of mankind's first practical applications of remote control. The little undertaker who invented the system, Almon Brown Strowger, had set out to devise an electro-mechanical machine which could perform certain functions better than a human being. The idea was shocking in 1892, but Strowger did much to blaze the automation trail. Today, new applications of automatic electrical control are growing at an astounding rate.

Strowger had foreseen that manual operator switching could never provide telephone service of the magnitude which we know today. He was irritated at the inefficiencies of the operator system and worked on the problem until he solved it with an automatic switching system. His research equipment consisted of a pencil, a paper pocket of straight pins, and an old round collar box... yet he solved a problem which had stumped great engineers of his day. On this date in 1892, Strowger unveiled his automatic telephone system at La Porte, Indiana.

The first automatic telephone employed push-buttons, but worked on the same switching system as today's dial telephones. Four years after the La Porte installation, the company which Strowger founded, Automatic Electric, introduced the world's first finger wheel dial. Strowger equipment was widely acclaimed and adopted in many foreign countries, as well as in America.

Today's dial telephones are a far cry from the first automatic model installed sixty-five years ago, but they still embody the Strowger principals, as do some 75 per cent of all the world's dial telephone systems.

No Champagne Poured on Toes

By Hal Boyle

NEW YORK (U)—As any ordinary happy man does, I awoke as usual the other morning with the pleasurable sensation that my wife was pouring champagne on my toes.

I awoke and discovered, as usual, that my wife was not pouring champagne on my toes. "Do you know what day this is?" she asked.

She thought I didn't really know what she had in mind. The trouble for her is that I did. As a matter of fact I had been brooding about it for 20 years. "This, my dear," I assured her, "was the day I destroyed you forever, just two decades ago."

"You were a carefree, bare-minded working girl, and I did the most cruel thing a man can do to an innocent girl with a purpose in this world—to take her away from her job."

"Well, you did," she said. "So I did," I answered. "And industry is the poorer, but I am the richer."

"Don't you think we should celebrate?"

"Celebrate what?"

"This is an occasion."

"Living with you, every day is an adventure. Being married to a Mau-Mau might offer the opportunity of an occasion. Being married to you every moment, even after 20 years has its strangeness."

"Well, I didn't have to marry you. I could have married any number of men. And why I picked you I don't know. An' who else could you have married, anyway?"

"A Mau-Mau."

"Which Mau-Mau?"

"Any Mau-Mau."

"Would you rather have her?"

"Not after knowing you."

"Do you think I am like a Mau-Mau?"

"Which Mau-Mau?"

"You don't make sense."

"Do you want me to make sense?"

"Some days."

"Then marry another man on those days."

"But you aren't at all altogether satisfactory."

"I'm not?"

"No, you're not!"

"But you are!"

"But do you really mean it? I mean from the heart?"

"Well, I'd rather have you than any Mau-Mau I know."

"You're sure?"

"Sure. Will you do me a favor?"

"What?"

"Is there any champagne in the icebox?"

"Yes, Why?"

"Will you open a bottle and pour it slowly over my toes?"

"No, I won't. And why do you ask such a crazy thing?"

"Because I know you wouldn't."

"Do you really think this is the way to celebrate a 20th wedding anniversary?"

"No, not if you don't wake me up by pouring champagne on my toes. This is my anniversary, too."

A Case of Boondoggling

By George Sokolsky

Somebody sent me four volumes of hearings in the matter of "Power Authority of the State of New York, Project No. 2216." The total comes to 600 pages of mimeographed material.

At \$1.50 a page for the transcription this comes to nearly \$1,000 of garbage not including postage. I do not know how many others were sent this stuff but it just goes to show what happens when a bureaucracy gets hold of something. It always becomes what the youngsters call a federal case.

This one is before the Federal Power Commission which must have a lot of time on its hands. I glanced through the stuff. It starts with a long speech by somebody called "Presiding Examiner," who tells the folks how they should behave in front of company. He says, for instance:

"I might mention that smoking is not permitted during the sessions of the hearing. You can smoke in this room between sessions or during recess periods. I notice there are ash trays here for that purpose."

I'm glad to see that the government provides ash trays and that the spectators will not throw their cigarette butts on the carpet. This is very thoughtful of the Presiding Examiner because whenever I go into a government office building, it always appears to be dirty as though vacuum cleaners and scrub women were unavailable.

Anyhow, all these pages deal with what to do about Niagara power. At the present time, most of the industries which formerly used Niagara power are purchasing theirs from Canada, which is on the ball.

But the rate is very high and if it remains that high, I am told, the businesses will have to move away. This long record shows that the Power Authority of the State of New York has applied for a license for a proposed hydroelectric project on the Niagara River in Niagara County, N. Y., and that the City of Niagara Falls, Town of Lewiston, has opposed the plans concerning water conduits and the reservoir area as proposed by

the applicant. So that starts a long hearing which keeps all the officials busy but power meanwhile is being purchased from Canada. Well, I have to skip some of the pages because it seems as though a lot of lawyers get into the act, which means that somebody is making some money out of it besides the Canadians. Apparently the Presiding Examiner is worried about the large number of lawyers who got into this thing, because he said:

"We will try to keep your names straight. I hope you will be patient with us if we make some mistakes. Most everyone here is a new face to me, and I presume there are others in that same boat, so be tolerant if we mix your name up a little bit occasionally or the party you represent as well. Those things seem to be inevitable in a hearing of this size."

Maybe they ought to retain my good friend, Jim Farley, to help them out. Jim never forgets a name or a face and always keeps the record straight. However, they have to work out procedures; in a word, someone needs to decide how the bureaucracy is to keep this thing going. The Presiding Examiner says:

"Now, there may have been some discussions among counsel as to the procedure here. The examiner is always anxious to carry out any arrangements that counsel have made among themselves for their own convenience as long as it doesn't interfere with the orderly processes of the hearing."

So Sam Rosenman points out that the engineers cannot agree

on basic data and that is wasting time. This fight is not new. It has been in Congress since 1950.

This year Congress passed a law which is a compromise between private power and public power. While these hearings are going on, the price of building materials is going up and the Power Authority cannot tell whether the cost will be 600 million dollars or 800 million dollars because no one, in an inflationary period, can figure costs.

Well, I finished reading Sam Rosenman's statement and looked through the following pages and saw that the lawyers were going on forever and forever. Meanwhile, the Canadians are making hay while we hold hearings and the lawyers earn fees. It is a good racket if you can get into it.

Hoax Billy Graham Usher Faces Term

NEW YORK (U)—Louis Silver, 46, who posed as an usher to collect \$491.59 at a Billy Graham Rally in Yankee Stadium last summer, pleaded guilty Friday to grand larceny.

Silver, a former Los Angeles liquor salesman, will be sentenced Dec. 24. He faces a maximum of five years in prison.

After Silver was seized in the stadium, Graham showed up in court, said he forgave Silver, and offered to find him a job.

Silver turned down the offer, but later attended another Graham meeting.

Try and Stop Me

—By BENNETT CERF—

THERE IS A WRITER in England who not only appropriated a lot of Bertrand Russell's ideas for a book he was writing, but had the nerve to ask Russell to contribute an introduction when the book was completed. Lord Russell's reply consisted of two words: "Modesty forbids."

Sophia Loren, the shapely, to put it mildly, Italian screen star, purged to a columnist, "The figure the heavens saw fit to give me—I owe to spaghetti!"

An old gal with young ideas cornered her druggist and asked, "Haven't you got something for grey hair?" He told her, "Nothing madam, but the greatest respect."

Have you encountered the well-rounded miss who married a second lieutenant? The first one got off the hook.

"I could have had him—but I never dreamed it was a money belt!"

Diet and Health

Test To Determine Physical Fitness

By HERMAN N. BUNDESEN

For a long time I've wanted to devise some simple question-and-answer test to help you determine just how physically fit you really are.

Authoress Bonnie Prudden has already done it. Glancing over her book, "Is Your Child Really Fit?" (I've already recommended that you read it) I noticed a chapter on the physical fitness of the entire family.

Why not check this test and see how you stack up? You are in fair shape if you can:

1. Climb 2 flights of stairs without puffing.
2. Walk a mile.
3. Carry a tenth of the weight of your body on your back for half a mile.
4. Do 3 knee-bends.

You are in pretty good shape if you can:

1. Climb 4 flights of stairs without puffing.
2. Walk a mile.
3. Carry a fifth of your body weight for two miles.
4. Run a 10-minute mile.
5. Do 20 knee-bends.
6. Do 5 push-ups.
7. Do 30 sit-ups from supine position.
8. Chin yourself once.

You are in excellent shape if you can:

1. Climb 5 flights of stairs without puffing.
2. Walk 20 miles without tiring.
3. Run 2 miles in 15 minutes.
4. Carry half your body weight three levee miles.
5. Do 50 knee-bends.
6. Do 10 push-ups.
7. Do 20 sit-ups with one-tenth of your body weight fastened behind your neck.
8. Chin yourself 5 times.
9. Climb and descend a 16-foot rope.

This latter series, I'll readily concede, is pretty much of a heman schedule. But if you are in fairly good physical condition, you should be able to perform most of the routines in Group two and at least some in Group three. Check with your doctor, just to be sure.

M. K.: My 9-year-old daughter complains of a bitter taste in her mouth. What causes this, and what can be done for it?

Answer: The presence of a bitter taste in the mouth may be due to an infection in the teeth, nasal sinuses or throat. It could also be due to constipation or some other digestive disorder. A thorough physical examination is necessary.

Candidates in a Wisconsin tow election wound up in a 160-160 tie. Our football writer suggests they settle it with a try-for-point.

The nation's anglers spend some \$30 million a year on equipment, including bait, according to Fisherman magazine. Whatever became of the barefoot boy of yesterday who was so successful with a piece of string, a bent pin and a worm?

Roofs of the new model cars are lower than ever. Getting so a fellow has to switch from a hat to a cap in self-defense.

Folk in the western U. S. saw the real moon turn red. Wasn't Russian propaganda, however—just an eclipse.

Cows and bears may soon be sent aloft in earth satellites, suggests a writer. Looks as if we're in for a lot of celestial static—"Beep! Beep! Arf! Arf! Moo! Moo Growl! Growl!"

Meg O'Day, a busy little Leghorn hen in Flemington, N. J., recently laid 362 eggs in 365 days.

Automatic Telephone Passes 65th Anniversary

People of Fayette County have become so used to the convenience of the telephone that few stop to recognize that the 65th anniversary of the automatic phone was just passed within the last few days.

Since 1915 the dial system has been in use throughout Fayette County which was one of the first counties in the nation to obtain this improved type of service.

The date of the automatic telephone's beginning has been almost forgotten outside the telephone industry itself. The instrument has become commonplace and is generally accepted as a matter of fact. However, this date marked the beginning of a new era of communications and was, perhaps, the real beginning of this age of automation.

The first automatic telephone system was one of mankind's first practical applications of remote control. The little undertaker who invented the system, Almon Brown Strowger, had set out to devise an electro-mechanical machine which could perform certain functions better than a human being. The idea was shocking in 1892, but Strowger did much to blaze the automation trail. Today, new applications of automatic electrical control are growing at an astounding rate.

Strowger had foreseen that manual operator switching could never provide telephone service of the magnitude which we know today. He was irritated at the inefficiencies of the operator system and worked on the problem until he solved it with an automatic switching system. His research equipment consisted of a pencil, a paper pocket of straight pins, and an old round collar box... yet he solved a problem which had stumped great engineers of his day. On this date in 1892, Strowger unveiled his automatic telephone system at La Porte, Indiana.

The first automatic telephone employed push-buttons, but worked on the same switching system as today's dial telephones. Four years after the La Porte installation, the company which Strowger founded, Automatic Electric, introduced the world's first finger wheel dial. Strowger equipment was widely acclaimed and adopted in many foreign countries, as well as in America.

Today's dial telephones are a far cry from the first automatic model installed sixty-five years ago, but they still embody the Strowger principals, as do some 75 per cent of all the world's dial telephone systems.

No Champagne Poured on Toes

NEW YORK (AP)—As any ordinary happy man does, I awoke as usual the other morning with the pleasurable sensation that my wife was pouring champagne on my toes.

I awoke and discovered, as usual, that my wife was not pouring champagne on my toes.

"Do you know what day this is?" she asked.

"She thought I didn't really know what she had in mind. The trouble for her is that I did. As a matter of fact I had been brooding about it for 20 years."

"This, my dear," I assured her, "was the day I destroyed you forever, just two decades ago."

"You were a carefree, bare-headed working girl, and I did the most cruel thing a man can do to an innocent girl with a purpose in this world—to take her away from her job."

"Well, you did," she said.

"So I did," I answered. "And industry is the poorer, but I am the richer."

By Hal Boyle

"Don't you think we should celebrate?"

"Celebrate what?"

"This is an occasion."

"Living with you, every day is an adventure. Being married to a Mau-Mau might offer the opportunity of an occasion. Being married to you every moment, even after 20 years has its strangeness."

"Well, I didn't have to marry you. I could have married any number of men. And why I picked you I don't know. An' who else could you have married, anyway?"

"A Mau-Mau."

"Which Mau-Mau?"

"Any Mau-Mau."

"Would you rather have her?"

"Not after knowing you."

"Do you think I am like a Mau-Mau?"

"Which Mau-Mau?"

"You don't make sense."

"Do you want me to make sense?"

"Some days."

"Then marry another man on those days."

"But you aren't at all altogether satisfactory."

"I'm not?"

"No, you're not!"

"But you are!"

"But do you really mean it? I mean from the heart?"

"Well, I'd rather have you than any Mau-Mau I know."

"You're sure?"

"Sure. Will you do me a favor?"

"What?"

"Is there any champagne in the icebox?"

"Yes. Why?"

"Will you open a bottle and pour it slowly over my toes?"

"No, I won't. And why do you ask such a crazy thing?"

"Because I know you wouldn't."

"Do you really think this is the way to celebrate a 20th wedding anniversary?"

"No, not if you don't wake me up by pouring champagne on my toes. This is my anniversary, too."

A Case of Boondoggling

Somebody sent me four volumes of hearings in the matter of "Power Authority of the State of New York, Project No. 2216." The total comes to 609 pages of mimeographed material.

At \$1.50 a page for the transcription this comes to nearly \$1,000 of garbage not including postage. I do not know how many others were sent this stuff but it just goes to show what happens when a bureaucracy gets hold of something. It always becomes what the youngsters call a federal case.

This one is before the Federal Power Commission which must have a lot of time on its hands. I glanced through the stuff. It starts with a long speech by somebody called "Presiding Examiner," who tells the folks who they should behave in front of company. He says, for instance:

"I might mention that smoking is not permitted during the sessions of the hearing. You can smoke in this room between sessions or during recess periods. I notice there are ash trays here for that purpose..."

I'm glad to see that the government provides ash trays and that the spectators will not throw their cigarette butts on the carpet. This is very thoughtful of the Presiding Examiner because whenever I go into a government office building, it always appears to be dirty as though vacuum cleaners and scrub women were unavailable.

Anyhow, all these pages deal with what to do about Niagara power. At the present time, most of the industries which formerly used Niagara power are purchasing theirs from Canada, which is on the ball.

But the rate is very high and if it remains that high, I am told, the businesses will have to move away. This long record shows that the Power Authority of the State of New York has applied for a license for a proposed hydroelectric project on the Niagara River in Niagara County, N. Y., and that the City of Niagara Falls, Town of Lewiston, has opposed the plans concerning water conduits and the reservoir area as proposed by

By George Sokolsky

the applicant.

So that starts a long hearing which keeps all the officials busy but power meanwhile is being purchased from Canada. Well, I have to skip some of the pages because it seems as though a lot of lawyers get into the act, which means that somebody is making some money out of it besides the Canadians. Apparently the Presiding Examiner is worried about the large number of lawyers who got into this thing, because he said:

"We will try to keep your names straight. I hope you will be patient with us if we make some mistakes. Most everyone here is a new face to me, and I presume there are others in that same boat, so be tolerant if we mix your name up a little bit occasionally or the party you represent as well. Those things seem to be inevitable in a hearing of this size."

Maybe they ought to retain my good friend, Jim Farley, to help them out. Jim never forgets a name or a face and always keeps the record straight. However, they have to work out procedures; in a word, someone needs to decide how the bureaucracy is to keep this thing going. The Presiding Examiner says:

"Now, there may have been some discussions among counsel as to the procedure here. The examiner is always anxious to carry out any arrangements that counsel have made among themselves for their own convenience as long as it doesn't interfere with the orderly processes of the hearing."

So Sam Rosenman points out that the engineers cannot agree on basic data and that is wasting time. This fight is not new. It has been in Congress since 1950.

This year Congress passed a law which is a compromise between private power and public power. While these hearings are going on, the price of building materials is going up and the Power Authority cannot tell whether the cost will be 600 million dollars or 800 million dollars because no one, in an inflationary period, can figure costs.

Well, I finished reading Sam Rosenman's statement and looked through the following pages and saw that the lawyers were going on forever and forever. Meanwhile, the Canadians are making hay while we hold hearings and the lawyers earn fees. It is a good racket if you can get into it.

Try and Stop Me

By BENNETT CERF

THERE IS A WRITER in England who not only appropriated a lot of Bertrand Russell's ideas for a book he was writing, but had the nerve to ask Russell to contribute an introduction when the book was completed. Lord Russell's reply consisted of two words: "Modesty forbids."

Sophia Loren, the shapely, to put it mildly, Italian screen star, purged to a columnist, "The figure the heavens saw fit to give me — I owe to spaghetti!"

An old gal with young ideas cornered her druggist and asked, "Haven't you got something for grey hair?" He told her, "Nothing madam, but the greatest respect."

Have you encountered the well-rounded miss who married a second lieutenant? The first one got off the hook.

© 1957, by Bennett Cerf. Distributed by King Features Syndicate.

NEW YORK (AP)—Louis Silver, 46, who posed as an usher to collect \$491.59 at a Billy Graham Rally in Yankee Stadium last summer, pleaded guilty Friday to grand larceny.

Silver, a former Los Angeles liquor salesman, will be sentenced Dec. 24. He faces a maximum of five years in prison.

After Silver was seized in the stadium, Graham showed up in court, said he forgave Silver, and offered to find him a job.

Silver turned down the offer, but later attended another Graham meeting.

Diet and Health

By HERMAN N. BUNDESEN

For a long time I've wanted to devise some simple question-and-answer test to help you determine just how physically fit you really are.

Authoress Bonnie Prudden has already done it. Glancing over her book, "Is Your Child Really Fit?" (I've already recommended that you read it) I noticed a chapter on the physical fitness of the entire family.

Why not check this test and see how you stack up?

You are in fair shape if you can:

1. Climb 2 flights of stairs without puffing.
2. Walk a mile.
3. Carry a tenth of your body weight of your body on your back for half a mile.
4. Do 3 knee-bends.

You are in pretty good shape if you can:

1. Climb 2 flights of stairs without puffing.
2. Walk a mile.
3. Carry a tenth of the weight of your body on your back for half a mile.
4. Do 3 knee-bends.

You're Telling Me

By WILLIAM RINT

The governor of California is a candidate for the Senate and a senator from that state will seek its governorship. Politics is getting like baseball — can't tell who's who without a scorecard.

A new Japanese bike is so light it can easily be carried about with one hand. "Look, Ma—no feet!"

Candidates in a Wisconsin town election wound up in a 160-100 tie. Our football writer suggests they settle it with a try-for-point.

The nation's anglers spend some \$30 million a year on equipment, including bait, according to Fisherman magazine. Whatever became of the barefoot boy of yesterday who was so successful with a piece of string, a bent pin and a worm?

Roofs of the new model cars are lower than ever. Getting so a fellow has to switch from a hat to a cap in self-defense.

Folk in the western U. S. saw the real moon turn red. Wasn't Russian propaganda, however—just an eclipse.

Cows and bears may soon be sent aloft in earth satellites, suggests a writer. Looks as if we're in for a lot of celestial static—"Beep! Beep! Arf! Arf! Moo! Moo! Growl! Growl!"

Test To Determine Physical Fitness

1. Climb 4 flights of stairs without puffing.
 2. Walk a mile.
 3. Carry a fifth your body weight for two miles.
 4. Run a 10-minute mile.
 5. Do 20 knee-bends.
 6. Do 5 push-ups.
 7. Do 30 sit-ups from supine position.
 8. Chin yourself once.
- You are in excellent shape if you can:
1. Climb 5 flights of stairs without puffing.
 2. Walk 20 miles without tiring.
 3. Run 2 miles in 15 minutes.
 4. Carry half your body weight three levee miles.
 5. Do 50 knee-bends.
 6. Do 10 push-ups.
 7. Do 20 sit-ups with one-tenth of your body weight fastened behind your neck.
 8. Chin yourself 5 times.
 9. Climb and descend a 16-foot rope.
- This latter series, I'll readily concede, is pretty much of a human schedule. But if you are in fairly good physical condition, you should be able to perform most of the routines in Group two and at least some in Group three. Check with your doctor, just to be sure.
- M. K.: My 9-year-old daughter complains of a bitter taste in her mouth. What causes this, and what can be done for it?
- Answer: The presence of a bitter taste in the mouth may be due to an infection in the teeth, nasal sinuses or throat. It could also be due to constipation or some other digestive disorder. A thorough physical examination is necessary.

Viet Nam Chief Still Backs SEATO

NEW DELHI (AP)—President Ngo Dinh Diem of South Viet Nam ended a state visit to India today with a reaffirmation of his support for the Southeast Asia Treaty Organization (SEATO). India opposes SEATO.

Without belonging to SEATO, Diem said, his country "considers being covered by SEATO is a great advantage." The U. S.-led alliance is publicly pledged to oppose Communist aggression or subversion in South Viet Nam.

Diem said South Viet Nam "is not considering adherence to any alliance at the present."

India opposes military pacts as hindrances to peace.

Meg O'Day, a busy little Leghorn hen in Flemington, N. J., recently laid 362 eggs in 365 days.

Round about Fayette County

By B. E. KELLEY

It is going to be a normal winter, with plenty of rain and snow, starting later this month — the "Paint Valley Prophet" says so.

"Nature never lies," declared the prophet in disclosing the whys and wherefores of his forecast for a normal winter.

"Everything indicates a winter that will be nearly normal," he said. He noted that even the corn husks foretell such a winter, because they do not cover all of the ends of the ears.

And the reason he knows there is going to be plenty of water, starting later this month, is that the turtles have taken refuge higher up in their mud homes than usual, to keep out of water above the normal flow of the streams.

"Look for plenty of water", he said in parting.

ECHO OF HORSE-BUGGY DAYS

While workmen were cutting away the curb in making sidewalk improvements in front of the McLean building on Court St. recently, the air - drill chiseled out an iron ring and pin which had been set in the curb. Melted lead had been poured around it to hold it firm for hitching a horse to it. The ring is some three inches in diameter and the pin which moored it in the old sandstone curb is over four inches long.

Both were made by a black-

smith and probably had been placed in the curb 75 to 100 years ago.

LEVIES NOT NEW

Tax levies for this, that and the other purpose which face voters at nearly every election, are not new in Washington C. H.

On June 4, 1832, or 125 years ago, the village council levied a tax of two mills on all property "for corporation purposes".

Just what the tax set - up was in those days, when the 10 - mill limitation had not been dreamed of, is conjectural. It might have been the custom to levy taxes sufficient to meet the meager expenditures of the village at that time. Such levies were small indeed compared with those of today when costs have arisen year by year as the city increased in size and constant improvements are essential to keep up with progress.

WHITE ARMED-SYCAMORES

Recent frosts and rains have combined to denude most of the trees and cover the ground with a carpet of gold— always a beautiful sight.

Driving along the Sugar Creek and lower Rattlesnake valleys, I could not help but notice the great number of white arms of the sycamore trees, which once more have been exposed by the fallen leaves.

There is always something fac-

inating about the white limbs of the sycamores, for invariably they reach out amid the more somber colors of the surrounding trees, like pencils of light in the darkness.

Some giant sycamores formerly stood along these, as well as other, streams in the county. I learn from folklore coming down through the generations, that some of these trees attained a diameter of eight to 10 feet.

Curiously enough it seems that all of these huge sycamores were recalled because they were hollow and afforded shelter to both man and beast.

As I looked at some of the sycamores still standing along the streams, I thought of the times when the Indians sought shelter beneath them, and pitched their villages on the banks of the streams until driven out by the wave of pioneers who came like an irresistible tide to overwhelm everything before them and transform the dangerous wilderness to the wonderful, peaceful area of today.

FORTY YEARS AGO

Several American soldiers were killed and others wounded in clash with German outposts in France.

Italians who had suffered serious defeat at hands of Austro-German forces were making desperate stand on Piave River.

Coal dealers here advised public to buy wood for heating purposes, as no adequate supply of coal was in sight.

Rebellion was under way in Petrograd, with many killed and wounded on both sides. The issue very much belocuded, as Russia was virtually eliminated from World War I.

YMCA launched drive for \$10,500 to promote Y service during the war.

George Haynes, furniture dealer here for years, died at 52 years of age.

Railroad police were rounding up numerous coal thieves who had been raiding cars of coal passing through city and parked in the yards.

Pythian Sisters held their district convention here.

Employment agency issued call for 30 corn huskers to be placed on jobs at once.

British claimed solution to German U-Boat menace to shipping.

Swifts are the fastest of all birds. They have been clocked at 200 miles an hour.

The Nation Today

WASHINGTON (AP)—The Truman and Eisenhower administrations both fell asleep. They were shocked awake by a war and a Sputnik.

It is not clear whether President Truman ever fully understood—or that President Eisenhower does now—the threat from Russian progress in missiles, satellites and science.

The Russians have outstripped this country in satellites, probably in intercontinental missiles, and in emphasis on training scientists. No one has pointed the finger more sharply than Wernher von Braun.

As a German he helped develop the Nazis' V2 rocket against Britain in World War II. Now, as an American citizen, he is one of this country's top missile experts. He says:

This country had no ballistic missiles program worth mentioning between 1945 and 1951, or until one year after the Korean War started this country into realization of Russia's military intentions.

But von Braun indirectly also blames the Eisenhower "administration for the present lag by saying we did not work hard enough on missiles "during the first 6 to 10 years" after World War II.

That puts the date—when this country began to push its missile program hardest—at 1955, or two years after Eisenhower took office.

Those were 10 years in which the Russians, judging from the results now appearing, laid the groundwork for their missile and satellite development.

Years from now it may seem unbelievable that Eisenhower could say—as he did in his Thursday night broadcast—that until now he

had been getting top scientific advice instead of having it organized.

Now he's setting out to organize it by appointing President James R. Killian of Massachusetts Institute of Technology as his special assistant to coordinate an American scientific defense effort.

Eisenhower, who appeared very calm over the first Russian Sputnik, took this action after the second Sputnik went up, a month later. But just how much Killian's appointment means remains to be

Spotted Alfalfa Aphid Said New Pest in Ohio

WOOSTER (AP)—The Ohio Agricultural Experiment Station reports a house from the south and southwest has been found on alfalfa grown in Hamilton, Clermont and Brown counties.

It is called the Spotted Alfalfa Aphid, and has been carried to Ohio by the wind, after reaching adjacent states last year.

Researchers will start tests to find the best ways of fighting the pest, which sucks the juice from the plant.

30-Story Structure Slated in Cincinnati

CINCINNATI (AP)—Ground-breaking ceremonies for Cincinnati's third-tallest building, the 30-story Kroger Building, are scheduled for Wednesday. The Kroger Co. will occupy 75,000 of the air-conditioned building's 400,000 square feet and will make the structure its headquarters.

The only taller buildings here are the Carew Tower (48 stories) and the Union Central Building (34 stories).

James Marlow

Ingrid Hailed For 'Artistic Activities'

ROME (AP)—Italian President Giovanni Gronchi Friday night presented actress Ingrid Bergman with an award for "artistic activities."

In Bombay, India, the husband of Sonali Das Gupta, who is reported having a romance with Roberto Rossellini, says he intends to talk to a lawyer about it all.

Hari Das Gupta was working on a documentary film when he made the comment. His beautiful 27-year old wife has been reported to be in Europe.

Rossellini and Miss Bergman were legally separated in Rome Thursday after a 7½-year marriage, giving incompatibility as the reason. They have three children.

The location of Rossellini, an Italian film director, since receiving the separation has been un-

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made

astounding statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne*)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H* At your druggist. Money back guarantee.

This Year's 'Oscar' Derby To Be Interesting, Colorful

HOLLYWOOD (AP)—This year's Oscar derby shapes up as the most interesting—and most colorful—in years.

Previewers have looked at most of the class products—the so-called Academy Award entries—and how's this for a possible field?

The screen's most beautiful woman; a long forgotten villain of the silent screen; a young girl who hadn't even acted in a high school play six months ago; two comics, both discarded by TV and both switching to serious dramatics; and the only two Rabelaisian characters left in an industry that once was filled with them.

All that plus the usual standbys who give Oscar performances every time out.

The screen's most beautiful woman, and few argue otherwise, is Liz Taylor. At the moment, her performance in "Raintree County" is the standout among the top feminine stars.

Grandma used to cringe at Sessue Hayakawa. He's meaner than ever as the commander of the Japanese prison camp in "Bridge on the River Kwai." Alec Guinness, the master of British satire, seems to be a shoo in for a nomination in the same picture. It's a serious role for Guinness, famed for English comedies.

Milko Taka, a cute Nisei girl from Los Angeles, was working for \$60 a week in a travel agency six months ago. She was chosen—and coached by—Marion Savonara. Audiences will find it hard to believe that this girl's sensitive portrayal of Brando's Nipponese sweetheart is the work of a novice.

Brando seems a sure bet for his umpteenth nomination in the same picture. But the big surprise is Red Buttons, also in "Sayonara," portraying the tragic enlisted man in the James Michener best seller.

Ed Wynn, one of the all time greats of comedy, should be nominated for his touching, tragic

role of the radio station owner in "The Great Man."

The lusty characters are Robert Mitchum, who played the tough Marine isolated on a Pacific island with a nun in "Heaven Knows, Mr. Allison," and Errol Flynn, who, made a Hemingway character come alive on the screen in "The Sun Also Rises."

Among the standbys who will rate nods are Deborah Kerr and Cary Grant, for "An Affair to Remember;" Frank Sinatra, for "Pal Joey;" and "The Joker is Wild;" James Cagney, as Lon Chaney in "Man of a Thousand Faces," and Tony Quinn and Anna Magnani in "Wild is the Wind."

Audrey Hepburn and Maurice Chevalier, for "Love in the Afternoon," and Anthony Franciosa, for "Hatful of Rain," are others.

Only car to bring you Sports-Car Spirit ... with Limousine Ride

Mercury introduces the year's biggest advance in car performance—a combination of the superb control and handling ease of a sports car—plus the room, ride, and comfort of a limousine.

4 SERIES OF MERCURYS TO CHOOSE FROM IN '58. PRICES START JUST ABOVE THE LOWEST. The Monterey series has 5 models within easy reach of buyers of low-priced cars. For only a few dollars more, Mercury's six Montclairs give you many additional luxury features. There's a choice of six station wagon models in 3 price ranges. For magnificence unlimited, there are 3 models in the entirely new Park Lane series. And, even here, prices are surprisingly modest.

ANNOUNCING AN ENTIRELY NEW FAMILY OF MARAUDER ENGINES WITH UNIQUE COOL-POWER DESIGN. The great engineering advances of "Cool-Power" Design include new In-block Combustion, Water-flow Intake Manifold, 3-stage Cooling, and Cool-head Valves. Power and fuel once lost to heat and friction are put to work for you. There are three new Marauder V-8's with 312, 330 and 360 hp. They are all teamed with a new high-economy rear axle to give you more power, more mileage from less fuel.

ADVANCED TREND-SETTING STYLING—WONDERFUL NEW DRIVING AIDS. Mercury continues its leadership—not only in styling, but in features. For example, new Super-Safe self-adjusting brakes. New Multi-Drive Merc-O-Matic in the Park Lane series. And you can get features like a Speed-limit Safety Monitor, automatic power lubrication, and many others. We invite you to attend the first showing.

KAUFMAN'S WALLPAPER & PAINT STORE

114 W. Court House 47811

Round about Fayette County

By B. E. KELLEY

It is going to be a normal winter, with plenty of rain and snow, starting later this month — the "Paint Valley Prophet" says so.

"Nature never lies," declared the prophet in disclosing the whys and wherefores of his forecast for a normal winter.

"Everything indicates a winter that will be nearly normal," he said. He noted that even the corn husks foretell such a winter, because they do not cover all of the ends of the ears.

And the reason he knows there is going to be plenty of water, starting later this month, is that the turtles have taken refuge higher up in their mud homes than usual, to keep out of water above the normal flow of the streams.

"Look for plenty of water," he said in parting.

ECHO OF HORSE-BUGGY DAYS
While workmen were cutting away the curb in making sidewalk improvements in front of the McLean building on Court St. recently, the air — drill chiseled out an iron ring and pin which had been set in the curb. Melted lead had been poured around it to hold it firm for hitching a horse to it.

The ring is some three inches in diameter and the pin which moored it in the old sandstone curb is over four inches long.

Both were made by a black-

smith and probably had been placed in the curb 75 to 100 years ago.

LEVIES NOT NEW

Tax levies for this, that and the other purpose which face voters at nearly every election, are not new in Washington C. H.

On June 4, 1832, or 125 years ago, the village council levied a tax of two mills on all property "for corporation purposes".

Just what the tax set - up was in those days, when the 10 - mill limitation had not been dreamed of, is conjectural. It might have been the custom to levy taxes sufficient to meet the meager expenditures of the village at that time. Such levies were small indeed compared with those of today when costs have arisen year by year as the city increased in size and constant improvements are essential to keep up with progress.

WHITE ARMED SYCAMORES

Recent frosts and rains have combined to denude most of the trees and cover the ground with a carpet of gold — always a beautiful sight.

Driving along the Sugar Creek and lower Rattlesnake valleys, I could not help but notice the great number of white arms of the sycamore trees, which once more have been exposed by the fallen leaves.

There is always something fac-

inating about the white limbs of the sycamores, for invariably they reach out amid the more somber colors of the surrounding trees, like pencils of light in the dark-ness.

Some giant sycamores formerly stood along these, as well as other, streams in the county. I learn from folklore coming down through the generations, that some of these trees attained a diameter of eight to 10 feet.

Curiously enough it seems that all of these huge sycamores were recalled because they were hollow and afforded shelter to both man and beast.

As I looked at some of the sycamores still standing along the streams, I thought of the times when the Indians sought shelter beneath them, and pitched their villages on the banks of the streams until driven out by the wave of pioneers who came like an irresistible tide to overwhelm everything before them and transform the dangerous wilderness to the wonderful, peaceful area of today.

FORTY YEARS AGO

Several American soldiers were killed and others wounded in clash with German outposts in France.

Italians who had suffered serious defeat at hands of Austro-German forces were making desperate stand on Piave River.

Coal dealers here advised public to buy wood for heating purposes, as no adequate supply of coal was in sight.

Rebellion was under way in Petrograd, with many killed and wounded on both sides. The issue very much beclouded, as Russia was virtually eliminated from World War I.

YMCA launched drive for \$10,000 to promote Y service during the war.

George Haynes, furniture dealer here for years, died at 52 years of age.

Railroad police were rounding up numerous coal thieves who had been raiding cars of coal passing through city and parked in the yards.

Pythian Sisters held their district convention here.

Employment agency issued call for 50 corn huskers to be placed on jobs at once.

British claimed solution to German U-Boat menace to shipping.

Swifts are the fastest of all birds. They have been clocked at 200 miles an hour.

WASHINGTON (AP)—The Truman and Eisenhower administrations both fell asleep. They were shocked awake by a war and a Sputnik.

It is not clear whether President Truman ever fully understood—or that President Eisenhower does now—the threat from Russian progress in missiles, satellites and science.

The Russians have outstripped this country in satellites, probably in intercontinental missiles, and in emphasis on training scientists. No one has pointed the finger more sharply than Wernher von Braun.

As a German he helped develop the Nazis' V2 rocket against Britain in World War II. Now, as an American citizen, he is one of this country's top missile experts. He says:

This country had no ballistic missiles program worth mentioning between 1945 and 1951, or until one year after the Korean War started this country into realization of Russia's military intentions.

But von Braun indirectly also blames the Eisenhower administration for the present lag by saying we did not work hard enough on missiles "during the first 6 to 10 years" after World War II.

That puts the date—when this country began to push its missile program hardest—at 1955, or two years after Eisenhower took office.

Those were 10 years in which the Russians, judging from the results now appearing, laid the groundwork for their missile and satellite development.

Years from now it may seem unbelievable that Eisenhower could say—as he did in his Thursday night broadcast—that until now he

had been getting top scientific advice instead of having it organized.

Now he's setting out to organize it by appointing President James R. Killian of Massachusetts Institute of Technology as his special assistant to coordinate an American scientific defense effort.

Eisenhower, who appeared very calm over the first Russian Sputnik, took this action after the second Sputnik went up, a month later. But just how much Killian's appointment means remains to be seen.

Unless he has real power—and it is not clear that he has—he may be bypassed or undercut by heads of government agencies and projects.

Eisenhower makes another speech in Oklahoma City Wednesday night. He is expected to talk about a new program to develop American scientists and engineers perhaps with government help, in order to keep up with or surpass Russian education in those fields.

But the fact that the Russians for years have put tremendous effort into training scientists and engineers, and that we haven't been doing it, can hardly be considered new.

There's just been delay in waking up to it or doing something about it.

Mrs. Hugh Taylor of Irvington, N. J., has been blind for seven years. With Maggie, her Boxer dog guide, she does all her own housework and holds down a full time job as secretary. In the latter job she types stencils and transcribes from a tape recorder.

Spotted Alfalfa Aphid Said New Pest in Ohio

WOOSTER (AP)—The Ohio Agricultural Experiment Station reports a louse from the south and southwest has been found on alfalfa grown in Hamilton, Clermont and Brown counties.

It is called the Spotted Alfalfa Aphid, and has been carried to Ohio by the wind, after reaching adjacent states last year.

Researchers will start tests to find the best ways of fighting the pest, which sucks the juice from the plant.

30-Story Structure Slated in Cincinnati

CINCINNATI (AP)—Ground-breaking ceremonies for Cincinnati's third-tallest building, the 30-story Kroger Building, are scheduled for Wednesday. The Kroger Co. will occupy 75,000 of the air-conditioned building's 400,000 square feet and will make the structure its headquarters.

The only taller buildings here are the Carew Tower (48 stories) and the Union Central Building (34 stories).

Ingrid Hailed For 'Artistic Activities'

ROME (AP)—Italian President Giovanni Gronchi Friday night presented actress Ingrid Bergman with an award for "artistic activities."

In Bombay, India, the husband of Sonali Das Gupta, who is reported having a romance with Roberto Rossellini, says he intends to talk to a lawyer about it all.

Hari Das Gupta was working on a documentary film when he made the comment. His beautiful 27-year old wife has been reported to be in Europe.

Rossellini and Miss Bergman were legally separated in Rome Thursday after a 7½-year marriage, giving incompatibility as the reason. They have three children.

The location of Rossellini, an Italian film director, since receiving the separation has been un-

known. He has been reported en route to Paris.

The French airline, Air France, said that Sonali had arrived in Paris Oct. 6.

In Stockholm, the Swedish newspaper Stockholms-Tidningen said today a wealthy 40-year-old Swede now living in Paris will become Miss Bergman's next husband.

This Year's 'Oscar' Derby To Be Interesting, Colorful

HOLLYWOOD (AP)—This year's Oscar derby shapes up as the most interesting—and most colorful—in years.

Previewers have looked at most of the class products—the so-called Academy Award entries—and how's this for a possible field?

The screen's most beautiful woman, a long forgotten villain of the silent screen; a young girl who hadn't even acted in a high school play six months ago; two comics, both discarded by TV and both switching to serious dramas; and the only two Rabelaisian characters left in an industry that once was filled with them.

All that plus the usual standbys who give Oscar performances every time out.

The screen's most beautiful woman, and few argue otherwise, is Liz Taylor. At the moment, her performance in "Raintree County" is the standout among the top feminine stars.

Grandma used to cringe at Sessue Hayakawa. He's meaner than ever as the commander of the Japanese prison camp in "Bridge on the River Kwai." Alec Guinness, the master of British satire, seems to be a shoo in for a nomination in the same picture. It's a serious role for Guinness, famed for English comedies.

Miiko Taka, a cute Nisei girl from Los Angeles, was working for \$60 a week in a travel agency six months ago. She was chosen—and coached by—Marlon Brando for her acting debut in "Sayonara." Audiences will find it hard to believe that this girl's sensitive portrayal of Brando's Nipponese sweetheart is the work of a novice.

Brando seems a sure bet for his umpteenth nomination in the same picture. But the big surprise is Red Buttons, also in "Sayonara," portraying the tragic enlisted man in the James Michener best seller.

Ed Wynn, one of the all time greats of comedy, should be nominated for his touching, tragic

role of the radio station owner in "The Great Man."

The lusty characters are Robert Mitchum who played the tough Marine isolated on a Pacific island with a nun in "Heaven Knows, Mr. Allison," and Errol Flynn, who, made a Hemingway character come alive on the screen in "The Sun Also Rises."

Among the standbys who will rate nods are Deborah Kerr and Cary Grant, for "An Affair to Remember;" Frank Sinatra, for "Pal Joey" and "The Joker is Wild;" James Cagney, as Lon Chaney in "Man of a Thousand Faces," and Tony Quinn and Anna Magnani in "Wild is the Wind."

Audrey Hepburn and Maurice Chevalier, for "Love in the Afternoon," and Anthony Franciosa, for "Hatful of Rain," are others.

 The public is welcomed to attend.

The Rhone river is the swiftest of all the important rivers of the world. Its current ranges from six to 40 miles an hour.

Social Happenings

6 The Record-Herald Monday, Nov. 11, 1957
 Washington C. H., Ohio

Chapter To Hold True Blue Class State Council Meeting Jan. 19

The Ohio State Council meeting of Epsilon Sigma Alpha Sorority will be held at the Country Club Jan. 19. Mrs. June Morgan, Zanesville, is the president and around one hundred members are expected to attend. They will be from Zanesville, Middletown, Columbus, Cincinnati, Oak Arbor, Toledo, Fremont, Dayton, Cleveland, Lorain, Avon Lake, East Palestine, Columbus, Massillon, Mt. Sterling, London and Newark.

Committees were appointed at a business meeting held by Alpha Theta Chapter of Epsilon Sigma Alpha Sorority at the home of Mrs. Gail Mershon Wednesday night. The committees are Mrs. Roger Rapp, Mrs. David Moore, Mrs. Frank Junk and Mrs. Dwight Martin, decorations; Mrs. Sam Athey, Mrs. Mac Dews Jr., and Mrs. Sam Wilson, program; Mrs. Dudley Moor and Mrs. Robert Caldwell, food; and Mrs. Charles Gibeau, Mrs. Charles Mallow and Mrs. Lester Stephenson, registration.

The following members will help mail Christmas seals for the TB Assn. Tuesday night: Mrs. Howard Burnett Jr., Mrs. Robert Goodson, Mrs. Caldwell, Mrs. Stephens on, Mrs. Moon, Mrs. Mallow, Mrs. Richard Kelly, Mrs. Martin, Mrs. Mershon, Mrs. Rapp, Mrs. Athey, Mrs. Junk, Mrs. Dews, Mrs. Moore, Mrs. William Hunt, Mrs. Wilson, Mrs. Jack Doyle, Miss Madeline Denen, Mrs. Claude Smith, Mrs. Marilyn Reno and Mrs. Frelan Van Meter.

Mrs. Howard Burnett Jr., president, conducted the meeting and a report was given on the rummage sale held at the First Presbyterian Church recently.

Mrs. Dwight Martin and Mrs. Robert Goodson reported on the Ohio State convention they attended in Cincinnati.

A delicious dessert course was served by the hostess, assisted by Mrs. Athey to 15 members and three guests, Miss Madeline Denen, Mrs. Marilyn Reno and Mrs. Claude Smith.

The next meeting will be held at the home of Mrs. Charles Mallow on Nov. 20.

St. Colman's Dinner Party Sunday Night

The St. Colman's Church Thanksgiving dinner party was held at the Country Club Sunday night with 146 present.

Speakers were Col. Harold Hays, Columbus, head of the Ohio draft board and former superintendent of the Boys Industrial School, Lancaster; the Rev. Father William Connor, Catholic chaplain at the BIS, and the Rev. Charles L. Harrison, Protestant chaplain at the state school.

Col. Hays is a native of Fayette County and a graduate of Washington High School.

Mrs. Hays and Mrs. Harrison accompanied their husbands.

Miss Jean Conaway, WHS homecoming queen was presented to the group and received a corsage from Col. Hays.

The Rev. Father Richard J. Connelly, pastor of St. Colman's Church, acted as master of ceremonies. Father Connelly formerly was a chaplain at the Boys Industrial School.

The True Blue Class meeting was held Friday night at the church with the president, George Anderson, opening the meeting with a song service. Mrs. Lawrence Black played the accompaniment on the piano.

George Anderson, president of the True Blue Class of the Sugar Grove Methodist Church, has volunteered to print the names of all the men in the service from the Sugar Grove Community on the church honor roll.

Mrs. Harold Hise in the absence of Raymond Anderson, devotional leader, gave the Scripture and closed this period with the class repeating the Lord's Prayer in unison.

In the absence of Mrs. Raymond Anderson, Mrs. Black gave the secretary's report.

Donations were made to the Worthington Childrens Home and to Veterans Hospital, Chillicothe.

It was announced that a revival will begin Dec. 1 to the 15. The Rev. Harold Hugs will be the minister in charge.

Prayers were given for all sick members of the class and cards were sent.

The meeting was closed with the class benediction.

The men will be hosts at the next meeting to be held Dec. 20. Delicious refreshments preceded the meeting.

Personals

Mr. and Mrs. Stanley Paxson returned Friday from a two-week visit with their daughter, Mrs. Hugh Urbantke, Mr. Urbantke and family in Houston, Texas. On Wednesday and Thursday Mr. and Mrs. Paxson were the guests of Mr. Oldham Clark, attorney, Louisville, Ky., and attended the American Bar Assn. meeting at the Brown Hotel there.

Mr. and Mrs. William Daugherty and children and Adell Schaper, Worthington, were the Sunday guests of Mrs. L. L. Brock and Judge and Mrs. R. L. Brubaker and family.

Dr. and Mrs. James E. Rose, Mr. and Mrs. Harry Speakman and Mr. Tom Dowler attended "Dad's Day" at Ohio University, Athens, Saturday. In the afternoon they attended the Ohio U-Bowling Green football game and that night the "Varsity O Show." Jerry Speakman, son of Mr. and Mrs. Speakman, is a senior and Miss Sandy Rose, daughter of Dr. and Mrs. Rose, is a freshman at Ohio U.

Miss Ann Hire, daughter of Mr. and Mrs. Charles S. Hire, was home from Wooster College over the weekend.

DEAR MARY HAWORTH: My wife and I have been married 15 years and have three children—the youngest just starting high school this year. Consistent with her expressed intention of the last few years, my wife has taken a fulltime job, 9 a.m. to 5:30 p.m.

Until she actually started this job, my wife's reasons for wanting to work were three: dislike of housework, desire for more income, and a wish to be more productive and useful, so she said. But now her avowed reason is that she wants to achieve job independence, so that she may comfortably leave me when the children are grown.

This is her first experience as a job holder, and she has a high school education.

We've had what I believe to be a normal number of conventional spats in our married life; and in between we've been a loving couple. Our children are very satisfied and I've built up my salary to \$13,000 a year. I think I qualify as a devoted loving husband and father, in most (if not all) important respects.

The mental effect of my wife's working (and her new philosophy, frankly stated in the children's presence) has cut deeply; and the physical results are chaotic. Many household details and responsibilities have been shifted from my wife to our eldest daughter or me. Yet Jane's pay is so meager that I doubt there will be any net gain, overall, in family income. She has no time for the children's school or social activities; and actually is a parttime wife and mother.

I love her dearly, regardless of her declared intentions. Always her bark has been worse than her bite, and I don't really believe she wants to live alone, or with anyone else but me. But she is determined to keep working. I think she's being unfair and I'd like to stop her—but without making any threats or doing anything drastic. Do you have any suggestions?

S. J.
 DEAR S.J.: At least one-half the story hasn't been told. I'd like to hear your wife's version of her 15 years' married life with you.

Appropos her new experiment in living—being a job holder since the youngest child is in high school it's possible that she will be the loser by it, eventually. That is to say, she may find in time that

her husband and children are learning to need her less and less—a discovery that can be almost unbearably painful and disturbing to the average matron, should it overtake her in middle age.

But possibly your wife is the exception. Perhaps she wasn't cut out for the nurturing role, in the family constellation. Maybe she wants nothing so much as to be free of family demands, so as to "find herself" as an individual—a blind struggle for a sense of purpose and significance in life that is characteristic of sensitive adolescence, usually.

Maybe your wife went into marriage and parenthood before her adolescent phase was completed; and since then has lived in a state of emotional suspense, or psychologically arrested development. Possibly she's striving now to take up where she left off, in searching for the person she once felt she was and hoped to become.

As you love your wife, my suggestion is to cooperate with her aspiration to prove herself as a wage earner. Give her sympathetic support in trying her wings outside the home. Set the children a good example of respectful affectionate interest in mother's foray into the business world—which is really her attempt to grow. Provide leadership and encouragement in redistributing household chores, so as to make light work for all on this score.

I don't know the methods whereby you won your wife's heart in the beginning. But why not become, once more, a candidate for her love and approval? Probably you've made mistakes with her, such as taking her for granted, wanting to control her via the purse strings, etc.—and now's the time to review and amend your own errors, instead of fuming at her distress signals.

M. H.
 Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of this newspaper.

Margaret Truman Shuns Picket Line

BURBANK, Calif. (AP)—Margaret Truman, here for TV rehearsals, ran into a picket line her first day on the job at the NBC.

Miss Truman, the wife of New York newspaperman Clifton Daniel, refused to cross the lines. Instead, she was driven unnoticed through a rear gate.

Miss Truman will star in "Iris" next Thursday and on the Gisele MacKenzie show Nov. 23.

Milledgeville PTO Events Net \$490

MILLEDGEVILLE—Almost \$500 was raised by the Milledgeville PTO at their annual chicken dinner and carnival, according to Robert Fichtorn president. The chicken dinner netted the PTO \$190.

The carnival was held last Friday night at the Milledgeville school and resulted in a profit of \$300, according to the co-chairmen, Willard Dice and Charles Hiser. Two hundred guests attended the carnival and enjoyed the dart games, fish pond, duck and cane ringing and other games of skill.

Cider and doughnuts, popcorn and candy, hotdogs and coffee were served. The event closed with a cakewalk.

Clothing Store Aide Accused as Embezzler

HUNTINGTON, W. Va. (AP)—Carl Cassidy, 25, assistant manager of a clothing store here, was arrested Sunday in Cincinnati and charged with embezzlement from the store. Cassidy also was charged with giving false information to a federal officer. He had told police he was kidnapped and taken into Ohio last Wednesday by a bearded gunman who robbed him of \$1,251 in store receipts.

Stravinsky Due on TV

NEW YORK (AP) — NBC-TV will present a conversation with composer Igor Stravinsky on its weekly Wisdom Series Sunday at 2:30.

IT'S SO EASY TO PLACE A WANT AD.

Chapter To Hold State Council Meeting Jan. 19

The Ohio State Council meeting of Epsilon Sigma Alpha Sorority will be held at the Country Club Jan. 19. Mrs. June Morgan, Zanesville, is the president and around one hundred members are expected to attend. They will be from Zanesville, Middletown, Columbus, Cincinnati, Oak Arbor, Toledo, Fremont, Dayton, Cleveland, Lorain, Avon Lake, East Palestine, Columbiana, Massillon, Mt. Sterling, London and Newark.

Committees were appointed at a business meeting held by Alpha Theta Chapter of Epsilon Sigma Alpha Sorority at the home of Mrs. Gail Mershon Wednesday night. The committees are Mrs. Roger Rapp, Mrs. David Moore, Mrs. Frank Junk and Mrs. Dwight Martin, decorations; Mrs. Sam Athey, Mrs. Mac Dews Jr., and Mrs. Sam Wilson, program; Mrs. Dudley Moor and Mrs. Robert Caldwell, food; and Mrs. Charles Gibeau, Mrs. Charles Mallow and Mrs. Lester Stephenson, registration.

The following members will help mail Christmas seals for the TB Assn. Tuesday night: Mrs. Howard Burnett Jr., Mrs. Robert Goodson, Mrs. Caldwell, Mrs. Stephens on, Mrs. Moon, Mrs. Mallow, Mrs. Richard Kelly, Mrs. Martin, Mrs. Mershon, Mrs. Rapp, Mrs. Athey, Mrs. Junk, Mrs. Dews, Mrs. Moore, Mrs. William Hunt, Mrs. Wilson, Mrs. Jack Doyle, Miss Madeline Denen, Mrs. Claude Smith, Mrs. Marilyn Reno and Mrs. Frelan Van Meter.

Mrs. Howard Burnett Jr., president, conducted the meeting and a report was given on the rummage sale held at the First Presbyterian Church recently.

Mrs. Dwight Martin and Mrs. Robert Goodson reported on the Ohio State convention they attended in Cincinnati.

A delicious dessert course was served by the hostess, assisted by Mrs. Athey to 15 members and three guests, Miss Madeline Denen, Mrs. Marilyn Reno and Mrs. Claude Smith.

The next meeting will be held at the home of Mrs. Charles Mallow on Nov. 20.

St. Colman's Dinner Party Sunday Night

The St. Colman's Church Thanksgiving dinner party was held at the Country Club Sunday night with 146 present.

Speakers were Col. Harold Hays, Columbus, head of the Ohio draft board and former superintendent of the Boys Industrial School, Lancaster; the Rev. Father William Connor, Catholic chaplain at the BIS, and the Rev. Charles L. Harrison, Protestant chaplain at the state school.

Col. Hays is a native of Fayette County and a graduate of Washington High School.

Mrs. Hays and Mrs. Harrison accompanied their husbands.

Miss Jean Conaway, WHS homecoming queen was presented to the group and received a corsage from Col. Hays.

The Rev. Father Richard J. Connelly, pastor of St. Colman's Church, acted as master of ceremonies. Father Connelly formerly was a chaplain at the Boys Industrial School.

The True Blue Class meeting was held Friday night at the church with the president, George Anderson, opening the meeting with a song service. Mrs. Lawrence Black played the accompaniment on the piano.

George Anderson, president of the True Blue Class of the Sugar Grove Methodist Church, has volunteered to print the names of all the men in the service from the Sugar Grove Community on the church honor roll.

Mrs. Harold Hise in the absence of Raymond Anderson, devotional leader, gave the Scripture and closed this period with the class repeating the Lord's Prayer in unison.

In the absence of Mrs. Raymond Anderson, Mrs. Black gave the secretary's report.

Donations were made to the Worthington Childrens Home and to Veterans Hospital, Chillicothe.

It was announced that a revival will begin Dec. 1 to the 15. The Rev. Harold Hagus will be the minister in charge.

Prayers were given for all sick members of the class and cards were sent.

The meeting was closed with the class benediction.

The men will be hosts at the next meeting to be held Dec. 20. Delicious refreshments preceded the meeting.

Personals

Mr. and Mrs. Stanley Paxson returned Friday from a two week visit with their daughter, Mrs. Hugh Urbantke, Mr. Urbantke and family in Houston, Texas. On Wednesday and Thursday Mr. and Mrs. Paxson were the guests of Mr. Oldham Clark, attorney, Louisville, Ky., and attended the American Bar Assn. meeting at the Brown Hotel there.

Mr. and Mrs. William Daugherty and children and Adell Schaper, Worthington, were the Sunday guests of Mrs. L. L. Brock and Judge and Mrs. R. L. Brubaker and family.

Dr. and Mrs. James E. Rose, Mr. and Mrs. Harry Speakman and Mr. Tom Dowler attended "Dad's Day" at Ohio University, Athens, Saturday. In the afternoon they attended the Ohio U-Bowling Green football game and that night the "Varsity O Show." Jerry Speakman, son of Mr. and Mrs. Speakman, is a senior and Miss Sandy Rose, daughter of Dr. and Mrs. Rose, is a freshman at Ohio U.

Miss Ann Hire, daughter of Mr. and Mrs. Charles S. Hire, was home from Wooster College over the weekend.

DEAR MARY HAWORTH: My wife and I have been married 15 years and have three children—the youngest just starting high school this year. Consistent with her expressed intention of the last few years, my wife has taken a fulltime job, 9 a.m. to 5:30 p.m.

Until she actually started this job, my wife's reasons for wanting to work were three: dislike of housework, desire for more income, and a wish to be more productive and useful, so she said. But now her avowed reason is that she wants to achieve job independence, so that she may comfortably leave me when the children are grown.

This is her first experience as a job holder, and she has a high school education.

We've had what I believe to be a normal number of conventional spats in our married life; and in between we've been a loving couple. Our children are very satisfactory. I've built up my salary to \$13,000 a year. I think I qualify as a devoted loving husband and father, in most (if not all) important respects.

The mental effect of my wife's working (and her new philosophy, frankly stated in the children's presence) has cut deeply; and the physical results are chaotic. Many household details and responsibilities have been shifted from my wife to our eldest daughter or me. Yet Jane's pay is so meager that I doubt there will be any net gain, overall, in family income. She has no time for the children's school or social activities; and actually is a parttime wife and mother.

I love her dearly, regardless of her declared intentions. Always her bark has been worse than her bite, and I don't really believe she wants to live alone, or with anyone else but me. But she is determined to keep working. I think she's being unfair and I'd like to stop her—but without making any threats or doing anything drastic. Do you have any suggestions?

DEAR S.J.: At least one-half the story hasn't been told. I'd like to hear your wife's version of her 15 years' married life with you.

Apologies for new experiment in living—being a job holder since the youngest child is in high school it's possible that she will be the loser by it, eventually. That is, she may find in time that

Pennington Plans Test Baking About Mid-Week

Test baking at the new million-dollar Pennington Corp. commercial bakery on Clinton Ave. has been delayed—probably until Wednesday—as installation experts make final adjustments on automatic equipment.

Howard G. Wright, Pennington vice president and manager of the Washington C. H. plant which will produce all of the baked goods for the rapidly growing Pennington market, said that the delay has been caused by late arrival of parts, particularly for the mile-long conveyor-cooling system.

Some of the parts arrived over the weekend by special messenger from New York City.

ONLY PRODUCTION at the plant to date has been the toasting of bread cubes which are marketed for dressings and poultry stuffing. Thousands of packages have been turned out daily over the past several weeks.

The new plant, when it reaches full production, will employ approximately 200 persons which will equal the employment before the fire which leveled the big bakery in June 1956.

The payroll will exceed a million dollars a year.

Death Ends Ohio Editor's Feud with Revenue Bureau

JEFFERSON, Ohio (U-P) — Death has ended the feud a country editor had been carrying on since last spring against the U.S. Internal Revenue Service for what he called "police state methods in collecting unproven delinquent accounts."

The 81-year-old editor of the Jefferson Gazette, Edward Chester (Chet) Lampson, died Saturday in Ashtabula General Hospital. He had edited the paper, published Tuesdays and Fridays in this county seat town of 2,000, since his father's death in 1896.

A notice that he owed \$9 on his 1956 tax was received by Lampson last April and set off an editorial barrage that was still going on at a column-and-a-half rate last month.

In his "From the Editor's Note Book" column, Lampson described the language of the notice as "offensive, insulting and beneath the dignity of the U.S. government." He was especially incensed by a "threat to levy on a citizen's wage and seize his property."

"You make crooks out of honest people if they are harassed on false charges or frightened if they make honest errors which they would gladly correct if shown them just as businessmen show each other," he wrote.

As a result of his campaign, Lampson was promised by Undersecretary of the Treasury Fred C. said, that the language on the government form to which he objected would be modified.

"If my 'pop-gun battle' with the GIANTS in the revenue service has awakened those responsible for the unhappy policies resulting Scribner Jr. and other officials, he from the FEAR METHOD of col-

lecting income taxes, when the great majority of taxpayers have no intention to cheat the government, I shall not have lived in vain," Lampson wrote in the Gazette Oct. 18.

"Approval of my efforts has come from editorial columns of great city dailies and small weekly newspapers from coast to coast. Two papers in foreign countries added their commendation."

Great grandson of a Revolutionary War soldier, Lampson was a collector of books and relics of the Western Reserve. His father, who started the Gazette in 1876, had been a representative in the Ohio House and its reading clerk for 16 years and had served as lieutenant governor.

Chet Lampson never sought public office, although he was keenly interested in politics and a staunch Republican. He attended two GOP national conventions, once as a delegate and once as an alternate.

He leaves his wife, Pearl, a son E. W. Lampson, and a daughter, Mrs. Carolyn Lee of New York City.

Services will be at 2 p. m. Tuesday in the Jefferson Congregational Church.

Antioch College Gets \$400,000 for Dorm

WASHINGTON (U-P) — A loan of \$400,000 to finance a dormitory at Antioch College, Yellow Springs, Ohio, has been announced by the Community Facilities Administration.

The dormitory will house 92 men students.

SHE GETS A HEAD START—In many sections of the globe women's hats are considered millinery, but in certain regions of the Black Forest area of Germany they're a tipoff. Each village and town dons bonnets for harvest festival hopefuls or for weddings. Widows have black berets, but the "Schaepel," worn by this girl in the village of Hausach, Germany, indicates that the girl is unmarried and is looking for a possible prospect. (International)

Gasoline, Sales Taxes Being Divided in Ohio

COLUMBUS (U-P)—Cities, counties and townships in Ohio will share \$2,852,185 in gasoline tax funds and \$1,997,294 in sales tax money this week, State Auditor James A. Rhodes reports.

Each county will receive about \$20,000 and each township about \$800 in gasoline tax money, Rhodes said. He gave no breakdown of sales tax distribution. Gas tax money is used for street purposes and sales tax funds for general operating expenses.

Springfield Span Falls

SPRINGFIELD (U-P) — A 90-foot steel bridge, reported by engineers to be structurally sound just a few months ago, collapsed Sunday and plunged 18 feet into Buck Creek. No one was hurt.

'Higher Education' Week Is Proclaimed

COLUMBUS (U-P) — Gov. C. William O'Neill has proclaimed this week as "Higher Education Week in Ohio" as part of the national observance of American Education Week.

"All of the citizens of Ohio have an important stake in the future of higher education and therefore should be well informed concerning the problems and opportunities of our colleges and universities," O'Neill said.

Children's Interpretations Can Be Startling to Teacher

Editor's Note: The following article was written by Mildred S. Fenner, editor of the National Education Assn.

By MILDRED S. FENNER
(For Jane Eads)

Miss Pratt's shoes look too tight. Mr. Kingsley talks too much. Mrs. Morrison smiles the nicest of anybody. And so on for 997 other items of similarly world-shaking importance.

From now until June, nearly 40 million school boys and girls will be bringing home accounts of their teachers and of what happened at school. News will be flowing in the opposite direction, too. Teacher has probably already been told what daddy said about grandmother's visit, how mother says they can't afford the baby but they're getting it anyway, the reason the TV set is broken.

The more experience she's had with children, the less likely the teacher is to take literally these garbled scraps of fact and fiction which Johnny and Susie present in the belief they are reporting with strictest accuracy. She only hopes that you will be as charitable in your interpretation of the revelations the children bring home to you.

When Johnny confides that "My daddy has gotten a raise and he's going to make \$15 a month now," she understands that \$15 (or perhaps \$115) represents the raise and not the salary. She hopes you'll give her the benefit of a doubt if, for example, your kindergarten reports that "Miss Blake says she's sick of our class."

One father did give Miss Blake the benefit of a doubt and was glad he had when he learned Miss Blake had actually said she was homesick for the class over the weekend.

Recently I asked 6-year-old Pa-

mela down the street the inevitable "How do you like your teacher?"

"All right, but I like the other first-grade teacher better."

"Why?"

"Oh," said Pam. "The other teacher's room is next door to the girls' bathroom."

Pam unwittingly reminded me that children's interpretations can be startling. Fortunately are the parents whose dinner table conversation often centers on school. But as you season your meal tonight, save a grain of salt for the tales you hear!

Opening Night Jitters Told

Ricardo Montalban
Recalls Experience

NEW YORK (AP)—What happens to an actor on opening night of a Broadway show?

Take the case of Ricardo Montalban, who just opened in the calypso caper, "Jamaica." Some of his ordeal is described in his feelings the moment before he went on stage:

"You talk about a man's life flashing before his eyes as he is drowning—that is exactly how I felt. I thought of everything: my mother, my father, my boyhood, dreams I have had.

"I thought what would happen if the play was a flop, how I would have to take my wife and four children back to California. I wondered if my voice would hold up. Then I heard the overture and suddenly I was faced with that terrible moment of having to go on."

Ricardo's ordeal was made worse by a cold he had picked up during the tryout run in Boston. When he arrived at the Imperial theater at noon before opening night, his voice was hoarse. He did a run-through whispering his lines and talking his songs.

Then he went home for a half-hour rest. He was back at the theater at 6:15.

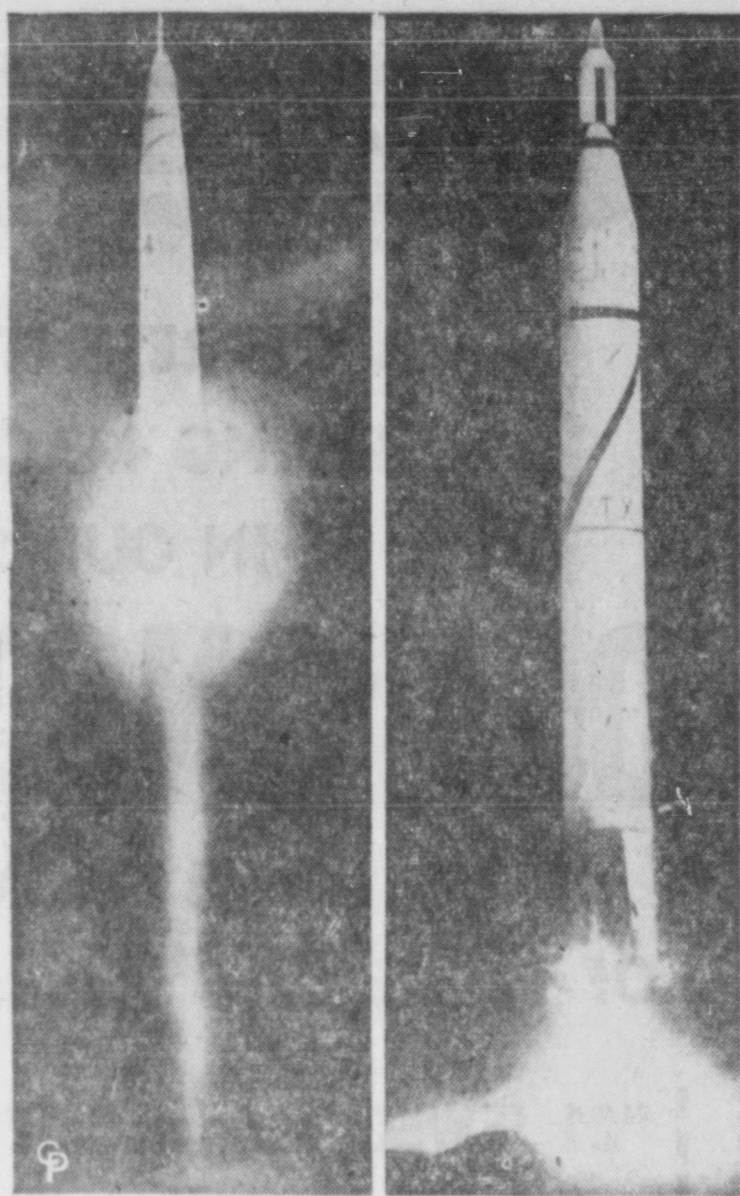

"I always get there early," he explained. "I'm the kind of a guy who sleeps with three alarm clocks. I've always got to be sure I'll be there on time."

He started getting ready for the show at 6:30, aided by a dresser and makeup man.

"Between the acts, I felt terrible," Ricardo said. "I was depressed. I thought I wasn't getting across."

When it was all over the applause at the curtain calls was heartening. Well-wishers jammed into his dressing room to offer congratulations.

Jamaica's slim plot was roundly knocked, but the Harold Arlen music and the jobs by Lena Horne and Ricardo were praised.

MISSILES SOAR SKYWARD—The U. S. Air Force's Thor (left), an intermediate range ballistic missile, soars upwards after leaving its launching pad at the missile test range, Cape Canaveral, Fla. After flying its prescribed course, the Thor landed in the pre-selected impact area. At right, the Army missile, which is externally similar to the Jupiter-C that will be used to launch the United States earth satellite, is shown rising from Cape Canaveral.

McCleery Proven Correct In Daily TV Drama Series

HOLLYWOOD (AP)—Just two years ago this week, most everybody around NBC-TV shook their heads about Albert McCleery and his "experiment."

"Politely," recalls one NBC executive, "we referred to him as an extreme visionary. We really thought he was slightly off his rocker."

In the fall of 1955, McCleery came up with the idea of putting an hour-long drama series on five days a week and in color. It was plainly mass production drama in a medium that had already proved itself the most hearty devourer of talent in showbusiness history.

"We gave him a month at best," says the executive, "and we figured that was a give-away of three weeks."

But NBC Matinee Theater has passed the 500th daytime show and surprisingly set a standard of quality that many a night time drama show could use.

Its audience is estimated by the rating services at around 12 millions daily, making it one of the most successful operations in the network program.

Bulk of the audience is in the

east where it hits about the time the housewives want to take an hour's rest before the kids come home from school.

It comes on at luncheon in Hollywood, where it has an important audience in, of all places, the paneled offices of the movie moguls.

"It's the best screen test in town," says one movie bigwig, "and the cheapest. I can tell whether a new girl will photograph well in color and, more important, I can find out if she can act."

At least two dozen of the younger crop in the movies were discovered by a producer watching TV while eating lunch in his office. Among them are Inger Stevens, Lita Milan and Fay Spain.

No, no one around NBC thinks McCleery crazy any more.

Bladder 'Weakness'

If worried by "Bladder Weakness" (Getting Up Nights or Bed Wetting, too frequent, burning or itching urination) or Strong Smelling, Cloudy Urine, due to common Kidney and Bladder Irritation, try Cystex for quick help. 30 years use prove safety for young and old. Ask drug-gist for Cystex under money-back guarantee. See how fast you improve.

Rocket Scientist Outlines How U. S. Can 'Catch Up'

Editor's Note: Director of the development operations division of the Army's Redstone arsenal, answers questions in the minds of many Americans.

By THE ASSOCIATED PRESS

How can the United States catch up with Russia's lead in the race to space?

In the opinion of Dr. Wernher von Braun, neither a project like the Manhattan, which developed the A-bomb during World War II, nor the release of great sums of money would help much at this stage.

But science could use a great

deal more money in basic research and in some allied fields where there is no current need of a crash program, Dr. von Braun said in an exclusive question and answer article for The Associated Press.

The scientist headed up development of the German V2 rocket which battered London during the war. In recent years, he has been in charge of Army research which has led to the Jupiter-C, designated last week to carry in American satellite into space.

Army scientists have said unofficially that the Jupiter could have a satellite into its orbit before the Russians shot off their first one early in October, had the administration given it permission.

Until last week, getting a satellite aloft has been solely in the sphere of the Navy's Vanguard project.

Answering a question as to whether a Manhattan-type crash program would help overcome Russia's lead, Dr. von Braun said:

"In the missile field . . . we have practically all the facilities we can intelligently use. Several projects are handled by several teams, each of which is in a different geographical location. Any attempt to dislocate or combine these teams must necessarily lead to immediate interruption of the work, with resultant delays."

About more money:

"I believe that, by and large, our five key ballistic missile programs (Jupiter, Thor, Polaris, Atlas and Titan) could not be speeded up appreciably by increases in funds."

"This statement does not apply to many badly neglected fringe areas of our ballistic missile and satellite programs. First and foremost, there is a crying need for more money for basic and applied research in these areas."

"Secondly, while adequate funds are available for the clearly defined missile weapons systems, there is never enough to 'advance the art.' A typical example is that we don't have a real powerful rocket engine today simply be-

cause none of our present crash missile programs needs it. But in order to beat the Russians in the race for outer space we absolutely need it—and the development of such an engine requires several years."

Dr. von Braun made it clear that if the U. S. is to overtake Russia in the satellite and missile fields, there are several things which must be done:

"In the ballistic missile field the United States, about two years ago, embarked on an all-out crash program which will be difficult to substantially accelerate beyond its present pace. In the satellite field, we need a well-planned, long-range national space flight program."

"This program must be backed up by a firm budget which permits its steady prosecution over a period of several years. I think it would be well over five years before we could catch up with the Soviets."

Dr. von Braun was asked about the training programs for scientists in Russia and the United States, and said:

"I believe that the professional quality of a young American physicist or engineer, fresh from the university, is at least as high as that of his Russian counterpart. But we do not provide sufficient opportunity for these young scientists and engineers to accrue a sufficient number of consecutive years in missile development to adequately enhance their practical experience."

Explaining why the U. S. trails Russia, Dr. von Braun said: "There was no ballistic missile development program in the United States between 1945 and 1951 because there was no obvious need for it, no interest for it, and no money for it."

Von Braun worked on U. S. missile research from 1945 on. He and 400 colleagues had fled to Bavaria to escape from Russian capture and had given themselves up to American forces.

He now heads 130 former German missile scientists at the Redstone Arsenal.

Von Braun said he thought it

would be possible for the United States to launch a satellite with the military rocket power now available, but that it would be two to three years before a U. S. missile would hit the moon.

Speculating further, he said it would be four to five years before there was a U. S. manned flight to an orbit in space and back to earth again.

It appears, von Braun said, that the Russians have more powerful engines than we do, but that "there are some very large engines under development in the United States." Work on these larger engines, he said, has been supported on a shoestring because it was not considered part of the high-priority missile program.

As to whether Russia had scored a breakthrough in the development of a super fuel, von Braun said:

"We have several rather powerful propellant combinations in this country also. But we prefer not to use them in our ballistic missiles because of poor handling characteristics. In military weapons systems propellant handling problems are a major consideration."

"It is entirely possible that the Russians decided to use such a super-fuel in order to step up the otherwise lower payload-carrying capacity of their satellite rocket."

"—And Clance, the rugs wuz filthy. I hope they never invite me again—"

Ohio Dems Set Up New Aid Group

COLUMBUS, Ohio (AP)—A Democratic Advisory Committee has been formed to encourage candidates to run for office on the party's ticket in the 1958 state election, William L. Coleman, Democratic state chairman, announced.

Coleman said Saturday, "The advisory committee will not endorse candidates nor will it make any attempt to prevent any potential candidates from entering the primaries."

Murray D. Lincoln, president of Nationwide Insurance Companies of Columbus, was named temporary chairman of the committee by Coleman.

Other committee members were listed as:

Lockwood Thompson of Cleveland, John A. Wiethe of Cincinnati, Hamilton County chairman; George D. Nye of Waverly, former lieutenant governor; Rep. Frances McGovern (D-Summit); Senate Minority Leader Joseph W. Bartunek (Cuyahoga).

Dwight Wise, Fremont farmer and chairman of the Democratic Farm Committee; A. B. Flusk of Youngstown, state central committeeman; John P. Kelly, Lucas County chairman; John L. Francis, Columbus attorney.

Coleman said he will be an ex-officio member along with Albert A. Horstman of Dayton, national committeeman; Mrs. Helen Gunsett of Van Wert, national committeewoman, and Harry R. Meredith, chairman of the Democratic State Central Committee.

Browns Proving They Can Win Without Otto

Tom O'Connell Making Clevelanders Forget About Great Graham

By THE ASSOCIATED PRESS
Otto Graham! Who he? The Cleveland Browns, who bristled with an aura of invincibility while Uncle Otto was lofting TD passes, were supposed to turn into the National Football League's patsies when he made his second "retirement" permanent at the close of the 1955 season.

But Coach Paul Brown went the prognosticators one better and installed the veteran George Ratterman at the helm. He filled in ably until a knee injury signaled an end to his career.

A dejected Brown put out a call for available talent and Tommy O'Connell, former Illinois great, answered it.

It's been O'Connell in the quarterback slot since late 1956 and he's beginning to make them forget the fabulous Graham.

O'Connell tossed two touchdowns Sunday as the Browns maintained their hold on the Eastern Division lead with a 24-0 victory over Pittsburgh's Steelers.

This, coupled with San Francisco's 37-24 loss to the Los Angeles Rams left the Browns with the best mark in the league, 6-1.

Despite their loss, the 49ers continued to pace the Western Conference with a 5-2 record, one hop ahead of Baltimore and Detroit at 4-3.

The Colts remained in contention with a 21-17 victory over Washington and the Lions dropped Philadelphia 27-16. In the East, Giants (5-2) stayed right behind the Browns by defeating Chicago's Cardinals, 27-14.

In the other game on the full program, Chicago's Bears beat Green Bay, 21-14.

Lou Groza opened the Cleveland scoring with a 34-yard field goal, his eighth this season. Then O'Connell took over. He completed 7 of 11 passes for 156 yards and touchdowns to Ray Renfro and Preston Carpenter.

Ten-year veteran Bobby Layne, his injured ribs strapped with tape, came off the bench to win it for the Browns. He threw three scoring passes, kicked two field goals and added a trio of conversions. The Eagles were leading 3-0 when Layne pulled himself together. At one point in the second quarter, Layne completed six in a row, every other one a TD.

And coach Buddy Parker of the Pittsburgh Steelers believes the Browns will win the eastern division of the National Football League.

Parker, who left the Detroit Lions just before the season opened to assume the Steeler helm, said after the contest:

"I believe the Browns will go right ahead and win it all."

Brown said he wasn't looking any further than next Sunday's game at Washington, but that he was "happy with our defensive team. It really is a snootful."

Although Earl Morrall completed 15 of 33 passes for 193 yards, the defensive team kept the Steelers away from the goal line, intercepted two passes in crucial spots and grabbed two fumbles. Defensive back Don Paul converted one fumble into an 89-yard run for Cleveland's final score.

Tommy O'Connell, the not-too-big quarterback of the Browns, did a fine job, Brown said. The former Illinois star completed seven of 11 passes for 156 yards and two touchdowns.

The Cleveland coach also had high praise for Morrall, the former Michigan State star who had piloted Pittsburgh to four wins in six starts up to Sunday.

"We kept a lot of pressure on Morrall, but he still completed a lot of passes," Brown said. "He could be a lot better with more help from up front, but he gets a pretty good job done anyway."

Lou Groza, the sterling placekicker, actually won the game in the opening period with a 34-yard placekick—his eighth in 12 tries this season. It came just after O'Connell had hit Ray Renfro with a 36-yard pass. Groza also booted the conversions after all three touchdowns, for a 14 of 14 record this year. His 38 points lead the Browns.

The Browns scored in each quarter, getting Groza's placekick in the first and a touchdown in each of the others. Cleveland's second win over Pittsburgh—the other was a 23-12 effort Oct. 5—practically wrecked any title hopes the Steelers entertained as it dropped their record to 4-3.

O'Connell hit speedy Renfro, who was behind the Pittsburgh secondary all day, with a 49-yard

WHS Lion Team Play Paid Off at Circleville

The Washington C. H. High School coaching staff went over the motion pictures of the game the Lions won, 25 to 20, at Circleville Friday night as they sought to map out the strategy for the final game of the season with Wilington's Hurricane here next Friday night.

They gave the movies a quick look Saturday and then a more careful one Sunday. Coach

Warriors Succumb To Adams Cagers

Madison Mills' Warriors succumbed to the sharp-shooting of the boys from Adams High School, 55 to 45, in a game played on the Warriors' "home" floor at Bloomington Saturday night.

The Warriors set up a zone defense, but when their guests kept hitting with the long ones, they shifted to a man-to-man—but too late to stem the relentless pressure of the Adams offense.

Bell, with 13 points, and Ford, with 12, led the Madison Mills offense although all six Warriors sent into the game by Coach Tolman Mills shared in the scoring.

Inability to control the backboards in the early stages of the game was the downfall of the Warriors.

Madison Mills won the nip and tuck preliminary game, 33 to 30, between the reserve teams of the two schools.

The Warriors won't take the floor again until Nov. 21 when they go to Kingston. The following day, they will go to South Salem to take on the Bucksin basketballers.

Chardon Father To Be 'OSU Dad'

COLUMBUS (AP)—Carl Hummel of Chardon, a 43-year-old father of six, has been named Ohio State University "Dad of Dads."

He will be guest of honor at the school's Dad's Day Saturday, and receive a plaque at halftime during the Ohio State-Iowa football game.

Hummel, whose eldest son, Thomas C., is a freshman in mechanical engineering at OSU, was selected by William A. Gibeaut, chairman of the Dad's Day Committee. Gibeaut, while blindfolded, selected a county, then drew a card from a file containing names of all students from the county.

scoring pass on the first play of the second quarter, ending a three-play 58-yard surge.

The Browns took the second half kickoff on an 81-yard six-play journey to the end zone, with O'Connell passing 13 yards to Preston Carpenter for the payoff.

Paul's fourth-period run with Billy Wells fumble—after Hugh Lenny Ford, Cleveland defensive end, had knocked the ball loose—would it up.

Bloomington Wins, 64-48, At Clarksburg

Bloomington's Bulldog cagers jumped out into a quick 11-9 lead in their game at Clarksburg Saturday night and never relinquished it as they went onto win the varsity game by a convincing score of 64 to 48.

The Bulldogs had the range of the baskets, hitting 37 per cent of their shots from the floor and connecting with 14 of 26 from the foul line. Coach Everett Rudolph commented after the game with a note of joy that "the shooting power of the young replacements is beginning to show up now."

Riley came through with 13 points although he sat out most of the third period and went out on fouls in the fourth.

Despite a height disadvantage—three of the Clarksburg boys were over 6 feet tall—the Bulldogs had little trouble hitting the hoops from just about any distance and any angle.

The Hidy boys paced the Bloomington attack with J. Hidy getting 20 points and D. Hidy 17. Each collected 8 field goals.

The Bulldogs will play their next game Nov. 12 at Bowersville.

The Clarksburg reserves won the preliminary, 38 to 29. This was the first defeat in three games for the Bloomington boys.

Only 23 Grid Teams Retain Perfect States

NEW YORK (AP)—Seven college football teams fell from the perfect record class over the weekend, chopping the unbeaten, untied list to 23 including just four major schools.

Among the major ranks, Texas A&M leads the quartet with eight straight victories while Oklahoma, Auburn, and Arizona State of Tempe have seven in a row.

When Spring Comes, Hogan Will Be Ready To Play Golf

FORT WORTH, Tex. (AP)—Like a baseball player, the first breath of spring will have Ben Hogan itching for golf. That's when the little man of some of the game's greatest moments will start tuning up for another try at a fifth National Open championship.

But tournament golf is far from Hogan's mind these days as he operates his golf club factory. They're swamped with orders.

"I have been so busy I couldn't even go over and watch the boys in tournaments around here, for instance, the Dallas Open," he said. "I've only played six rounds since just before the last Open. Day before yesterday I got in 13 holes at Rivercrest here—a business round."

The directors of his company were holding a meeting. Hogan said it wasn't that he wouldn't like to play all the time but the days of the tournament tour are over as he devotes his time to becoming a business tycoon.

He'll follow the same schedule he started in 1950—playing in a few select tournaments a year. Now it's only four.

Hogan goes to Florida in February to spend a month, playing in the 'emulino pro-amateur in March to get his game tuned up for another Masters at Augusta, Ga., in April. Then he'll come

Major FOOTBALL This Week

Games are for Saturday, Nov. 16, 1957, unless marked (F)—Friday.

Table with 4 columns: Home Team, 1956 Score, Away Team, 1956 Score. Rows for various football games including Ivy League, Southern Conference, Southwest, Rocky Mountains, Pacific Coast, and Intersectional.

Late Scoring Is Indication Of Much Halftime Oratory

NEW YORK (AP)—From a distance it looks as though there was a great deal of halftime oratory among the collegiate coaching class Saturday. Either that, or touchdowns were just fashionably late in coming.

At any rate, some second halves were real pips. Tops among the major games was the 35-point second half Wisconsin poured on while running up a 41-12 score on Northwestern.

Oklahoma (you remember those pop-sub-pa Sooners), added to the Missouri misery with a 16-point spurt in the last two periods of that 39-14 decision. And Clemson, which never had beaten Maryland, jammed all its scoring into the second half for a 26-7 job on the Terps.

Auburn, the defense club that has a tough time locating its offense at times, found it in the second half, coming from behind to check all that bowl nonsense by Mississippi State 15-7.

Penn's polite Quakers curtsied as Yale took a lead, then invoked a blue law, scoring 20 in the second half for a 26-7 job on the Terps.

There were clubs who got the job quickly of course. Iowa & M played it cool, settling the 19-6 decision over SMU with 13 in the second half. UCLA also counted 13 after the bands got off the field, coming from behind for a 19-13 victory over Southern Cal.

Princeton jammed 14 points into the last 7½ minutes, beating Harvard 28-20. Michigan State scored 27 in the third and fourth quarters of that 34-6 job on Notre Dame. Kansas scored 'em all in the second half while beating Kansas State 13-7.

Some of those TDs were late, late shows. UCLA scored its last 40 seconds left. Kansas shaded it even closer, clicking with 18 seconds remaining.

Oklahoma coach Bud Wilkinson is the latest to learn the first 100 are the toughest. That breeze against Mizzou was his 101st victory.

Pro Grid Turnout Hits Record High

PHILADELPHIA (AP)—Pro football attendance reached an all-time high in the National Football League Sunday with an unofficial estimate for all six games of 312,131 persons.

This "undoubtedly" is an all-time high for the NFL, Commissioner Bert Bell said.

Another record also probably was set—paid attendance for a single game. The Los Angeles Rams-San Francisco 49ers game at Memorial Coliseum in Los Angeles drew an estimated total crowd of 102,368.

The paid attendance probably won't hit the 100,000 mark, a spokesman said, because 7,500 boys were guests of the Rams.

Ohio State, Iowa To Settle Big Ten Rose Fuss Saturday

By THE ASSOCIATED PRESS
Ohio State and Iowa will settle the Big Ten football championship at Columbus Saturday while Michigan State pits its flickering Rose Bowl hopes against Minnesota.

An Ohio State victory over Iowa would settle everything—title and Rose Bowl bid. Should the Buckeyes lose and Michigan State defeat Minnesota, Ohio State would then have to defeat Michigan in its final game to gain a trip to Pasadena.

Michigan State's only hope is to beat Minnesota and have Ohio State lose to both Iowa and Michigan. Iowa is in line only for the title since the Hawkeyes are ineligible for the Rose Bowl.

The Buckeyes gained their favorable position by defeating Purdue, 20-7, Saturday. Iowa cooked Minnesota, 44-20, Illinois knocked Michigan out of the bowl picture with a 20-19 upset and Wisconsin kayoed Northwestern, 41-12. In non-conference games, Michigan State rolled past Notre Dame, 34-6, and Indiana fell before Cincinnati, 21-0.

A full conference schedule is on tap this week. Aside from the Iowa at Ohio State game, Minnesota (3-3) is at Michigan State (4-1), Illinois (2-3) invades Wisconsin (2-3), Indiana (0-4) battles Michigan (2-2) at Ann Arbor and Northwestern (0-5) is at Purdue (2-3). In other games, Notre Dame is at Oklahoma and Marquette journeys to Boston College.

Ohio State has a perfect conference record of five victories and no defeats while Iowa has a 4-0 record which includes its 21-2 tie with Michigan.

The only blotch on the Ohio State record is an 18-14 opening loss to Texas Christian. Since then Ohio State has banged past Washington, 35-7; Illinois 21-7; Indiana 56-0; Wisconsin 16-13; Northwestern 47-6, and the 20-7 triumph over Purdue.

Iowa opened by swamping Utah State 70-14, clipped Washington State 20-13; Indiana 47-7; Wisconsin 21-7; Northwestern 6-0; tied Michigan and humiliated Minnesota last Saturday.

Both teams depend heavily on their front lines and the Buckeyes, who play possession ball stay on the ground might have trouble picking up yardage

against the tough Hawkeye forward wall.
However, Ohio State proved against Purdue that it also has a stout defense. The Boilermakers kept pounding at the Ohio State goal throughout the second half but were able to score only once.

Both teams will probably be in top physical condition. Ohio State halfback Don Clark, the Big Ten's leading ground gainer, was injured against Purdue but Coach Woody Hayes said Clark will probably be ready for the big game.

Table with 4 columns: Team, W, L, T, Pts. OP. Rows for Big Ten Standings: Ohio State, Iowa, Michigan, Minnesota, Wisconsin, Illinois, Purdue, Indiana, and Northwestern.

Neil Johnston Keeps Warriors Up

NEW YORK (AP)—As long as Neil Johnston, of Chillicothe, Ohio, retains his scoring touch, the Philadelphia Warriors will continue to make their presence felt in National Basketball Assn. circles.

The lanky 6-8 center, in his seventh year in the league, found the range for 34 points as the Warriors outlasted the Cincinnati Royals 106-101 Sunday night in the only game played. It was Cincinnati's fourth straight setback.

The Warriors, in second place in the Eastern Division have won five of eight starts and are three games behind unbeaten Boston.

Basketball Scores

Browns Proving They Can Win Without Otto

Tom O'Connell Making Clevelanders Forget About Great Graham

By THE ASSOCIATED PRESS
Otto Graham! Who he? The Cleveland Browns, who bristled with an aura of invincibility while Uncle Otto was lofting TD passes, were supposed to turn into the National Football League's patsies when he made his second "retirement" permanent at the close of the 1955 season.

But Coach Paul Brown went the prognosticators one better and installed the veteran George Ratterman at the helm. He filled in ably until a knee injury signaled an end to his career.

A dejected Brown put out a call for available talent and Tommy O'Connell, former Illinois great, answered it.

It's been O'Connell in the quarterback slot since late 1956 and he's beginning to make them forget the fabulous Graham.

O'Connell tossed two touchdown passes Sunday as the Browns maintained their hold on the Eastern Division lead with a 24-0 victory over Pittsburgh's Steelers.

This, coupled with San Francisco's 37-24 loss to the Los Angeles Rams left the Browns with the best mark in the league, 6-1.

Despite their loss, the 49ers continued to pace the Western Conference with a 5-2 record, one hop ahead of Baltimore and Detroit at 4-3.

The Colts remained in contention with a 21-17 victory over Washington and the Lions dropped Philadelphia 27-16. In the East, Giants (5-2) stayed right behind the Browns by defeating Chicago's Cardinals, 27-14.

In the other game on the full program, Chicago's Bears beat Green Bay, 21-14.

Lou Groza opened the Cleveland scoring with a 34-yard field goal, his eighth this season. Then O'Connell took over. He completed 7 of 11 passes for 156 yards and touchdowns to Ray Renfro and Preston Carpenter.

Ten-year veteran Bobby Layne, his injured ribs strapped with tape, came off the bench to win it for the Browns. He threw three scoring passes, kicked two field goals and added a trio of conversions. The Eagles were leading 3-0 when Layne pulled himself together. At one point in the second quarter, Layne completed six in a row, every other one a TD.

And coach Buddy Parker of the Pittsburgh Steelers believes the Browns will win the eastern division of the National Football League.

Parker, who left the Detroit Lions just before the season opened to assume the Steelers helm, said after the contest:

"I believe the Browns will go right ahead and win it all."

Brown said he wasn't looking any further than next Sunday's game at Washington, but that he was "happy with our defensive team. It really is a snootful."

Although Earl Morrall completed 15 of 33 passes for 193 yards, the defensive team kept the Steelers away from the goal line, intercepted two passes in crucial spots and grabbed two fumbles. Defensive halfback Don Paul converted one fumble into an 89-yard run for Cleveland's final score.

Tommy O'Connell, the not-too-big quarterback of the Browns, did a fine job, Brown said. The former Illinois star completed seven of 11 passes for 156 yards and two touchdowns.

The Cleveland coach also had high praise for Morrall, the former Michigan State star who had piloted Pittsburgh to four wins in six starts up to Sunday.

"We kept a lot of pressure on Morrall, but he still completed a lot of passes," Brown said. "He could be a lot better with more help from up front, but he gets a pretty good job done anyway."

Lou Groza, the sterling placekicker, actually won the game in the opening period with a 34-yard placekick—his eighth in 12 tries this season. It came just after O'Connell had hit Ray Renfro with a 36-yard pass. Groza also booted the conversions after all three touchdowns, for a 14 of 14 record this year. His 38 points lead the Browns.

The Browns scored in each quarter, getting Groza's placekick in the first and a touchdown in each of the others. Cleveland's second win over Pittsburgh—the other was a 23-12 effort Oct. 5—practically wrecked any title hopes the Steelers entertained as it dropped their record to 4-3.

O'Connell hit speedy Renfro, who was behind the Pittsburgh secondary all day, with a 49-yard

Only 23 Grid Teams Retain Perfect Status

NEW YORK (AP)—Seven college football teams fell from the perfect record class over the week-end, chopping the unbeaten, untied list to 23 including just four major schools.

Among the major ranks, Texas A&M leads the quartet with eight straight victories while Oklahoma, Auburn, and Arizona State of Tempe have seven in a row.

With McLean at fullback, and two lightweight speed boys, Bill Herman, 145-pound senior, and Kenny Evans, 140-pound senior, at the halfback spots, the Lions kept the Circleville defense off balance with a diversified attack.

TAKING advantage of the slick ball-handling of the alternating quarterbacks, Chuck Hire and Buddy Lynch, McLean slashed up the middle through the holes opened in the Circleville line and then, when the Tigers bunched their defenses to stop him, Herman and Evans circled the ends on wide sweeps behind effective downfield blocking by the linemen, who got their first block in the scrimmage and then went on to get a second one in the secondary.

Coach Domenico said it was this co-ordinate team play that, piled up more yardage for the Lions than the 25-20 score indicates. It is against this background that the WHS coaching staff is now revamping its strategy for the Wilmington game here Friday night. Domenico said "we'll have to make some changes," because the Wilmington scouts undoubtedly have detailed diagrams of both the offense and defense used by the Lions at Circleville.

Texas A&M Utilizes Few Players on Field
COLLEGE STATION, Tex. (AP)—Texas A&M, the nation's No. 1 team, sped through its eighth straight victory Saturday with 10 boys getting in 40 to 50 minutes duty apiece, as usual.

You have to be tough to wear the moleskins of Aggie land. Never more than 28 players get into a game and 13 of those do about 90 per cent of the playing.

He'll follow the same schedule he started in 1950—playing in a few select tournaments a year. Now it's only four.

Hogan goes to Florida in February to spend a month, playing in the feminine pro-amateur in March to get his game tuned up for another Masters at Augusta, Ga., in April. Then he'll come

back here to play in the Colonial National Invitation in May. Next will be the Open, which he hopes to win again so he will be the only player to take this world series of golf five times.

Ben won the open in 1948, 1950, 1951 and 1953. Last year he tied for second. This year he was stricken with pleurisy the first day of the tournament and couldn't start. "It was only a temporary situation," Hogan said. "I soon recovered and have no trouble from it now."

Hogan, 45, says he'll go on with his limited tournament schedule "just as long as I can keep going" but realizes it's difficult to prepare for a big tournament like the Open with such little practice. He doesn't intend to ever work as hard for a tournament as he did for the 1955 Open which he lost in a playoff with Jack Fleck. He couldn't do that and operate his factory, where some 100 people are fashioning Ben Hogan clubs.

SALE will be held on the Fred Klages Farm, located 12 miles southwest of Washington C. H., Ohio, six miles southeast of Sabina, three and one-half miles northeast of Leesburg, on the Stafford Road. (Follow arrows off U. S. Highway 62.)

43—HEREFORD CATTLE—43
Twenty-one Hereford cows, with calves by side. All these cows are rebred to a registered Hereford bull and calves range in size from 400 to 600 lbs. Guernsey bred heifer. Bang's tested.

183—HOGS—183
Ninety-eight Hampshire-Poland China feeding shoats, average weight 150 lbs.; 11 Hampshire-Poland China sows, with 69 pigs by side; four Hampshire-Poland China sows, to farrow by day of sale; Hampshire male hog, two years old.

FARM MACHINERY
Farmall Row-Crop tractor, on steel, in perfect condition, just recently overhauled; Case one-row pull-type corn picker; rotary hoe; cultipacker; IHC disc; Massey-Harris plow; side delivery rake; 32-ft. grain elevator; 12-7 wheat drill; IHC corn planter; rubber-tired wagon; and other items too numerous to mention.

FEEDS
4,000 bushels ear corn in crib; 840 bales mixed hay; 50 bales alfalfa hay; 100 bales straw.

Late Scoring Is Indication Of Much Halftime Oratory

NEW YORK (AP)—From a distance it looks as though there was a great deal of halftime oratory among the collegiate coaching clan Saturday. Either that, or touchdowns were just fashionably late in coming.

At any rate, some second halves were real pips. Tops among the major games was the 35-point second half Wisconsin poured on while running up a 41-12 score on Northwestern.

Oklahoma (you remember those sub-par Sooners), added to the Missouri misery with a 16-point spurt in the last two periods of that 39-14 decision. And Clemson, which never had beaten Maryland, jammed all its scoring into the second half for a 26-7 job on the Terps.

Auburn, the defense club that has a tough time locating its offense at times, found it in the second half, coming from behind to check all that bowl nonsense by Mississippi State 15-7.

Penn's polite Quakers curtsied as Yale took a lead, then invoked a blue law, scoring 20 in the second half.

There were clubs who got the job quickly of course. Iowa, with no hankering for another "tie-or-win" decision in the final minutes, rammed across 23 points in the second quarter of that 44-20 rout of Minnesota. Oregon State had 21 points at the half and a 21-19 decision at the finish. Ohio State played it that way, too, leading 20-0 at halftime, and winning 20-0 over Purdue.

Oklahoma coach Bud Wilkinson is the latest to learn the first 100 are the toughest. That breeze against Mizzou was his 101st victory.

Pro Grid Turnout Hits Record High
PHILADELPHIA (AP)—Pro football attendance reached an all-time high in the National Football League Sunday with an unofficial estimate for all six games of 312,131 persons.

This "undoubtedly" is an all-time high for the NFL, Commissioner Bert Bell said.

Another record also probably was set — paid attendance for a single game. The Los Angeles Rams-San Francisco 49ers game at Memorial Coliseum in Los Angeles drew an estimated total crowd of 102,368.

The paid attendance probably won't hit the 100,000 mark, a spokesman said, because 7,500 boys were guests of the Rams.

Ohio State, Iowa To Settle Big Ten Rose Fuss Saturday

By THE ASSOCIATED PRESS
Ohio State and Iowa will settle the Big Ten football championship at Columbus Saturday while Michigan State pits its flickering Rose Bowl hopes against Minnesota.

An Ohio State victory over Iowa would settle everything — title and Rose Bowl bid. Should the Buckeyes lose and Michigan State defeat Minnesota, Ohio State would then have to defeat Michigan in its final game to gain a trip to Pasadena.

Michigan State's only hope is to beat Minnesota and have Ohio State lose to both Iowa and Michigan. Iowa is in line only for the title since the Hawkeyes are ineligible for the Rose Bowl.

The Buckeyes gained their favorable position by defeating Purdue, 20-7, Saturday. Iowa conked Minnesota, 44-20, Illinois knocked Michigan out of the bowl picture with a 20-19 upset and Wisconsin kayoed Northwestern, 41-12. In non-conference games, Michigan State rolled past Notre Dame, 34-6, and Indiana fell before Cincinnati, 21-0.

A full conference schedule is on tap this week. Aside from the Iowa at Ohio State game, Minnesota (3-3) is at Michigan State (4-1), Illinois (2-3) invades Wisconsin (2-3), Indiana (0-4) battles Michigan (2-1) at Ann Arbor and Northwestern (0-5) is at Purdue (2-3). In other games, Notre Dame is at Oklahoma and Marquette journeys to Boston College.

Ohio State has a perfect conference record of five victories and no defeats while Iowa has a 4-0-1 record which includes its 21-21 tie with Michigan.

The only blotch on the Ohio State record is an 18-14 opening loss to Texas Christian. Since then Ohio State has banged past Washington, 35-7; Illinois 21-7; Indiana 56-9; Wisconsin 16-13; Northwestern 47-6, and the 20-7 triumph over Purdue.

Iowa opened by swamping Utah State 70-14, clipped Washington State 20-13; Indiana 47-7; Wisconsin 21-7; Northwestern 6-0; tied Michigan and humiliated Minnesota last Saturday.

Both teams depend heavily on their front lines and the Buckeyes, who play possession ball stay on the ground might have trouble picking up yardage

Today's Schedule

Ike To Get Report Today On His Health

WASHINGTON (P) —President Eisenhower gets a doctors' report today on the state of his health a year after election to a second term.

The President, who has called it a year of constant dealing with crises, entered Walter Reed Army Hospital Sunday for his first head-to-toe physical examination in more than 12 months.

The White House called the examination routine, an annual precaution. Eisenhower arranged to check out his third-floor hospital suite before nightfall. The substance of the report he receives from his physicians probably will be made public.

This is the first time since the President's heart attack in September 1955 that anywhere near as much as a year has elapsed between his full-scale medical checkups. He had three last year, and his last complete examination was Oct. 27-28, 1956. The doctors reported then he gave "every appearance of being in excellent health."

Since then he has gone to the hospital twice for brief examinations of the heart and lungs.

This latest examination comes as he faces a new speedup in a working pace already at a more taxing clip than at any time since his heart attack.

Expense Item Policy Told by Tax Agency

WASHINGTON (P) —The Internal Revenue Service says it will handle expense account items on the great bulk of 1957 income tax returns just as it has handled those in past years.

It didn't say that those who have neglected to list such items in the past can continue to ignore them safely. The law has required since 1921 that they be listed.

But the service and the Treasury Department said in a joint statement: "No more detailed records will be required for 1957 than have been needed in the past. In fact, the instructions on expense accounts for 1957 are identical with those issued in 1954, 1955 and 1956."

The law requires anyone on expense account to list his reimbursement as income and to itemize the expenses for which he was paid, but for 36 years the fellow with a small expense account has paid little attention to the requirement.

And the revenue service itself usually hasn't bothered to check. But the word went out last week that closer scrutiny would be given to expense accounts this year, especially those which count up to sizeable figures.

BRITISH SUBJECT — In London the subject is changed from dognik to rhinoceros as Britons view the first rhino born in the land, at Wipsnade zoo. She's 22 inches long, weighs a bouncing 85 pounds. Mama back there is Mohini, papa is Mohan, both from Assam in India. (International Soundphoto)

Americana in 1900-1917 To Be Recalled on TV Show

NEW YORK (P) —The story of American life between 1900 and 1917 from films made in those years will be a fascinating hour of TV entertainment on Nov. 21 (at 10 p. m. EST) when "Project 20" presents "The Innocent Years" on NBC-TV.

"At first, to find the film sounded like that proverbial blank wall detectives run into on murder cases," says Daniel Jones, chief film researcher for the "Project 20" staff under Henry Salomon.

The film sleuths turned up extraordinary films of President McKinley's funeral, of Mark Twain at home, of immigrants arriving at Ellis Island. Thanks to their discoveries you will see Coney Island and horse-drawn fire engines racing to a fire, Teddy Roosevelt and President Taft.

How was this absorbing history on film recovered?

"In museums and the Library of Congress," says Daniel Jones, film researcher. "In old laboratories and attics, by reading old trade magazines and talking to old men in the business with phenomenal memories. Above all, I guess, by following your nose in old vaults and learning that the stuff that stunk worst was the best for our project."

By that he meant that the film made at the time was the so-called "nitrate" film which smells like phosgene gas as it ages. Unlike the present, safety film, it spoiled easily—decomposed and then exploded. There were some terrible film fires in the old days because, as Jones put it, "nitrate film is merely gunpowder rolled flat."

Another problem for early film makers was that before 1911 the copyright laws did not specifically refer to motion pictures. Those film makers who wanted copyrights printed their film on ribbons of paper and sent them to the copyright office.

Jones tracked down many of these paper ribbons. By extremely careful handling it was possible to make some negatives from the paper prints—and so he had some new footage of "the real thing" for "The Innocent Years." Equally difficult, intricate and expensive work was necessary to obtain useable footage from the nitrate film.

Jones discovered, from studying the film, one of its significant and interesting characteristics.

"The energy of the people in those days was extraordinary," he says. "It's there on film. Not just because the film moved faster in that period. You can show it down and still see the vigorous movements of the people, the vitality and energy. It's something you can't read in books or see in photographs."

"The excitement at parades, the way a working man swung his dinner pail and was proud of it, the way the rich displayed their wealth and were proud of it."

Indeed the age is there—and well worth seeing on television.

This was one conclusion in a study by the U. S. Office of Education on Russian education.

U. S. Education Commissioner Lawrence G. Dertlich said it is clear Russian education is "making an increasing contribution to the Soviet objectives, particularly in science and technology."

The report said that enrollment in Russian institutions of higher education rose from 169,000 in 1927 to 1,867,000 last year. In the United States, it said, enrollment in comparable institutions increased from 1,114,000 to 2,996,000.

By the time Russian students have completed 10 years of primary and secondary schooling, they have received 1,353 hours of classroom and laboratory instruction in science.

The report's main point was that Russia educates its children for the good of the state while schooling in the United States aims at developing the individual.

Some Adults Irk Cary Grant

Elderly Autograph Fans Labeled 'Pests, Idiots'

HOLLYWOOD (P) —Cary Grant, calls all adult autograph hunters "pests, idiots and monsters."

"What are they doing with their time?" he asks. "It's getting so fans judge us on our penmanship rather than our talent. How much nicer if they would just come up to you and say: 'We liked you in such and such a picture,' or even if they said: 'You stunk in such and such a picture.'"

"Then there's the guy who busts in while you're eating dinner at a restaurant. While your steak cools, he says: 'I'm from Detroit.' 'I always answer: 'I'm from Bristol. What the hell's the difference?'"

Recently, when Cary was on location in Washington, D. C., for the movie "Houseboat," a group of children came on the set with autograph books. A publicity man, knowing Cary's attitude, shooed them off.

When Cary heard about it, he had his valet collect all the books and he spent an hour or so inscribing them. There's a touching reason.

His wife, Betsy Drake, was one of the survivors of the Andrea Doria sinking. The small daughter of one of their friends, a New York Times newsman who perished, was miraculously saved when the bow of the colliding Stockholm snagged her and pulled her out of the Andrea Doria.

In those perilous seconds,

Random Comments

BY RAY BRANDENBURG

Leaf raking is the order of the day. Sometimes if you're patient they will blow over on your neighbor's lawn. We haven't been lucky that way this year.

That flu bug is still flitting around apparently more adults are getting it now. Grandson Mickey had the misfortune to get a broken leg playing football. Leg is in a cast and will be for some time. I told him lucky it wasn't his head that got cracked.

The election is over, congratulations to the winners. I've always said that anyone who didn't exercise his voting privilege had no right to gripe about government.

Hunting season is just around the corner. Those wary pheasants should be getting ready to outsmart the crowds of hunters who will be after them.

Those new 1958 Chevrolet's and Buicks are really wonderful. Come out to Brandenburg's and let us demonstrate.

Concord-Green Fire Brigade Has New Number--It's 5-6631

In Concord and Greene townships it's 5-6631.

That's the new telephone number of the two-township volunteer fire department which this week replaced a number that had been in service several years, department officials announce.

Listed in the new Washington C. H. area telephone directory, the new number was assigned at the time of the linkage of a new fire-reporting system. Telephone company interceptors will continue to divert calls going through the old number, but not for long.

Major change in the new phoning system hasn't gone into operation yet, but it will soon, officials say. The change takes the form of a new unlisted-number telephone system whereby firemen, once they hear the siren may call the department's operations centers and get the location of the fire immediately.

On the unlisted number line, which will be reserved for the use of the firemen, there will be no busy signals. Calls will be hooked directly into the circuit, whether the line is busy or not, and firemen will be able to ask the location of the fire without a wait.

RECEIVING the calls and dispatching the firemen will be the keys to the whole volunteer system--the wives of the three firemen in whose homes the emergency telephone rings.

That part of the system, which has been in operation for some time, will remain as it has been.

It works like this: a call comes in at the homes of Chief Kenneth Bush, fireman J. O. Wilson, and fireman Warren (Shorty) Brannon.

Once one of those three gets a call, their wives go in to action. Each wife has a list of part of the fire department. While the husbands go off to fight the fire, the three wives start calling firemen on their list and giving them the location.

Thus, now, the wives will start calling and firemen who have heard the siren may "call in" and get the call earlier than they might have previously.

ADDED TO THIS, there's another change: switches have now been

Hardy Fish To Get Own Private Pond

PONTELAND, England (AP)—A tenacious tench named Oswald has hit the jackpot. As a reward for staying alive 17 hours out of water, he is going to have his own private pond—with no fishing allowed.

Contractor George Clay, who caught the two-pound fish several weeks ago, is spending \$750 to have the pond built.

Clay snaked Oswald out of a stream at Kidderminster, 270 miles from here. Wrapped in a dry newspaper, the fish made the trip home in the trunk compartment of Clay's car and stayed there overnight.

The next morning Mrs. Clay, knife poised, was about to start carving Oswald into breakfast fillets when he wiggled.

The Clays didn't have the heart to eat the hardy little fellow, so they put him in a bathtub, where he is doing nicely on a diet of grubs and bread crumbs. At first they thought of putting him back in the river, but decided on the pond when their 2-year-old daughter Beverly insisted on keeping him as a pet.

"After all Oswald has been through it wouldn't be right to put him back where he might be caught again," Mrs. Clay told a reporter. "He's getting to be a real family pet now, and I'm sure he knows us. Beverly always kisses him goodnight."

Blessed Events

Mr. and Mrs. Billy Purcell, Route 6, are the parents of a 7-pound, 6-ounce daughter, born in Memorial Hospital at 12:40 p. m. Sunday.

Mr. and Mrs. William Franklin Douglas, South Charleston, are the parents of a 6-pound 12-ounce son, born in Memorial Hospital at 10:00 a. m. Saturday.

Mr. and Mrs. Jesse Persinger, 729 Dayton Ave., are the parents of an 8-p-ounce, 8-ounce daughter, born in Memorial Hospital at 12:07 p. m. Saturday.

Mr. and Mrs. Orville Brown, Jeffersonville, are the parents of a 9-pound, 3-ounce son, born in Memorial Hospital at 3:53 p. m. Saturday.

Flu Loosening Grip on Schools

Attendance Up Since Friday

The flu apparently is loosening its hold on school children and administrators of the county.

Only three Miami Trace schools reported absenteeism above the normal 10 per cent Monday morning, and of those three, two showed better attendance than last Friday and the other had exactly the percentage of absenteeism.

Miami Trace Superintendent Walter W. Boyer said that five teachers were absent from their classes Monday, but only two were flu victims.

Jeffersonville Elementary reported 20.6 per cent of its students out Monday. Last Friday absenteeism was about 25 per cent. Bookwalter had absenteeism of 20.5 Monday with about 25 per cent absent last Friday. Marion school reported 19 per cent of its students absent Monday--the same percentage as were absent Friday.

Absenteeism in the city school system was only 8 per cent Monday, according to Superintendent W. A. Smith. No school in the system had as many out Monday as were absent last Friday. For the first time in many weeks, no city teacher was absent because of illness.

Many Dental Cripples Seen Despite Care

CLEVELAND (AP)—A large proportion of the nation's people are "dental cripples" despite enormous expenditures for dental care, a New York state dental official said today.

"This is the extent of the dental caries (decay) problem," Dr. David B. Ast, director of the Bureau of Dental Health, New York State Department of Health, told the opening session of the American Public Health Assn.'s 85th annual meeting.

He said the American public spent \$1.6 billion in 1955 for dental care.

Tooth decay, he said, "affects practically the entire population, starting early in life, and the annual increments of defects occur at a faster rate than the corrections which can be made by dentists."

He said tooth decay could be reduced materially by cutting down on sweets and by brushing the teeth immediately after eating or drinking, but he declared both those procedures are impractical.

Advocating fluoridation of public drinking water supplies, he said studies of this technique in the United States and Canada have demonstrated its capabilities of reducing tooth decay by 60 pct.

Next Orchestra Rehearsal Dec. 2

Next regular rehearsal for the Washington C. H. and Fayette County community orchestra will be held at 7:30 p. m. Dec. 2 at the home of Mr. and Mrs. John P. Case, 330 Jupiter St. There will be no practice session tonight.

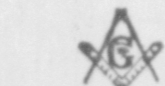

Regular schedule would have called for a rehearsal Monday night, but the orchestra members were out busy last week, playing for the Jeffersonville High School operetta, and the press of coming holiday activities is beginning to be felt, Mrs. Case said.

Karl J. Kay directs the group.

DOG DAYS—The Russians have sent a shaggy dog aloft in Sputnik II, so what's more natural than a curious pup showing up at the Hayden Planetarium in New York, to get latest information about space satellites. Maybe the mutt wanted to hear the "beeps" from his "pal" up above, as heard in a recording in the Planetarium.

Mainly About People

Miss Hattie Pinkerton, helping teacher and attendance officer in Miami Trace School District, has returned to her duties after a two-week illness.

CS-3 Omar E. Brakeall and Mrs. Brakeall, Bainbridge, Md., visited friends and relatives here over the weekend.

Mrs. Roy Sollars is spending several weeks in Hot Springs, Ark., the guest of Mrs. W. A. Miller.

Columbusite To Head Nation's Young Demos

RENO, Nev. (AP)—The nation's Young Democrats ended their convention Sunday with the election of Nelson Lancione of Columbus, Ohio, as new president.

One of several resolutions adopted called for "vigorous enforcement" of laws governing civil rights, saying that racial discrimination is "a disgrace." Chicagoan Richard Crawford, first Negro ever to hold office in the organization, was elected vice president.

New Federal Building Scheduled for Toledo

WASHINGTON (AP)—The General Services Administration says it will undertake immediately the acquisition of a site for a federal building at Toledo.

The project was approved for construction under the GSA lease-purchase program. Estimated cost for the office building is \$4,950,000. GSA said site negotiations for the building would be handled through its Chicago office.

Veterans Day Service Set For 8 P. M.

Veterans Day was observed with quiet dignity here Monday. No special observances are planned in Fayette County except in Washington C. H. where nearly 100 flags fluttered in the breeze along the main streets.

Members of Boy Scout Troop No. 112, sponsored by the American Legion Post, placed the flags early Monday.

Federal state, city and county offices and banking institutions were closed. Municipal Court was in recess.

Limited services were performed by all postoffices. No deliveries on city routes or rural routes were made, although mail was distributed to lobby box holders. There was no window service, but the lobbies were open for the box holder patrons.

Special delivery mail was handled as usual.

ONLY SPECIAL services to be held in the county are scheduled at 8 p. m. Monday near the World War I monument on the Court-house lawn. Members of the Paul H. Hughes post of the American Legion will be in charge of the memorial services and will be assisted by other veteran's organization. Also participating will be members of Company M of the Ohio National Guard and the Washington C. H. High School band.

All those taking part in the ceremony will assemble at the American Legion Hall, N. Fayette St., at 7:30 p. m. Services will last about 10 minutes, according to Legion Commander Norman Boop, after which the participants will return to the Legion Hall.

Election Expense Reports Are Due

Candidates Must File by Dec. 5

Candidates in the Nov. 5 election must file their reports of receipts and expenditures by Dec. 5, the Fayette County Board of Elections pointed out Monday.

State law requires that reports must be filed within 30 days after the election by both successful and losing candidates. Those who fail to file cannot be candidates for public office for at least five years.

Reports are required whether or not the candidate received financial assistance or incurred expenses in his campaign.

The board asks that these reports be made as soon as possible in order to close the books on the November election.

The official board count, which is not expected to make any material changes in the results, will be completed within the next few days.

Two Accident Victims Treated

A man and a girl received emergency treatment at Memorial Hospital Saturday for non-traffic accident injuries.

Carl Arehart of Route 3, Sabina, was treated for face bruises after he was hit in the face with a hammer.

Treated for a cut over her left eye was Ronnie Anderson, 5, daughter of Mr. and Mrs. Marilyn Anderson of 930 Lakeview Ave., who ran into an open car door.

Sputnik-Spotter Hears Voice Call in English

PHILADELPHIA (AP)—A Sputnik-spotter from nearby Bryn Athyn, Kenneth Simons, reported he turned to the satellite's frequency of 20.005 megacycles and heard this message: "Here is Sputnik calling, by courtesy of the Curacao government radio and telegraph administration." Simons said the message, in English, was repeated for ten minutes. Curacao is an island in the Dutch West Indies.

4-H Club Activities

JOLLY JUMPERS

Members of the Jolly Jumper 4-H Club decided to buy a record player for the emergency classes at Central School at a meeting at the home of their leader, Mrs. Harold Moats Saturday.

This record player will be presented to the school at the Central PTA meeting Dec. 4.

It was announced that the club made \$300 on the Christmas candle sale. Each girl received a candle for selling.

Names were drawn for the next meeting which will be the Christmas party to be held Dec. 21.

Farm House Roof Damaged by Fire

Firemen were called about 12:10 p. m. when chimney sparks from a wood fire ignited the roof of the main house on the Harold Penwell farm, Waterloo Rd.

The fire did considerable damage to a portion of the roof, but spread no further. Fire fighters were back in the station by around 1 p. m.

The house, which is covered by insurance, is on a farm owned by Dr. D. R. Junk.

Mercury Hits 19

The weather got a bit cold over the weekend. A new low for this fall recorded Sunday night when the thermometer dropped to 19 degrees. High temperature for Sunday was 43 degrees.

Besides a few radiator freeze-ups and some slow grinding starters Monday morning, no serious damage was reported.

Hearing Scheduled On Liquor Citation

The State Board of Liquor Control will hold a hearing Wednesday on a citation against the Fraternal Order of Eagles, 147 N. Fayette St., alleging sales of intoxicants to non-members.

The local aerie will be present at the hearing, scheduled for 8:30 a. m.

Autos Damaged In Sunday Crash

Damage was moderate in a two-car auto accident on Harrison St. about 4:30 p. m. Sunday — the only mishap reported in the city over the weekend.

Miss Patricia Ann Knedler, 16, of 716 E. Market St., told police she had pulled out of an alley onto Harrison St. a half block north of Elm, when an auto driven by Miss Sandra Sue Stagg, 17, of 119 Newberry St., pulled away from the curb and hit the side of the car.

Miss Stagg told police she didn't see the Knedler car in time to stop. The doors of the Knedler car and the front end of the Stagg auto were damaged.

Only about seven per cent of cyrsters used as food find their way into a can.

Concord-Green Fire Brigade Has New Number--It's 5-6631

In Concord and Greene townships it's 5-6631.

That's the new telephone number of the two-township volunteer fire department which this week replaced a number that had been in service several years, department officials announce.

Listed in the new Washington C. H. area telephone directory, the new number was assigned at the time of the linkage of a new fire-reporting system. Telephone company interceptors will continue to divert calls going through the old number, but not for long.

Major change in the new phone system hasn't gone into operation yet, but it will soon, officials say. The change takes the form of a new unlisted-number telephone system whereby firemen, once they hear the siren may call the department's operations centers and get the location of the fire immediately.

On the unlisted number line, which will be reserved for the use of the firemen, there will be no busy signals. Calls will be hooked directly into the circuit, whether the line is busy or not, and firemen will be able to ask the location of the fire without a wait.

RECEIVING the calls and dispatching the firemen will be the keys to the whole volunteer system—the wives of the three firemen in whose homes the emergency telephone rings.

That part of the system, which has been in operation for some time, will remain as it has been.

It works like this: a call comes in at the homes of Chief Kenneth Bush, fireman J. O. Wilson, and fireman Warren (Shorty) Brannon.

Once one of those three gets a call, their wives go in to action. Each wife has a list of part of the fire department. While the husbands go off to fight the fire, the three wives start calling firemen on their list and giving them the location.

Thus, now, the wives will start calling and firemen who have heard the siren may "call in" and get the call earlier than they might have previously.

ADDED TO THIS, there's another change: switches have now been

Hardy Fish To Get Own Private Pond

PONTELAND, England (AP)—A tenacious tench named Oswald has hit the jackpot. As a reward for staying alive 17 hours out of water, he is going to have his own private pond—with no fishing allowed.

Contractor George Clay, who caught the two-pound fish several weeks ago, is spending \$756 to have the pond built.

Clay snaked Oswald out of a stream at Kidderminster, 270 miles from here. Wrapped in a dry newspaper, the fish made the trip home in the trunk compartment of Clay's car and stayed there overnight.

The next morning Mrs. Clay, knife poised, was about to start carving Oswald into breakfast filets when he wiggled.

The Clays didn't have the heart to eat the hardy little fellow, so they put him in a bathtub, where he is doing nicely on a diet of grubs and bread crumbs. At first they thought of putting him back in the river, but decided on the pond when their 2-year-old daughter Beverley insisted on keeping him as a pet.

"After all Oswald has been through it wouldn't be right to put him back where he might be caught again," Mrs. Clay told a reporter. "He's getting to be a real family pet now, and I'm sure he knows us. Beverley always kisses him goodnight."

Blessed Events

Mr. and Mrs. Billy Purcell, Route 6, are the parents of a 7-pound, 6-ounce daughter, born in Memorial Hospital at 12:40 p. m. Sunday.

Mr. and Mrs. William Franklin Douglas, South Charleston, are the parents of a 6-pound 12-ounce son, born in Memorial Hospital at 10:00 a. m. Saturday.

Mr. and Mrs. Jesse Persinger, 729 Dayton Ave., are the parents of an 8-pound, 8-ounce daughter, born in Memorial Hospital at 12:07 p. m. Saturday.

Mr. and Mrs. Orville Brown, Jeffersonville, are the parents of a 9-pound, 3-ounce son, born in Memorial Hospital at 3:53 p. m. Saturday.

Flu Loosening Grip on Schools

Attendance Up
Since Friday

The flu apparently is loosening its hold on school children and administrators of the county.

Only three Miami Trace schools reported absenteeism above the normal 10 per cent Monday morning, and of those three, two showed better attendance than last Friday and the other had exactly the percentage of absenteeism.

Miami Trace Superintendent Walter W. Boyer said that five teachers were absent from their classes Monday, but only two were flu victims.

Jeffersonville Elementary reported 20.6 per cent of its students out Monday. Last Friday absenteeism was about 25 per cent. Bookwalter had absenteeism of 20.5 Monday with about 25 per cent absent last Friday. Marion school reported 19 per cent of its students absent Monday—the same percentage as were absent Friday.

Absenteeism in the city school system was only 8 per cent Monday, according to Superintendent W. A. Smith. No school in the system had as many out Monday as were absent last Friday. For the first time in many weeks, no city teacher was absent because of illness.

Many Dental Cripples Seen Despite Care

CLEVELAND (AP)—A large proportion of the nation's people are "dental cripples" despite enormous expenditures for dental care, a New York state dental official said today.

"This is the extent of the dental caries (decay) problem," Dr. David B. Ast, director of the Bureau of Dental Health, New York State Department of Health, told the opening session of the American Public Health Assn.'s 85th annual meeting.

He said the American public spent \$1.6 billion in 1955 for dental care.

Tooth decay, he said, "affects practically the entire population, starting early in life, and the annual increments of defects occur at a faster rate than the corrections which can be made by dentists."

He said tooth decay could be reduced materially by cutting down on sweets and by brushing the teeth immediately after eating or drinking, but he declared both those procedures are impractical.

Advocating fluoridation of public drinking water supplies, he said studies of this technique in the United States and Canada have demonstrated its capabilities of reducing tooth decay by 60 pct.

Next Orchestra Rehearsal Dec. 2

Next regular rehearsal for the Washington C. H. and Fayette County community orchestra will be held at 7:30 p. m. Dec. 2 at the home of Mr. and Mrs. John P. Case, 330 Jupiter St. There will be no practice session tonight.

Regular schedule would have called for a rehearsal Monday night, but the orchestra members were out busy last week, playing for the Jeffersonville High School operetta, and the press of coming holiday activities is beginning to be felt, Mrs. Case said.

Karl J. Kay directs the group.

Car Plunge Kills 7

LAFAYETTE, La. (AP)—A car crashed through a bridge railing and plunged into Bayou St. Claire near here Sunday, drowning seven persons.

DOG DAYS—The Russians have sent a shaggy dog aloft in Sputnik II, so what's more natural than a curious pup showing up at the Hayden Planetarium in New York, to get latest information about space satellites. Maybe the mutt wanted to hear the "beeps" from his "pal" up above, as heard in a recording in the Planetarium.

Mainly About People

Miss Hattie Pinkerton, helping teacher and attendance officer in Miami Trace School District, has returned to her duties after a two-week illness.

CS-3 Omar E. Brakeall and Mrs. Brakeall, Bainbridge, Md., visited friends and relatives here over the weekend.

Mrs. Roy Sollars is spending several weeks in Hot Springs, Ark., the guest of Mrs. W. A. Miller.

Columbusite To Head Nation's Young Dems

RENO, Nev. (AP)—The nation's Young Democrats ended their convention Sunday with the election of Nelson Lancione of Columbus, Ohio, as new president.

One of several resolutions adopted called for "vigorous enforcement" of laws governing civil rights, saying that racial discrimination is "a disgrace."

Chicagoan Richard Crawford, first Negro ever to hold office in the organization, was elected vice president.

New Federal Building Scheduled for Toledo

WASHINGTON (AP)—The General Services Administration says it will undertake immediately the acquisition of a site for a federal building at Toledo.

The project was approved for construction under the GSA lease-purchase program. Estimated cost for the office building is \$4,950,000. GSA said site negotiations for the building would be handled through its Chicago office.

Election Expense Reports Are Due

Candidates Must
File by Dec. 5

Candidates in the Nov. 5 election must file their reports of receipts and expenditures by Dec. 5, the Fayette County Board of Elections pointed out Monday.

State law requires that reports must be filed within 30 days after the election by both successful and losing candidates. Those who fail to file cannot be candidates for public office for at least five years.

Reports are required whether or not the candidate received financial assistance or incurred expenses in his campaign.

The board asks that these reports be made as soon as possible in order to close the books on the November election.

The official board count, which is not expected to make any material changes in the results, will be completed within the next few days.

Two Accident Victims Treated

A man and a girl received emergency treatment at Memorial Hospital Saturday for non-traffic accident injuries.

Carl Arehart of Route 3, Sabina, was treated for face bruises after he was hit in the face with a hammer.

Treated for a cut over her left eye was Ronnie Anderson, 5, daughter of Mr. and Mrs. Marlyn Anderson of 930 Lakeview Ave., who ran into an open car door.

Sputnik-Spotter Hears Voice Call in English

PHILADELPHIA (AP)—A Sputnik-spotter from nearby Bryn Athyn, Kenneth Simons, reported he turned to the satellite's frequency of 20,005 megacycles and heard this message: "Here is Sputnik calling, by courtesy of the Curacao government radio and telegraph administration." Simons said the message, in English, was repeated for ten minutes. Curacao is an island in the Dutch West Indies.

Limited services were performed by all postoffices. No deliveries on city routes or rural routes were made, although mail was distributed to lobby box holders. There was no window service, but the lobbies were open for the box holder patrons.

Special delivery mail was handled as usual.

ONLY SPECIAL services to be held in the county are scheduled at 8 p. m. Monday near the World War 1 monument on the Court-house lawn. Members of the Paul H. Hughey post of the American Legion will be in charge of the memorial services and will be assisted by other veteran's organization. Also participating will be members of Company M of the Ohio National Guard and the Washington C. H. High School band.

All those taking part in the ceremony will assemble at the American Legion Hall, N. Fayette St., at 7:30 p. m. Services will last about 10 minutes, according to Legion Commander Norman Boop, after which the participants will return to the Legion Hall.

4-H Club Activities

JOLLY JUMPERS

Members of the Jolly Jumper 4-H Club decided to buy a record player for the emergency classes at Central School at a meeting at the home of their leader, Mrs. Harold Moats Saturday.

This record player will be presented to the school at the Central PTA meeting Dec. 4.

It was announced that the club made \$300 on the Christmas candle sale. Each girl received a candle for selling.

Names were drawn for the next meeting which will be the Christmas party to be held Dec. 21.

Farm House Roof Damaged by Fire

Firemen were called about 12:10 p. m. when chimney sparks from a wood fire ignited the roof of the main house on the Harold Penwell farm, Waterloo Rd.

The fire did considerable damage to a portion of the roof, but spread no further. Fire fighters were back in the station by around 1 p. m.

The house, which is covered by insurance, is on a farm owned by Dr. D. R. Junk.

Mercury Hits 19

The weather got a bit cold over the weekend. A new low for this fall recorded Sunday night when the thermometer dropped to 19 degrees. High temperature for Sunday was 43 degrees.

Besides a few radiator freeze-ups and some slow grinding starters Monday morning, no serious damage was reported.

Hearing Scheduled On Liquor Citation

The State Board of Liquor Control will hold a hearing Wednesday on a citation against the Fraternal Order of Eagles, 147 N. Fayette St., alleging sales of intoxicants to non-members.

The local aerie will be presented at the hearing, scheduled for 8:30 a. m.

Autos Damaged In Sunday Crash

Damage was moderate in a two-car auto accident on Harrison St. about 4:30 p. m. Sunday — the only mishap reported in the city over the weekend.

Miss Patricia Ann Knedler, 16, of 716 E. Market St., told police she had pulled out of an alley onto Harrison St. a half block north of Elm, when an auto driven by Miss Sandra Sue Stagg, 17, of 119 Newberry St., pulled away from the curb and hit the side of the car.

Miss Stagg told police she didn't see the Knedler car in time to stop. The doors of the Knedler car and the front end of the Stagg auto were damaged.

Only about seven per cent of youngsters used as food find their way into a can.
